2. SETUP

2.1 Unboxing and Included Components

Carefully remove all components from the packaging. Ensure all items listed below are present.

- 1 LED TV
- 1 Table Stand Base
- 1 Remote Control
- 1 AV IN Adapter
- 1 AC Cord

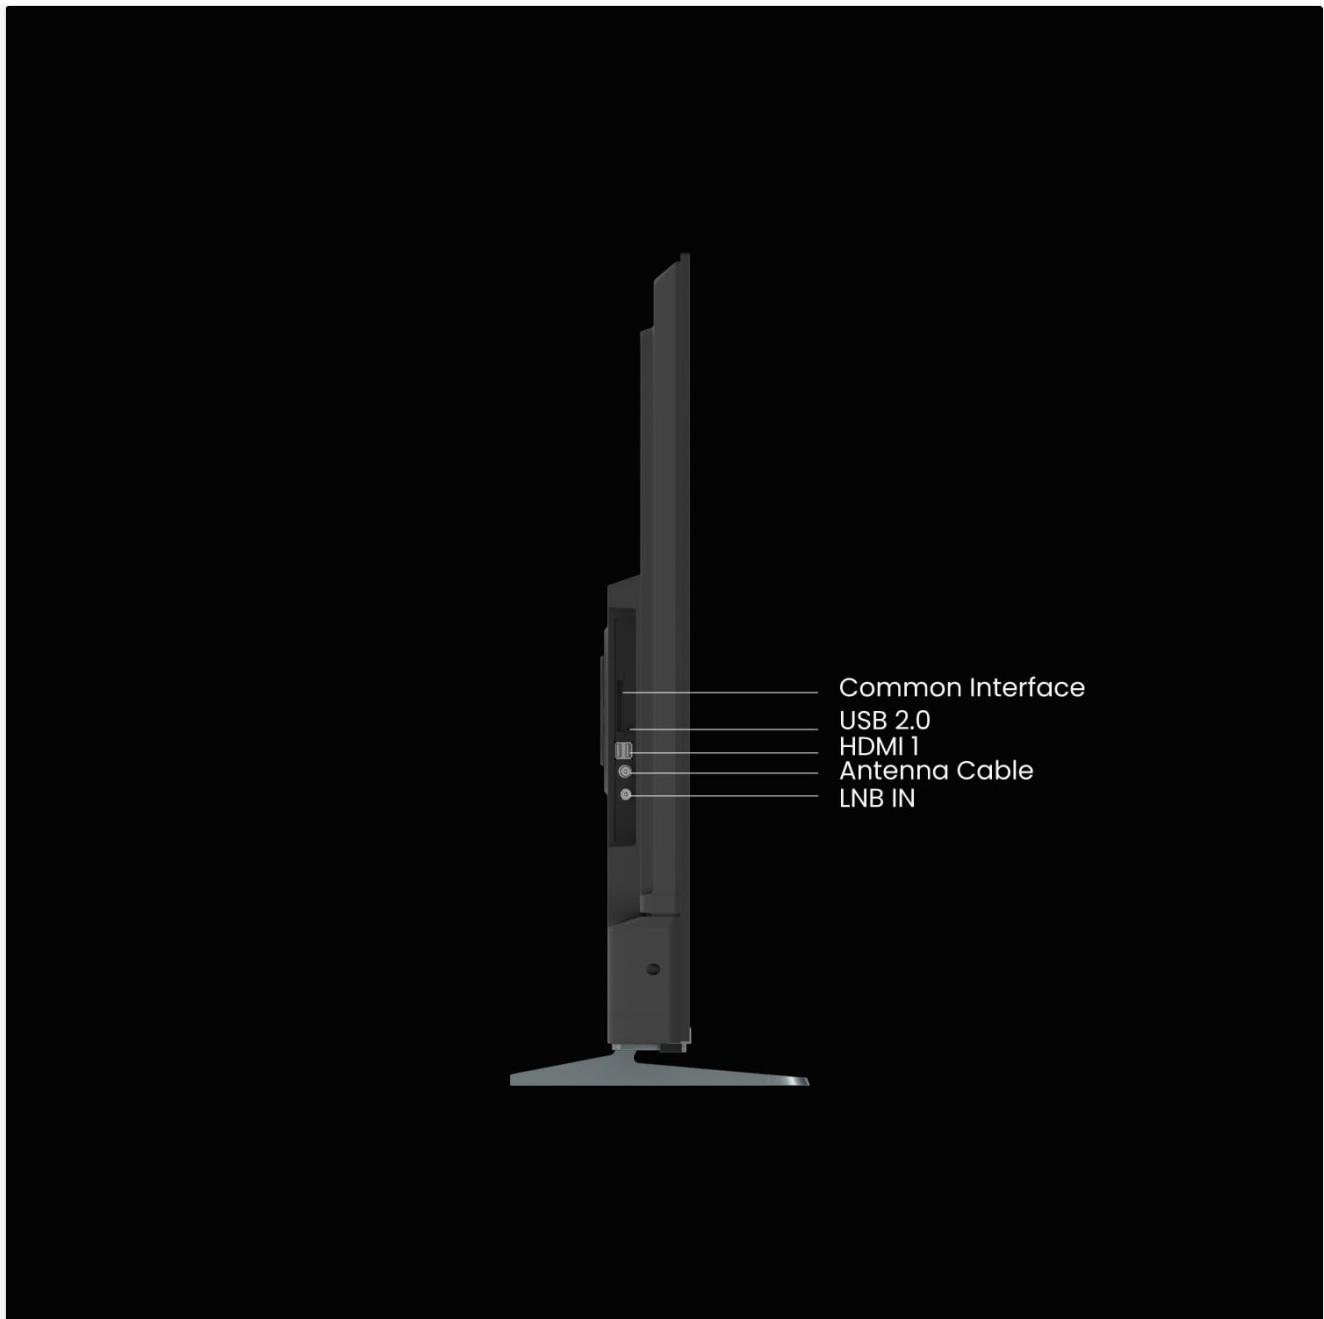

Image 2.1: Visual representation of the components included with the television.

2.2 Physical Installation

The television supports both table-top and wall-mount installations. Choose the method suitable for your environment.

- **Table Mount:** Attach the provided table stand base to the bottom of the television according to the instructions in the separate quick start guide.
- **Wall Mount:** For wall mounting, a compatible VESA wall mount bracket (not included) is required. Consult a professional for wall mounting installation.

The television dimensions are approximately 144.5 cm (width) x 87.6 cm (height) x 29 cm (depth with stand). The weight is approximately 15.9 kg without the stand and 16.4 kg with the stand.

