SMALLRIG 5326

SMALLRIG 5326 9.8-inch Adjustable Friction Magic Arm with Super Clamp and Phone Holder Instruction Manual

Model: 5326

1. INTRODUCTION

Thank you for choosing the SMALLRIG 5326 Adjustable Friction Magic Arm with Super Clamp and Phone Holder. This versatile accessory is designed to provide flexible and secure mounting solutions for various camera equipment, smartphones, and accessories. Its robust construction and adjustable design make it an essential tool for content creators, photographers, and videographers.

2. WHAT'S IN THE BOX

- Super Clamp x 1
- Magic Arm x 1
- Smartphone Clamp x 1

Package (ID 5326)

Super Clamp × 1

Magic Arm × 1

Smartphone Clamp × 1

Compatibility

Load capacity: 1.5kg / 3.3lb

Phone Holder Clamping Range: Compatible with smartphones 60-90mm (2.4-3.5in) wide and ≤15mm (0.6in) thick

Product Dimensions

220.0 × 110.0 × 40.0mm /
8.6 × 4.3 × 1.5in

Net Weight

427.0 ± 5.0g /
15.0 ± 0.2oz

Package Weight

457.0 ± 5.0g /
16.1 ± 0.2oz

Package Dimensions

221.0 × 112.5 × 40.0mm /
8.7 × 4.4 × 1.6in

Material(s)

Aluminum Alloy, Stainless Steel

3. PRODUCT FEATURES

- **Versatile and Expandable:** The kit integrates a magic arm, a super clamp, and a smartphone clamp. The super clamp is equipped with 1/4"-20 & 3/8"-16 threaded holes, and the magic arm has 1/4"-20 screws on both ends, ensuring broad compatibility.
- **Super Clamp:** Features a 0.5"-2" (14-50mm) opening range for stable clamping on flat or tubular objects. Constructed from lightweight aluminum alloy, it includes 1/4"-20 and 3/8"-16 thread holes for mounting on tubes, tables, tripod legs, or stabilizer rings.
- **Anti-Deflection Design:** The joint between the magic arm and super clamp incorporates an anti-deflection design to prevent loosening and detachment. Protective pads line the clamp's jaws to prevent scratches and enhance stability. The magic arm's maximum load capacity is 3.3lb (1.5kg).

- **360° Rotation:** Double 360-degree ball head articulating design allows for angle adjustments. With 1/4" threads on both ends, it can mount on-camera flash lights, microphones, LCD monitors, DV monitors, and other accessories.
- **Smartphone Clamping:** Includes a phone holder with 1/4"-20 threaded holes, featuring horizontal clamping adjustable from 60mm to 90mm. It provides a secure grip for stable phone mounting during filming.

Image: Close-up view highlighting key features such as 360° wingnut, dual 1/4"-20 screws, rubber pads, and 3/8"-16 & 1/4"-20 threaded holes.

4. SETUP

4.1 Attaching the Magic Arm to the Super Clamp

1. Identify the 1/4"-20 screw on one end of the Magic Arm.
2. Locate the corresponding 1/4"-20 threaded hole on the Super Clamp.
3. Screw the Magic Arm onto the Super Clamp until it is finger-tight.
4. Use the wingnut on the Magic Arm to secure the connection and adjust the angle.

4.2 Attaching the Smartphone Clamp to the Magic Arm

1. Identify the 1/4"-20 screw on the other end of the Magic Arm.
2. Locate the 1/4"-20 threaded hole on the Smartphone Clamp.
3. Screw the Smartphone Clamp onto the Magic Arm until it is secure.
4. Adjust the angle of the smartphone clamp using the Magic Arm's wingnut.

4.3 Mounting the Super Clamp

1. Turn the T-handle of the Super Clamp counter-clockwise to open the jaws.
2. Position the clamp around a flat or tubular object (e.g., table edge, tripod leg, pole).
3. Turn the T-handle clockwise to tighten the jaws until the clamp is firmly secured. Ensure the protective pads are making full contact with the surface.

Super Crab Clamp

The super clamp increases the contact area for more stable clamping of flat or tubular objects.

Tubular object

Flat object

Opening range:
14-50mm/
0.5-2"inch

Image: The Super Clamp demonstrating its opening range (14-50mm / 0.5-2 inches) and its ability to securely clamp onto both tubular and flat objects.

5. OPERATING INSTRUCTIONS

5.1 Adjusting the Magic Arm

The Magic Arm features double 360-degree ball heads. To adjust the angle, loosen the central wingnut. Position the arm to your desired angle, then tighten the wingnut firmly to lock it in place. The anti-deflection design ensures stability once tightened.

5.2 Using the Smartphone Clamp

The smartphone clamp is designed for horizontal clamping. Gently pull apart the spring-loaded jaws to insert your smartphone. The clamp accommodates phones between 60mm and 90mm wide. Ensure your phone is securely seated before releasing the jaws.

For phone clamping

The smartphone clamp features horizontal clamping, adjustable from 60mm to 90mm

Image: Illustration of the smartphone clamp's adjustable range from 60mm to 90mm, demonstrating how it securely holds various phone sizes.

6. MULTIPLE APPLICATIONS

The SMALLRIG 5326 kit offers extensive versatility for various setups:

- **Camera Mounting:** Attach action cameras, mirrorless cameras (within weight limits), or DSLRs to tripods, light stands, or other surfaces.

- **Accessory Mounting:** Securely hold LCD monitors, LED lights, microphones, or other camera accessories in optimal positions.
- **Smartphone Use:** Mount your smartphone for vlogging, live streaming, video calls, or as a monitor for your camera.

Multiple Applications

It can be mounted virtually anywhere, such as tubes, tables, tripod legs, or stabilizer handheld ring and so on.

Video: Official SMALLRIG demonstration of the 10-inch magic arm with super clamp, showcasing its flexibility and various mounting possibilities for cameras and accessories.

7. MAINTENANCE

- Regularly inspect all screws and joints for tightness.
- Clean the product with a soft, dry cloth. Avoid abrasive cleaners.
- Store in a dry, cool place away from direct sunlight and extreme temperatures.
- Ensure the rubber pads on the super clamp are clean and free of debris for optimal grip.

8. TROUBLESHOOTING

- **Issue: Arm does not hold position.**
Solution: Ensure the central wingnut on the Magic Arm is tightened sufficiently. The anti-deflection design requires firm tightening for maximum stability.
- **Issue: Clamp slips on surface.**
Solution: Verify that the T-handle on the Super Clamp is fully tightened. Check the clamping surface for any oil, grease, or debris that might reduce friction. Ensure the rubber pads are intact and clean.
- **Issue: Device feels unstable on the arm.**
Solution: Confirm that the 1/4"-20 screws are securely fastened to your device and the arm. Ensure the total weight of your mounted equipment does not exceed the maximum load capacity of 3.3lb (1.5kg).

9. SPECIFICATIONS

Attribute	Value
Model Number	5326

Product Dimensions	8.66 x 4.33 x 1.57 inches (220.0 x 110.0 x 40.0mm)
Item Weight	15.1 ounces (427 Grams)
Max Load Capacity (Magic Arm)	3.3lb / 1.5kg
Super Clamp Opening Range	0.5"-2" / 14-50mm
Smartphone Clamp Range	60-90mm wide, ≤15mm thick
Material(s)	Aluminum Alloy, Stainless Steel

Max Load Capacity

It is made of Aluminum Alloy, sturdy and lightweight. The maximum load capacity of the magic arm is 3.3lb/1.5kg.
