Operating Instructions and Safety

This desk is engineered for stability, supported by 8 steel legs and adjustable leg pads to maintain a level and secure surface. It is designed to support up to **150 lbs (68 kg)** of equipment. To ensure safety and longevity, do not exceed this weight limit. Always place the desk on a flat, stable surface and avoid sudden, forceful movements that could cause tipping.

The L-shaped design provides ample legroom and under-desk storage space, allowing for comfortable seating and organized placement of computer towers or other items. Adjustable foot pads help to level the desk on uneven floors, preventing wobbling and ensuring a stable workspace.
