Mifasol MF-JSQ-01-W

Mifasol Stainless Steel Humidifier (Model MF-JSQ-01-W) Instruction Manual

Your guide to safe and effective use.

1. Introduction

Thank you for choosing the Mifasol Stainless Steel Humidifier. This manual provides important information for the safe operation, maintenance, and troubleshooting of your new appliance. Please read it thoroughly before use and retain it for future reference.

2. Important Safety Instructions

To reduce the risk of fire, electric shock, or injury, always follow basic safety precautions:

- Read all instructions before operating the humidifier.
- Place the humidifier on a firm, flat, water-resistant surface at least 12 inches (30 cm) away from walls and appliances.
- Do not place the humidifier directly on carpet, towels, or other absorbent surfaces.
- Ensure the power cord is not pinched or placed under heavy objects.
- Always unplug the humidifier before filling, cleaning, or moving it.
- Do not touch the heating element or hot water during operation or immediately after turning off, as it can cause burns.
- Keep out of reach of children. The unit features a child lock, lid open button, and lid locking bar for safety.
- The humidifier will automatically shut off when the water tank is empty.
- Use only clean, cool tap water. Distilled water is recommended to minimize mineral buildup.
- Do not add essential oils or other additives directly into the water tank, as this may damage the unit.

3. Product Components

Familiarize yourself with the parts of your Mifasol Humidifier:

Figure 1: Mifasol Stainless Steel Humidifier. The image shows two humidifiers, one with the lid closed and emitting mist, and another with the lid open, revealing the stainless steel water tank and internal components.

- **Main Unit:** Houses the heating element and control panel.
- **Water Tank:** Food-grade 304 stainless steel tank for water.
- **Lid:** Top cover with mist outlet.
- **Control Panel:** Buttons and display for operation.
- **Power Cord:** For electrical connection.

4. Setup and First Use

1. **Unpack:** Carefully remove all packaging materials and inspect the humidifier for any damage.
2. **Placement:** Place the humidifier on a flat, stable, heat-resistant surface. Ensure it is away from direct sunlight, heat sources, and sensitive electronics.
3. **Fill Water Tank:**

- Open the lid and remove the stainless steel water tank.
- Fill the tank with clean, cool tap water up to the MAX fill line. Distilled water is recommended to prevent mineral buildup.
- Place the water tank back into the main unit and securely close the lid.

4. **Connect Power:** Plug the power cord into a standard 120V AC electrical outlet. The unit will beep, and the display will illuminate briefly.

5. Operating Instructions

5.1 Control Panel Overview

The control panel features an LED display and several touch-sensitive buttons for easy operation.

