If you encounter any issues with your dresser, refer to the following common problems and solutions:

- **Obstructions:** Look for any objects or debris obstructing the drawer's path or the slide mechanism.

### 7.2. Dresser Wobbles

- **Level Surface:** Ensure the dresser is placed on a flat, level surface.
- **Tighten Fasteners:** Re-tighten all assembly screws and bolts throughout the dresser frame.
- **Anti-Tip Kit:** Confirm the anti-tip kit is securely installed, as this also contributes to overall stability.