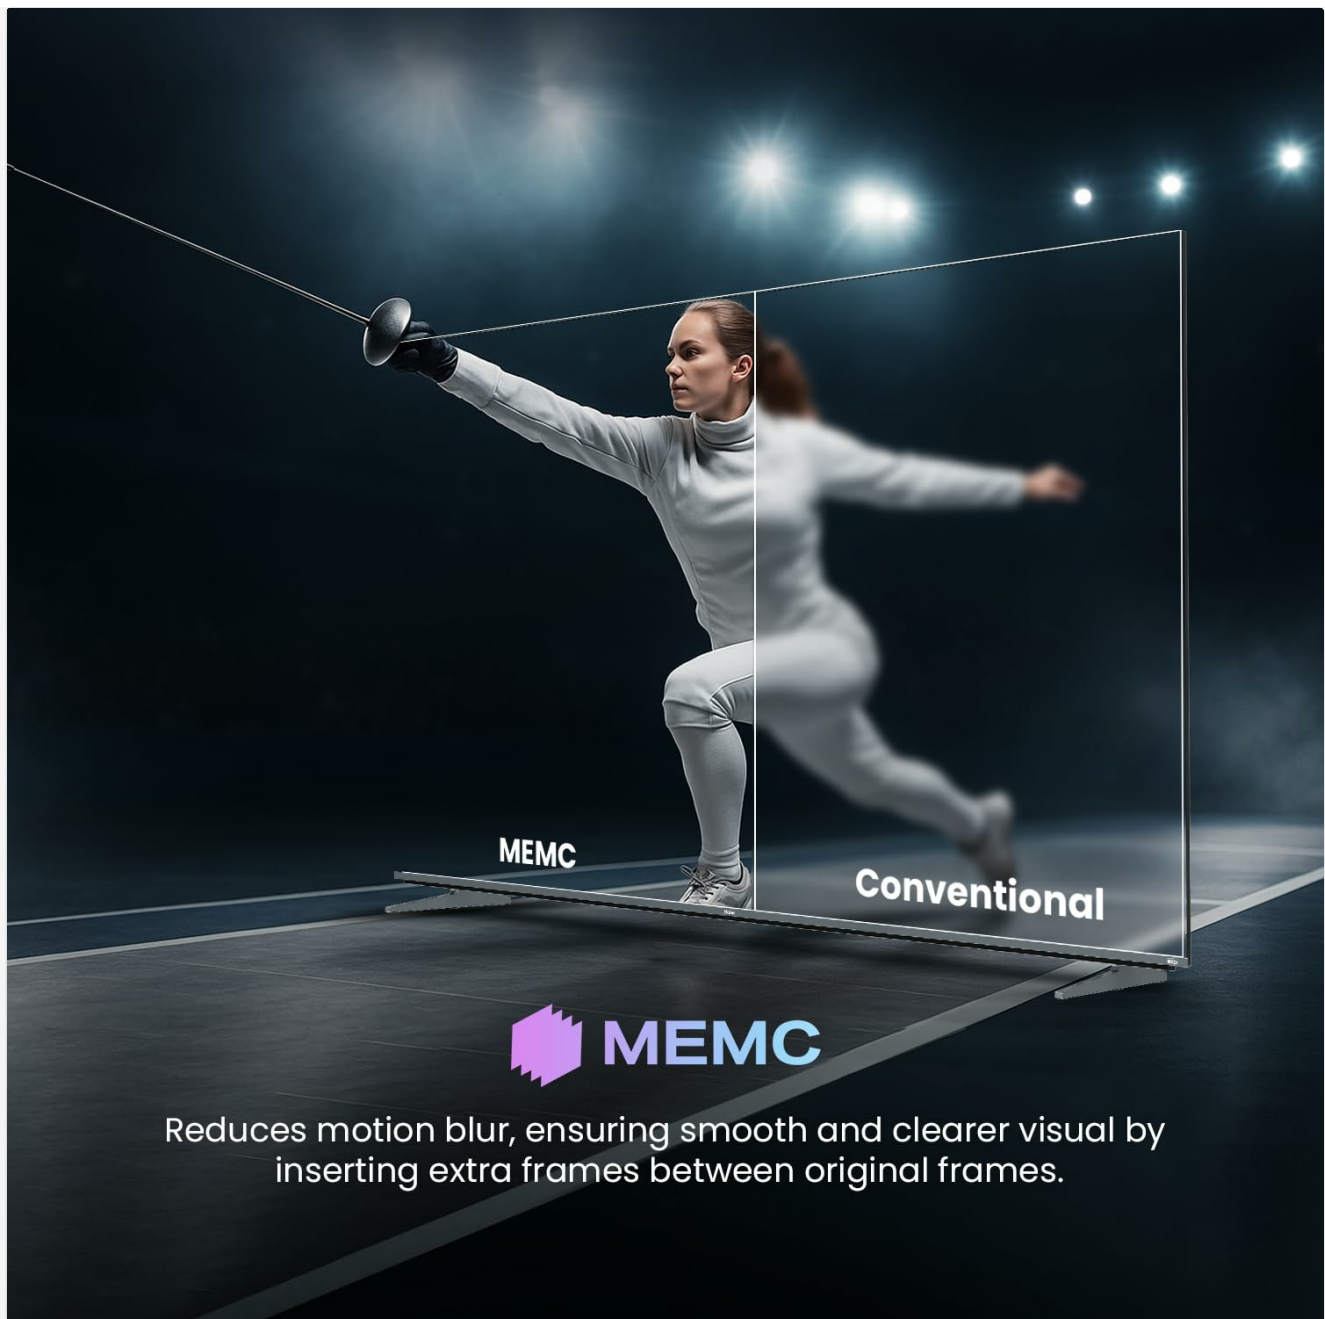

Image 3.8: Visualizing the immersive sound experience provided by Dolby Atmos and the 2.1 channel speaker system.

3.5 Gaming Features

The television is equipped with features to enhance your gaming experience.

- **AMD FreeSync Premium:** Reduces screen tearing and stuttering for smoother gameplay.
- **Variable Refresh Rate (VRR):** Dynamically adjusts the display's refresh rate to match the game's frame rate, minimizing input lag and screen tearing.
- **Auto Low Latency Mode (ALLM):** Automatically switches the TV to a low-latency mode when a gaming console is detected, reducing input lag.
- **HDMI 2.1:** Supports advanced gaming features for compatible devices.

Image 3.9: A user engaging in gaming, demonstrating the TV's Game Mode capabilities.

4. MAINTENANCE

To ensure the longevity and optimal performance of your Haier H65M80FUX TV, follow these maintenance guidelines:

- **Cleaning the Screen:** Gently wipe the screen with a soft, lint-free cloth. For stubborn marks, slightly dampen the cloth with water or a specialized screen cleaner. Avoid harsh chemicals or abrasive materials.
- **Cleaning the Frame:** Use a soft, dry cloth to clean the TV frame and stand.
- **Ventilation:** Ensure adequate airflow around the TV. Do not block ventilation openings.
- **Power Cord:** Regularly check the power cord for any damage. Unplug the TV during electrical storms or when not in use for extended periods.
- **Avoid Direct Sunlight:** Do not expose the TV to direct sunlight or extreme temperatures.

5. TROUBLESHOOTING

If you encounter issues with your television, refer to the following common troubleshooting steps:

Problem	Possible Solution
No Power	Check if the power cord is securely plugged into both the TV and the power outlet. Ensure the power outlet is functional. Try pressing the power button on the TV itself, not just the remote.
No Picture, but Sound is Present	Verify the correct input source is selected. Check all cable connections (HDMI, AV). Try restarting the TV.
No Sound, but Picture is Present	Check the volume level and ensure the TV is not muted. Verify audio cable connections. If using external speakers, ensure they are powered on and correctly connected. Check audio output settings in the TV menu.
Remote Control Not Working	Ensure there are no obstructions between the remote and the TV. Check the remote's battery level (if applicable) or ensure the solar panel is exposed to light. Re-pair the Bluetooth remote if necessary.
Poor Picture Quality	Check the signal source (antenna, cable box, streaming app). Adjust picture settings (brightness, contrast, sharpness). Ensure the resolution of the source content matches the TV's capabilities.
Network Connection Issues	Restart your router and modem. Check Wi-Fi password. If using a wired connection, ensure the Ethernet cable is properly connected. Try connecting to a different network if available.

For more complex issues, please refer to the official Haier support website or contact customer service.

6. SPECIFICATIONS
