Stjiatu A07

Stjiatu A07 Mini Selfie Stick Tripod User Manual

Model: A07 | Brand: Stjiatu

INTRODUCTION

Welcome to your Stjiatu A07 Mini Selfie Stick Tripod. This manual provides instructions for the safe and effective use of your device. The Stjiatu A07 is a versatile 3-in-1 device functioning as a selfie stick, a handheld phone grip, and a stable tripod. It features a compact, lightweight design, an adjustable phone holder, and a detachable wireless remote control, making it ideal for various photography and video recording needs.

PACKAGE CONTENTS

- Mini Selfie Stick (A07)
- Charging Cable
- User Manual
- Remote Control

Package List

- Mini Selfie Stick*1
- Charging cable*1
- User Manual*1
- Remote Controls*1

Image: The package includes the A07 Mini Selfie Stick, charging cable, user manual, and remote control.

PRODUCT OVERVIEW

The Stjiatu A07 is designed for portability and ease of use, supporting smartphones between 4 and 7 inches. It features a 360° rotatable phone clip and 270° tilt for various shooting angles. Its lightweight and compact design allows it to fit easily into a pocket or bag.

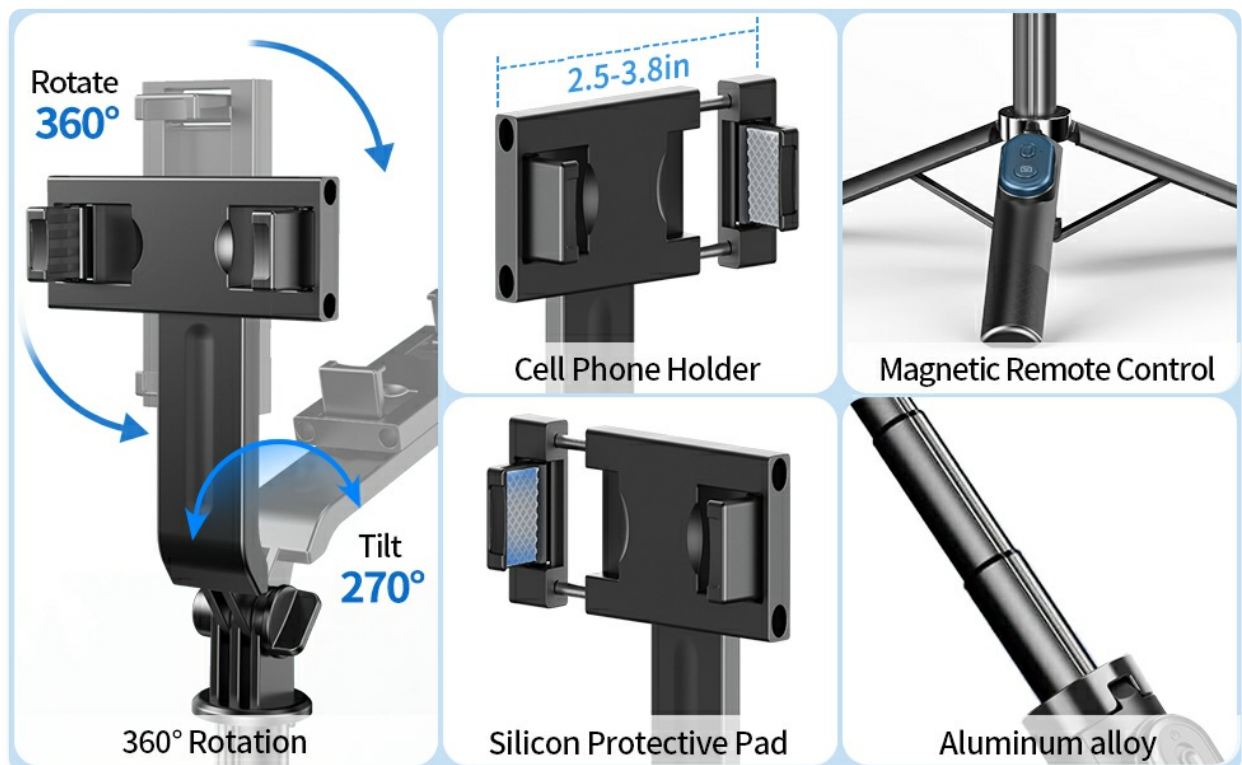

Image: The A07 functions as a selfie stick, tripod, and desktop stand.

