

JAETON M01

JAETON Small Flat Iron (0.3 Inch) Instruction Manual

Model: M01

1. IMPORTANT SAFETY INFORMATION

Please read all safety warnings and instructions before using this appliance. Failure to follow these instructions may result in electric shock, fire, or injury.

- **Burn Hazard:** Surfaces of the flat iron become extremely hot during use. Avoid direct contact with skin, especially the scalp, ears, and neck. Use caution when handling.
- **Electric Shock Risk:** Keep the appliance away from water. Do not use near bathtubs, sinks, showers, or any other water-filled containers. Do not immerse the appliance in water or any other liquid. If the appliance falls into water, unplug it immediately. Do not reach into the water.
- **Fire Risk:** Unplug the appliance immediately after use and when not in use. Never leave the appliance unattended when plugged in. Do not place the appliance on heat-sensitive surfaces while it is hot or plugged in. Ensure the appliance is placed on a heat-resistant surface during use.
- **Children:** Keep this appliance out of reach of children. This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- **Damage:** Do not operate the appliance with a damaged cord or plug. If the appliance is not working properly, has been dropped, or damaged, contact customer support. Do not attempt to repair the appliance yourself.
- **Ventilation:** Do not block the air openings or place the appliance on a soft surface, such as a bed or couch, where the air openings may be blocked.

2. PRODUCT OVERVIEW

The JAETON Small Flat Iron is a compact and versatile hair styling tool designed for precision styling of short hair, edges, bangs, and pixie cuts. It features ceramic tourmaline plates for smooth results and dual voltage for travel convenience.

Key Features

- **Ultra-Thin 0.3 Inch Plates:** Ideal for detailed styling on short hair, edges, bangs, and beards.
- **Fast Heat-Up:** PTC heating technology allows the iron to reach 410°F (210°C) in approximately 30 seconds.
- **Adjustable Temperature:** Two temperature settings: 356°F (180°C) and 410°F (210°C).
- **Ceramic Tourmaline Floating Plates:** Designed to conform to hair, reduce frizz, and maintain hair's natural moisture for smoother, shinier results.
- **Dual Voltage (110-240V):** Suitable for international travel.
- **360° Swivel Cord:** Prevents tangling and twisting during use.
- **Lightweight and Portable:** Weighs approximately 0.48 pounds for easy handling and travel.

4. SETUP

Follow these steps to set up your JAETON Small Flat Iron for first use:

1. **Unpack:** Carefully remove the flat iron and all accessories from the packaging.
2. **Inspect:** Check the appliance for any visible damage. Ensure the power cord and plug are intact.
3. **Placement:** Place the flat iron on a flat, heat-resistant surface, away from water and flammable materials.
4. **Plug In:** Insert the power plug into a suitable electrical outlet (110-240V). The appliance is designed for dual voltage, making it compatible with various international power standards.

5. OPERATING INSTRUCTIONS

5.1 Powering On/Off

To turn the flat iron on, slide the power switch to the 'ON' position. The indicator lights will illuminate. To turn it off, slide the switch to the 'OFF' position.

5.2 Temperature Settings

The flat iron offers two temperature settings:

- **Low:** 356°F (180°C) - Recommended for fine, delicate, or color-treated hair.
- **High:** 410°F (210°C) - Recommended for normal to thick or coarse hair.

Select the desired temperature by sliding the temperature switch. The flat iron heats up quickly, reaching the selected temperature in approximately 30 seconds.

Figure 5.1: The flat iron features fast heat-up technology, reaching optimal temperature in about 30 seconds.

5.3 Straightening Hair

For best results, ensure your hair is clean, dry, and detangled before styling. Apply a heat protectant spray if desired.

1. Divide your hair into small, manageable sections. For short hair or edges, smaller sections are more effective.
2. Take one section of hair and place it between the heating plates, close to the roots.
3. Gently close the plates and glide the flat iron slowly and steadily down the hair section, from root to tip. Avoid holding the iron in one place for too long to prevent heat damage.
4. Repeat the process for all sections until desired straightness is achieved.

Figure 5.2: Demonstrating the use of the mini flat iron for straightening hair sections.

5.4 Curling Hair

The slim design of this flat iron also allows for creating curls and waves.

1. Take a small section of hair.
2. Clamp the flat iron onto the hair section where you want the curl to begin.
3. Rotate the flat iron 180 degrees away from your face, then slowly pull it down through the hair section to the ends. The speed at which you pull will affect the tightness of the curl.
4. Release the hair and allow the curl to cool before touching it to set the style.
5. Repeat for all sections.

