

Aroma360 DaVinci360

Aroma360 DaVinci360 Scent Diffuser User Manual

Model: DaVinci360

INTRODUCTION

The Aroma360 DaVinci360 Scent Diffuser is designed to enhance your environment with a luxurious and consistent fragrance experience. Utilizing advanced cold air diffusion technology, this unit transforms fragrance oils into a lightweight, dry nano-mist, ensuring the therapeutic benefits and integrity of the scent are preserved. It is suitable for spaces up to 1,200 square feet and is engineered to be safe for use around pets and children. This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your DaVinci360 Scent Diffuser. Please read it thoroughly before first use to ensure optimal performance and longevity of your device.

IMPORTANT SAFETY INFORMATION

Please read and understand all safety instructions before operating this device.

- Avoid direct skin contact with undiluted essential oils. If contact occurs, wash thoroughly with soap and water.
- Ensure proper ventilation in the area where the diffuser is used.
- Keep the device and fragrance oils out of reach of children and pets.
- Do not immerse the device in water or any other liquid.
- Use only Aroma360 approved fragrance oils with this diffuser. Using other oils may damage the unit and void the warranty.
- Do not block the air vents or mist outlet during operation.
- Unplug the device from the power outlet before cleaning or when not in use for extended periods.

SETUP INSTRUCTIONS

1. **Unpack the Diffuser:** Carefully remove all components from the packaging. Retain packaging for future storage or transport.
2. **Placement:** Place the DaVinci360 diffuser on a flat, stable surface in your desired location. Ensure there is adequate space around the unit for proper air circulation and mist dispersion. Avoid placing it directly against walls or furniture that could be damaged by mist.
3. **Install Fragrance Oil:**
 - Locate the oil compartment on the diffuser.
 - Unscrew the cap from the Aroma360 fragrance oil bottle.
 - Carefully insert the fragrance oil bottle into the designated slot, ensuring it is securely seated. Do not overtighten.
4. **Connect Power:** Plug the power adapter into the DC input port on the back of the diffuser, then plug the other end into a standard electrical outlet. The unit will power on and display its default settings.

OPERATING INSTRUCTIONS

Basic Operation

- **Power On/Off:** Press the power button on the control panel to turn the unit on or off.
- **Adjusting Scent Intensity:** Use the intensity control buttons (usually '+' and '-') to increase or decrease the fragrance output. Refer to the display for current intensity level.
- **Built-in Fan:** The DaVinci360 features a built-in fan for even scent distribution. This fan operates automatically when the diffuser is active.

Programmable Weekly Timer

The DaVinci360 allows for advanced scheduling with its programmable weekly timer, enabling up to four unique operating periods per day.

1. **Accessing Timer Settings:** Press the 'Menu' or 'Set' button (refer to the specific button layout on your device's control panel) to enter the timer programming mode.
2. **Setting Time and Day:** Before setting schedules, ensure the current time and day are correctly set on the device. Use the navigation buttons to adjust.
3. **Programming Operating Periods:**
 - For each of the four available periods, set a start time and an end time.
 - Select the days of the week for which each period should be active. You can choose individual days or groups of days (e.g., Mon-Fri, Sat-Sun, or all 7 days).
 - Set the desired scent intensity level for each programmed period.
4. **Saving Settings:** After configuring your desired schedules, ensure you save the settings as prompted by the device.

For detailed guidance on programming, consult the on-screen prompts or the specific instructions provided on the device's display interface.

Security Lock Feature

The DaVinci360 includes a security lock to prevent unauthorized tampering with settings. To activate or deactivate the security lock, refer to the device's control panel instructions, typically involving a long press of a specific button combination.

MAINTENANCE

Regular maintenance ensures the optimal performance and longevity of your Aroma360 DaVinci360 Scent Diffuser.

Cleaning the Unit

1. **Power Off and Unplug:** Always turn off and unplug the diffuser from the power outlet before cleaning.
2. **Exterior Cleaning:** Wipe the exterior of the unit with a soft, damp cloth. Do not use abrasive cleaners or

solvents.

- 3. **Oil Nozzle Cleaning (if applicable):** If the mist output seems reduced, gently wipe the nozzle area with a cotton swab lightly dampened with rubbing alcohol. Ensure no liquid enters the internal components.
- 4. **Air Filter (if applicable):** Some models may have an accessible air filter. Refer to the device's specific instructions for cleaning or replacing the filter if present.

Replacing Fragrance Oil

- 1. **Power Off and Unplug:** Turn off and unplug the diffuser.
- 2. **Remove Empty Bottle:** Carefully unscrew and remove the empty fragrance oil bottle from its compartment.
- 3. **Install New Bottle:** Take a new Aroma360 fragrance oil bottle, unscrew its cap, and insert it securely into the compartment.
- 4. **Power On:** Plug the diffuser back in and power it on.

TROUBLESHOOTING

If you encounter issues with your DaVinci360 Scent Diffuser, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No mist or weak mist output.	Oil bottle empty or not properly installed. Nozzle clogged. Intensity setting too low.	Check oil level and ensure bottle is securely seated. Clean the nozzle gently with a cotton swab and rubbing alcohol. Increase the scent intensity setting.
Unit not turning on.	Power adapter not connected. Power outlet issue. Security lock activated.	Ensure power adapter is fully plugged into both the unit and the wall outlet. Test the outlet with another device. Deactivate the security lock (refer to Operating Instructions).
Scent is not consistent.	Improper placement. Airflow obstruction. Oil quality or type.	Relocate the diffuser to a more open area. Ensure no objects are blocking the mist outlet or fan. Use only genuine Aroma360 fragrance oils.

If the problem persists after trying these solutions, please contact Aroma360 customer support for further assistance.
