Key Features:

- **Soft HD Transparent Lace:** Provides an undetectable blend with various skin tones.
- **5" Deep Parting:** Allows for versatile styling and a natural part line.
- **Completely Pre-Plucked Hairline & Sideburns:** Eliminates the need for additional plucking, saving time and effort.

- **Pre-Attached Wide Elastic Band:** Ensures a secure and comfortable glueless fit.
- **Fast, Easy & Effortless Glueless Installs:** Designed for quick and simple application without adhesive.
- **Natural Baby Hairs:** Enhances the realistic appearance of the hairline.
- **Redesigned ComfortFit Ear Contour:** Provides a snug and comfortable fit around the ears.

KEY FEATURES

- Soft HD Transparent Lace
- 5" Deep Parting
- Completely Pre-Plucked Hairline & Sideburns
- Pre-Attached Wide Elastic Band for a Secure Fit
- Fast, Easy & Effortless Glueless Installs
- Natural Baby Hairs
- Redesigned ComfortFit Ear Contour

CARE GUIDE

- Detangle hair from end to root before shampooing
- Carefully wash in lukewarm water with mild shampoo
- Do not rub or twist, but gently finger comb the hair
- Follow with conditioner and rinse in similar fashion
- Pat dry with a towel and do not rub or roll the hair
- Air dry or blow dry with a diffuser or as recommended by your stylist
- To avoid stretching or damaging the cap, do not place a damp wig on mannequin or styrofoam head
- Styling tools should only be used when completely dry
- Use electric curling or flat iron with temperature up to 400°F

2. SETUP AND APPLICATION

The Melted Hairline wig is designed for a quick and easy glueless installation. Follow these steps for optimal application:

1. **Preparation:** Gently remove the wig from its packaging. Ensure your natural hair is flat and secured, either braided or in a wig cap.
2. **Positioning:** Place the wig on your head, aligning the pre-plucked hairline with your natural hairline. The 5-inch deep parting allows for flexible placement.
3. **Secure Fit:** Utilize the pre-attached wide elastic band to secure the wig firmly. Adjust the ComfortFit ear contours for a snug and comfortable fit around your ears.
4. **Blending:** The HD transparent lace is designed to blend seamlessly. Gently press the lace down to adhere to your skin. No plucking is required due to the pre-plucked hairline and baby hairs.

3. USAGE AND STYLING

The Outre Melted Hairline wig is made from high-quality synthetic fibers that are heat resistant up to 400°F. This allows for versatile styling options.

- **Daily Wear:** The wig is designed for comfortable daily wear. Adjust as needed throughout the day for comfort.
- **Heat Styling:** Use electric curling or flat irons with temperature up to 400°F. Always perform a patch test on a small, inconspicuous section of hair first to ensure desired results and prevent damage.
- **Brushing:** Use a wide-tooth comb or a wig brush to gently detangle the hair, starting from the ends and working your way up to the roots.
- **Parting:** The 5-inch deep parting allows you to change the part location for different looks.

4. MAINTENANCE AND CARE

Proper care will extend the life and maintain the beauty of your Outre Melted Hairline wig. Follow these guidelines:

- **Detangling:** Before washing, gently detangle hair from end to root using a wide-tooth comb.

- **Washing:** Carefully wash in lukewarm water with a mild shampoo. Do not rub or twist the hair; instead, gently finger comb through it.
- **Rinsing:** Follow with conditioner and rinse in a similar fashion. Ensure all product is thoroughly rinsed out.
- **Drying:** Pat dry with a towel. Do not rub or roll the hair. Air dry or blow dry with a diffuser as recommended by your stylist.
- **Storage:** To avoid stretching or damaging the cap, do not place a damp wig on a mannequin or styrofoam head. Store on a wig stand or in its original packaging when not in use.
- **Styling Tools:** Styling tools should only be used when the wig is completely dry.

5. TROUBLESHOOTING

If you encounter any issues with your wig, consider the following common solutions:

- **Tangling:** Synthetic wigs can tangle over time. Use a wig-specific detangling spray and a wide-tooth comb, starting from the ends and working upwards. Avoid excessive brushing when wet.
- **Shedding:** Minimal shedding is normal, especially during the first few wears. Excessive shedding may indicate rough handling or improper care. Ensure gentle brushing and washing.
- **Loss of Style/Curl:** If the wig loses its original style, you can re-style it using heat tools within the recommended temperature limit (up to 400°F). Ensure the wig is clean and dry before styling.
- **Unnatural Shine:** Some synthetic wigs may have an initial unnatural shine. This can often be reduced by applying a small amount of dry shampoo or baby powder, then gently brushing it through.
- **Fit Issues:** If the wig feels too loose or tight, adjust the elastic band and ensure your natural hair is properly flattened underneath. The ComfortFit ear contours should help with a secure fit.

6. PRODUCT SPECIFICATIONS

Feature	Detail
