KanDao MT0308

KanDao Meeting 360 Video Conference Camera (Model MT0308) - Instruction Manual

Your all-in-one solution for smarter, more inclusive remote meetings.

PRODUCT OVERVIEW

The KanDao Meeting 360 Conference Camera is an advanced all-in-one video conferencing device designed to enhance remote meeting experiences. It captures 360-degree panoramic views at 8K resolution and outputs crisp split images at 1080P, ensuring every participant is clearly visible.

Key features include AI Smart Auto Speaker Tracking, wide compatibility with major conferencing platforms, integrated dual 10W full-duplex speakerphones, and 8 omnidirectional microphones with noise and echo cancellation. The device also prioritizes data security with a secure USB physical connection and a pop-up camera design for privacy.

PACKAGE CONTENTS

Your KanDao Meeting 360 package includes:

- KanDao Meeting 360 Camera Unit
- USB Cable
- Power Adapter
- Remote Control (if applicable to model variant)
- User Manual (this document)

SETUP

The KanDao Meeting 360 is designed for plug-and-play simplicity.

1. **Power Connection:** Connect the power adapter to the camera unit and plug it into a power outlet.
2. **USB Connection:** Connect the camera unit to your computer (PC or Mac) using the provided USB cable. The device will be recognized automatically as a camera and audio device.
3. **Software Integration:** Open your preferred video conferencing platform (e.g., Zoom, Google Meet, Microsoft Teams, Skype). Select "KanDao Meeting 360" as your camera, microphone, and speaker source within the software settings.

All-in-one, Plug & Play

Perfectly protecting your privacy

OPERATING INSTRUCTIONS

The KanDao Meeting 360 offers various intelligent features to optimize your meeting experience.

360-Degree Panoramic View

The camera captures a full 360-degree view of the meeting room, ensuring all participants are visible. This panoramic view is then intelligently processed to present clear, split images at 1080P resolution.

AI Smart Auto Speaker Tracking

Leveraging advanced AI technology, the camera automatically detects and focuses on the active speaker. It dynamically recognizes and follows the presenter, ensuring the remote participants always see who is speaking.

Multi-Conference Modes

Adapt to different meeting situations with various display modes:

- **Global Mode:** Shows all participants in a panoramic view.
- **Presentation Mode:** Focuses on the presenter while maintaining a smaller panoramic view.
- **Discussion Mode:** Highlights active speakers in individual frames.

Multi-conference Modes & Easy to Use

High-Quality Audio

The device features 8 omnidirectional microphones that pick up voices up to 18 feet away, along with dual 10W full-duplex speakerphones. This setup minimizes interference noise and echo, ensuring clear sound transmission and reception.

MAINTENANCE

To ensure optimal performance and longevity of your KanDao Meeting 360 camera:

- Keep the camera lenses clean using a soft, dry cloth. Avoid abrasive materials or harsh chemicals.
- Store the device in a cool, dry place when not in use.
- Use the pop-up design to shield the camera lenses for privacy and to protect them from dust and scratches.
- Ensure proper ventilation around the device during operation.

TROUBLESHOOTING

If you encounter issues with your KanDao Meeting 360, consider the following:

- **No Video/Audio:** Ensure the USB cable is securely connected to both the camera and your computer. Verify that the camera is selected as the input/output device in your conferencing software settings.
- **Poor Video Quality:** Check your internet connection stability. Ensure the camera lenses are clean. Verify that your conferencing software is set to use 1080P output if available.
- **Audio Echo/Feedback:** Adjust the speaker volume. Ensure the microphones are not obstructed. Check for any conflicting audio devices on your computer.
- **AI Tracking Issues:** Ensure the camera has a clear view of all participants. Avoid rapid movements that might confuse the AI.

For further assistance, refer to the official KanDao support resources.

SPECIFICATIONS

Feature	Specification
Model Number	MT0308
