Lisciani Giochi 110353 Slumi Science Creature Glow in the Dark Instruction Manual

MODEL: 110353

Brand: Lisciani

INTRODUCTION

This manual provides comprehensive instructions for the Lisciani Giochi 110353 Slumi Science Creature Glow in the Dark kit. This kit allows users to create various squishy creatures and toys that glow in the dark, combining scientific exploration with creative play. Please read all instructions carefully before beginning.

SAFETY INFORMATION

Please observe the following safety guidelines:

- Complies with the latest safety regulations.
- Not suitable for children under the age of 8.
- Always read the instructions on the packaging before use.
- Adult supervision is recommended, especially for younger users.
- No batteries are required for the main components, but an LED light is included.

INCLUDED COMPONENTS

The Lisciani Giochi 110353 kit contains the following items:

- Squish glue A
- Squish glue B
- Small mixing bowl

- Spatula
- Glow-in-the-dark pigment
- Axolotl mold
- Balloons
- Slime powder
- LED light
- Double-sided sheet
- Illustrated manual (this document)

SETUP

1. **Prepare your workspace:** Ensure you have a clean, flat, and protected surface. It is advisable to cover the surface with newspaper or a protective mat.
2. **Gather all components:** Unpack all items from the kit and ensure all listed components are present.
3. **Read instructions thoroughly:** Before mixing any ingredients, familiarize yourself with the entire process outlined in this manual.

OPERATING INSTRUCTIONS: CREATING GLOW-IN-THE-DARK SQUISHY CREATURES

Follow these steps to create your glowing squishy creatures:

1. Prepare the Squish Mixture:

- In the small mixing bowl, combine Squish Glue A and Squish Glue B according to the ratios specified in the detailed illustrated manual provided in the kit.
- Use the spatula to mix the glues thoroughly until a uniform consistency is achieved.

2. Incorporate Glow-in-the-Dark Pigment:

- Carefully add the glow-in-the-dark pigment to the squish mixture. Start with a small amount and add more gradually to achieve desired glow intensity.
- Mix well until the pigment is evenly distributed throughout the mixture.

3. Forming Creatures with the Axolotl Mold:

- Pour or spoon the prepared squish mixture into the axolotl mold. Ensure the mold is filled completely without air bubbles.
- Allow the mixture to set and cure according to the times specified in the kit's illustrated manual.
- Once set, carefully remove the creature from the mold.

4. Creating Squishy Balls with Balloons:

- Prepare the slime powder mixture as directed in the kit's manual.
- Carefully insert the prepared slime or squish mixture into the provided balloons. This may require a funnel or careful pouring.
- Tie the balloon securely to create a squishy ball.

5. Activating the Glow:

- To make your creations glow, expose them to a light source for a few minutes. The included LED light can be used for this purpose.
- Turn off the room lights to observe the glow-in-the-dark effect.

Image: An illustration showing various glowing squishy creatures, including an axolotl, a ball, and a blob, along with mixing bowls and a flashlight activating the glow.

MAINTENANCE

- Cleaning Tools:** After each use, wash the mixing bowl and spatula with warm, soapy water immediately to prevent residue from hardening.
- Hand Cleaning:** Wash hands thoroughly with soap and water after handling the squish mixture and slime powder. If any mixture is difficult to remove, try using a small amount of cooking oil before washing with soap.
- Storage:** Store unused components and finished squishy creatures in a cool, dry place away from direct sunlight to preserve their quality and glow properties. Keep all components in their original packaging or sealed containers.

TROUBLESHOOTING

- Mixture is too sticky/liquid:** Ensure you have followed the exact ratios for Squish Glue A and B, and slime powder as specified in the kit's illustrated manual. Environmental factors like humidity can affect consistency; adjust slightly if necessary, but always follow the manual's primary guidance.

- **Creatures not glowing brightly:** Ensure the glow-in-the-dark pigment was thoroughly mixed into the squish mixture. Expose the creations to a strong light source (like the included LED light or direct sunlight) for a longer duration before observing in darkness.
- **Difficulty inserting mixture into balloons:** Use a small funnel or carefully spoon the mixture into the balloon opening. Stretching the balloon opening slightly can also help.

SPECIFICATIONS

Attribute	Detail
Model Number	110353
Brand	Lisciani
Material Type	Plastic
Product Dimensions (LxWxH)	27 x 0.3 x 7.2 Centimeters
Item Weight	570 g
Recommended Age	8 years and up
Assembly Required	No
Batteries Required	No (LED light included)