Reinforced Tripod

Upgraded sturdier umbrella structure and anti-slip silicone pads

Image: Key features include 360° rotation, 270° tilt, aluminum alloy construction, and a magnetic remote control.

SETUP

1. Unfolding the Tripod/Selfie Stick

Gently extend the main shaft to transform the compact unit into a selfie stick or tripod. The legs at the base can be folded out for tripod use or kept closed for handheld selfie stick mode.

Your browser does not support the video tag.

Video: This video demonstrates the physical extension of the tripod into a selfie stick and its compact folding, showcasing its versatility.

2. Attaching Your Smartphone

The phone clip is equipped with soft silicone pads to protect your device from scratches. Extend the clip to securely hold your smartphone. The adjustable pull clip ranges from 2.5 to 3.8 inches, compatible with most smartphones between 4 and 7 inches.

3 Roles in 1 Machine

Image: The phone holder features silicone protection and is compatible with various phone sizes (2.5-3.8 inches).

3. Pairing the Wireless Remote Control

The remote control is detachable from the stick and uses Bluetooth for connection, allowing you to take pictures or record videos from a distance.

1. Turn on the remote control by pressing the power button. A blue indicator light will flash.
2. On your smartphone, go to Bluetooth settings and search for "Selfie" or "TJ5-BT".
3. Select the device to pair. The indicator light will stop flashing once connected.
4. The remote allows you to take photos or start/stop video recording from up to 33 feet away.

Lightweight and Portable Travel Tripod

OPERATING INSTRUCTIONS

Selfie Stick Mode

Extend the aluminum alloy shaft to your desired length. Hold the handle firmly and adjust the phone holder for the best angle. Use the remote control to capture photos or videos.

Image: A user demonstrating the selfie stick mode with an extended shaft.

Tripod Mode

Fold out the legs at the base to form a stable tripod. Place the tripod on a flat surface. Extend the shaft to the desired height. This mode is ideal for group photos, stable video recording, or hands-free viewing.

Desktop Mode

Similar to tripod mode, but typically used with the shaft at a shorter extension for tabletop use. This is perfect for video calls, live streaming, watching videos, or online lessons.

Adjusting Angles

The phone holder offers 360° rotation and 270° tilt, allowing for horizontal, vertical, elevated, and overhead shots. Loosen the knob to adjust the angle, then tighten it to secure your desired position.

Reinforced Tripod

Upgraded sturdier umbrella structure and anti-slip silicone pads

MAINTENANCE

- Keep the device clean by wiping it with a soft, dry cloth.
- Avoid exposing the device to extreme temperatures or moisture.
- Store the remote control securely in its magnetic slot when not in use to prevent loss.
- Recharge the remote control battery as needed using the provided charging cable.

TROUBLESHOOTING

Remote Control Not Pairing

- Ensure the remote control is turned on and has sufficient battery charge.
- Make sure Bluetooth is enabled on your smartphone.
- Try unpairing and re-pairing the device in your phone's Bluetooth settings.
- Move closer to the device to ensure it's within the 33-foot range.

Phone Not Fitting Securely

- Verify your phone's dimensions are within the 2.5 to 3.8 inch clip range.
- Remove bulky phone cases if necessary.

Tripod Instability

- Ensure the tripod legs are fully extended and placed on a flat, stable surface.
- Do not overload the tripod with devices heavier than recommended.
