### 3. SETUP INSTRUCTIONS

Assembly of the Battle Cave is required. Please follow these steps:

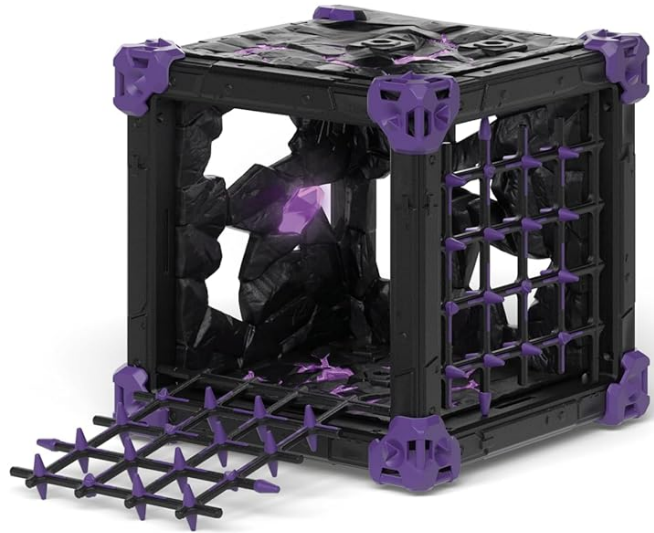

1. Unpack all 27 pieces from the packaging.
2. Connect the base and top panels of the cave structure using the corner connectors.
3. Attach the side panels, ensuring they fit securely into the designated slots.
4. Insert the flexible spiked gates into the openings on either side of the cave. These gates are made of a rubbery material.
5. Assemble the sawblade launcher arm. Attach the sawblade disc to the launcher mechanism.
6. Mount the assembled sawblade launcher onto the top of the Battle Cave structure. The arm can rotate 360 degrees.
7. Locate the purple crystal and insert it into the designated slot on the back wall of the cave.

8. Place the Shadow Tiger figure inside or outside the cave as desired.

## 4. OPERATING INSTRUCTIONS

The Battle Cave playset offers interactive features for dynamic play:

- **Shadow Tiger Figure:** The Shadow Tiger figure is highly detailed and well-balanced, allowing for various poses during play.
- **Spiked Gates:** The two flexible spiked gates on either side of the cave can be opened and closed to trap or release figures. They are made of a rubbery material for durability.
- **Sawblade Launcher:**
  - The launcher arm can rotate 360 degrees to aim in any direction.
  - Pushing the launcher arm back and forth causes the sawblade to spin.
  - To launch the sawblade, press firmly on the designated launch button/area on the launcher. The sawblade will launch in a downward trajectory, ideal for defending the cave entrance.

- The sawblade can be easily reattached to the launcher after being fired.
- **Hidden Crystal:** The purple crystal can be removed and reinserted into the back wall of the cave, or placed in an alternative slot on the opposite side.

## 5. MAINTENANCE

---

- **Cleaning:** Wipe the playset and figures with a damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the playset in a cool, dry place away from direct sunlight to prevent material degradation.
- **Inspection:** Periodically check all connections and moving parts to ensure they are secure and functioning correctly.

## 6. TROUBLESHOOTING

---

- **Sawblade not launching:** Ensure the sawblade is correctly seated in the launcher mechanism and press firmly.
- **Parts not fitting:** Refer to the assembly instructions (Section 3) and ensure all pieces are oriented correctly. Some force may be required for secure connections.
- **Loose parts:** If any parts become loose, reattach them securely. If a part is broken, discontinue use and contact customer support.
