## Schleich 42720

# Schleich Wild Life Animal Rescue Playset Instruction Manual

Model: 42720

For ages 5-12 years

## INTRODUCTION

Thank you for choosing the Schleich Wild Life Animal Rescue Playset. This manual provides important information for the assembly, operation, and maintenance of your new toy. Please read these instructions carefully before use and retain them for future reference.

This playset is designed to facilitate imaginative play and develop fine motor skills through engaging animal rescue scenarios.

## SAFETY INFORMATION

**WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.**

This product contains small parts and projectiles. Please ensure all components are handled appropriately to prevent choking hazards. Do not aim projectiles at eyes or face. Only use projectiles supplied or recommended by the manufacturer.

Adult supervision is recommended during assembly and play, especially for younger children within the recommended age range.

## WHAT'S IN THE BOX

The playset includes an animal rescue truck, a trailer, a poseable ranger figure, an elephant figure, and various accessories for rescue missions.

## ASSEMBLY INSTRUCTIONS

The Schleich Wild Life Animal Rescue Playset requires assembly. Please follow these steps carefully. Adult assistance is recommended for assembly.

1. **Unpack all components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface. Verify that all listed components are present.
2. **Assemble the Truck Chassis:** Connect the main truck body parts as indicated in the diagram. Ensure all connections are secure.
3. **Attach Wheels:** Securely attach the wheels to the truck chassis.
4. **Install Cabin and Roof Accessories:** Place the truck cabin onto the chassis. Attach any roof-mounted accessories, such as lights or the crane mechanism, ensuring they are firmly in place.

5. **Assemble the Trailer:** Connect the trailer base and side panels. Attach the trailer wheels.
6. **Connect Trailer to Truck:** Securely attach the trailer to the truck's hitch mechanism.
7. **Apply Stickers (if applicable):** Carefully apply any decorative stickers to the designated areas on the truck and trailer, following the provided guide.
8. **Prepare Figures:** The ranger figurine is poseable. The elephant figure is ready for play.

*Note: Some parts may require a firm push to snap into place. Do not force parts if they do not fit; re-check the instructions.*

## OPERATING INSTRUCTIONS

This playset encourages open-ended imaginative play. Here are some suggestions for operating the various features:

- **Driving the Truck:** The truck is free-rolling. Push it along flat surfaces to simulate driving to rescue locations.
- **Using the Crane/Winch:** The truck features a movable crane or winch. Use it to lift and lower the rescue net or other accessories. Rotate the crane arm and adjust its height as needed for different rescue scenarios.
- **Loading Animals:** The trailer is designed to transport animal figures. Open the ramp or side panels to load the elephant or other Schleich animal figures.
- **Poseable Ranger:** The ranger figurine has movable limbs, allowing for various poses to interact with the animals and equipment.
- **Rescue Scenarios:** Create diverse rescue missions. For example, use the net to "rescue" an animal, transport it in the trailer, and have the ranger provide "care."

## MAINTENANCE AND CARE

To ensure the longevity of your Schleich Wild Life Animal Rescue Playset, follow these simple maintenance guidelines:

- **Cleaning:** Wipe figures and playset components with a damp cloth. Do not use harsh chemicals or abrasive

cleaners, as these may damage the paint or plastic.

- **Storage:** Store the playset in a cool, dry place away from direct sunlight to prevent fading or material degradation.
- **Inspection:** Periodically inspect all parts for wear and tear, especially moving parts and connections. Discontinue use if any part is broken or damaged.
- **Small Parts:** Keep small accessories and figures away from very young children to avoid choking hazards.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Parts do not fit during assembly.	Incorrect orientation or misalignment.	Review the assembly instructions carefully. Ensure parts are oriented correctly before applying pressure.
Truck wheels squeak.	Friction on axles.	Apply a small amount of non-toxic lubricant (e.g., petroleum jelly) to the wheel axles.
Playset feels unstable after assembly.	Loose connections.	Check all connection points to ensure they are fully snapped into place.