Lock Feature for Safe Storage and Travel

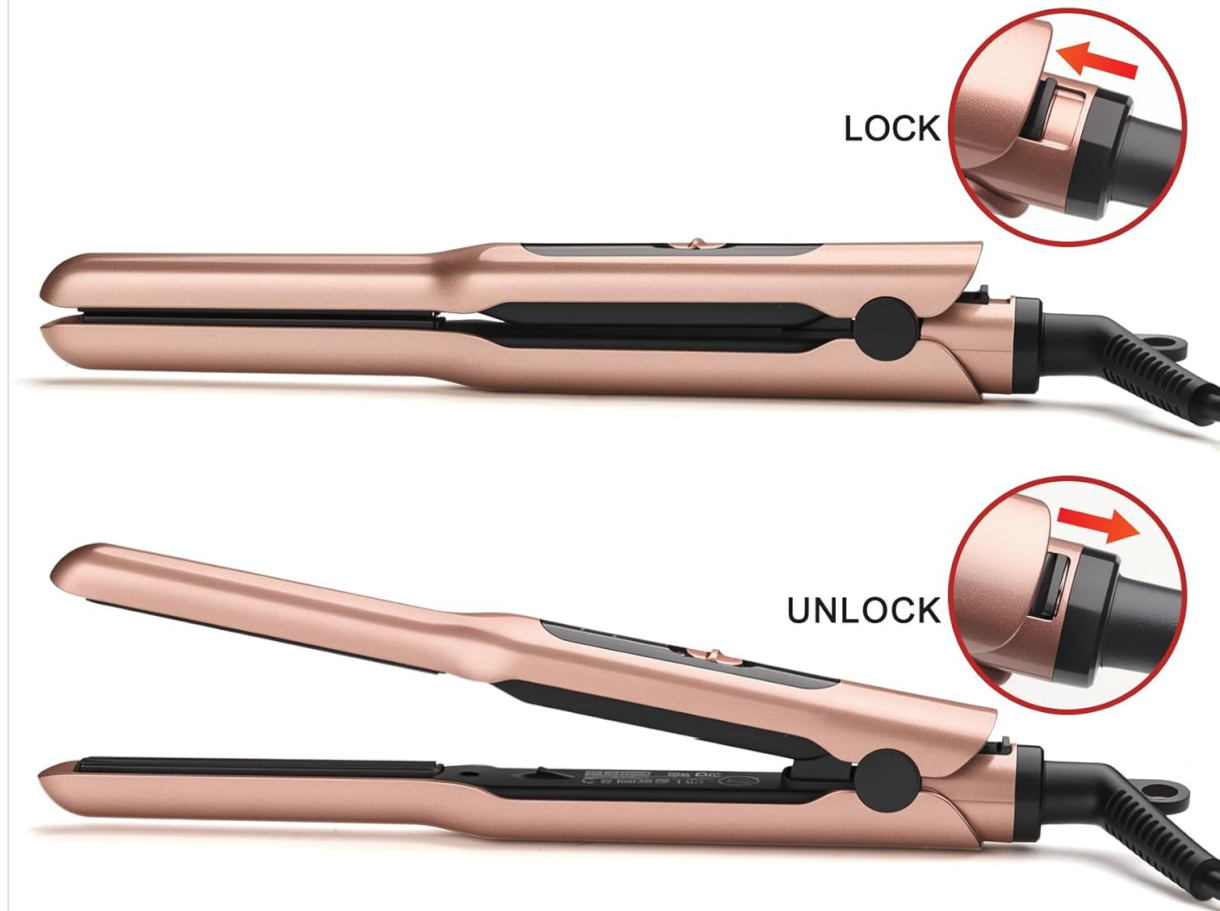

Figure 5.3: Illustrating how to create curls using the JAETON Mini Flat Iron.

5.5 Using the Lock Feature

The flat iron includes a lock feature for safe storage and travel, keeping the plates closed.

- **To Lock:** After ensuring the appliance is cool and unplugged, push the lock switch towards the plates to secure them in a closed position.
- **To Unlock:** Push the lock switch away from the plates to release them for use.

Figure 5.4: The lock feature keeps the plates closed for compact storage and travel.

6. MAINTENANCE

6.1 Cleaning

Regular cleaning helps maintain the performance and longevity of your flat iron.

1. Ensure the appliance is unplugged and completely cool before cleaning.
2. Wipe the exterior surfaces and heating plates with a soft, damp cloth.
3. Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the plates or casing.
4. Ensure no water enters the appliance.

6.2 Storage

Proper storage protects your flat iron from damage.

1. Always ensure the appliance is completely cool and unplugged before storing.
2. Engage the plate lock feature for compact and safe storage.
3. Store the flat iron in a dry place, away from moisture and direct sunlight.

- Do not wrap the power cord tightly around the appliance, as this can cause damage to the cord.

7. TROUBLESHOOTING

If you encounter any issues with your JAETON Small Flat Iron, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in correctly, power outlet issue, or power switch is off.	Ensure the power cord is securely plugged into a working outlet. Check the power switch is in the 'ON' position. Test the outlet with another device.
Appliance is not heating up.	Temperature setting is too low, or internal fault.	Verify the temperature switch is set to the desired heat level (356°F or 410°F). Allow sufficient time for heating (approx. 30 seconds). If the issue persists, contact customer support.
Hair is pulling or snagging.	Hair is not properly detangled, or plates are dirty.	Ensure hair is thoroughly detangled before styling. Clean the plates as per maintenance instructions. Use smaller hair sections.
Styling results are not satisfactory.	Incorrect temperature setting, or hair sections are too large.	Adjust the temperature setting according to your hair type. Work with smaller, more manageable sections of hair. Glide the iron more slowly through hair.

8. SPECIFICATIONS

Detailed technical specifications for the JAETON Small Flat Iron (Model M01).

Feature	Specification
Model Number	M01
Plate Size	0.3 Inch (Ultra-Thin)
Heating Technology	PTC
Plate Material	Ceramic Tourmaline
Temperature Settings	356°F (180°C), 410°F (210°C)
Heat-Up Time	Approx. 30 seconds to 410°F
Voltage	110-240V (Dual Voltage)
Power Source	Corded Electric
Cord Length	360° Swivel Cord