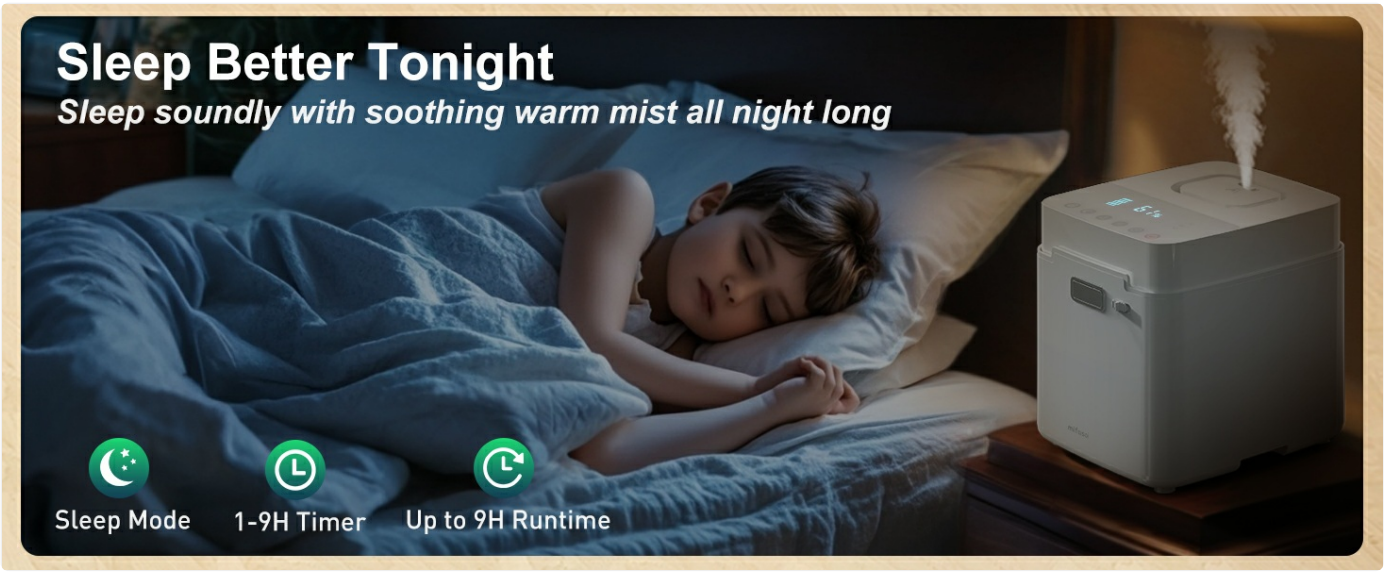

Figure 2: Control Panel. This image shows a hand pressing a button on the humidifier's control panel, which displays current settings.

5.2 Power On/Off

Press the **Power Button** to turn the humidifier on or off. Upon activation, the water will begin to heat. Mist generation will start after approximately 15-30 minutes once the water reaches boiling temperature (212°F).

Figure 3: Clean and Healthy Warm Mist. This image illustrates the humidifier boiling water to 212°F, sterilizing it for 99.9% germ-free mist.

5.3 Adjusting Mist Level

Press the **Mist Level Button** to cycle through three mist output settings: Low, Medium, and High.

- **Low:** Approximately 300mL/h, up to 9 hours runtime.
- **Medium:** Approximately 500mL/h, up to 7 hours runtime.
- **High:** Approximately 800mL/h, up to 4 hours runtime.

Figure 4: Powerful and Flexible Mist. This image displays the three mist output levels (Low, Medium, High) and their corresponding mist density.

5.4 Setting Constant Humidity

Press the **Humidity Button** to select a desired constant humidity level: 50%, 60%, or 70%. The humidifier will automatically adjust its output to maintain the selected humidity.

Figure 5: Customize Constant Humidity. This image shows recommended humidity levels: 50% for most people, 60% for musical instruments, and 70% for plants.

5.5 Timer Function

Press the **Timer Button** to set an operating duration from 1 to 9 hours. The humidifier will automatically turn off once the set time expires.

5.6 Sleep Mode

Activate **Sleep Mode** to turn off the display screen, ensuring an undisturbed environment. The humidifier will continue to operate according to its last settings.

Figure 6: Sleep Mode. This image depicts a person sleeping peacefully with the humidifier providing warm mist, highlighting the sleep mode and timer features.

5.7 Child Lock

Press and hold the **Child Lock Button** for a few seconds to activate or deactivate the child lock. When activated, all other

buttons on the control panel will be unresponsive to prevent accidental changes.

6. Maintenance and Cleaning

Regular cleaning is essential for optimal performance and hygiene. The Mifasol Humidifier is designed for easy maintenance with its 304 stainless steel tank and filterless design.

Figure 7: Hassle-Free Cleaning. This image shows the humidifier disassembled, highlighting the removable 304 stainless steel tank, which

is dishwasher safe and filterless.

1. **Weekly Cleaning (Recommended):**
    - Unplug the humidifier and allow it to cool completely.
    - Remove the lid and the stainless steel water tank.
    - Empty any remaining water from the tank and the base unit.
    - The 304 stainless steel water tank is dishwasher safe. Alternatively, wash it with warm soapy water and a soft brush or sponge.
    - Wipe the interior of the base unit with a soft, damp cloth. Do not immerse the base unit in water.
    - Rinse all removable parts thoroughly and allow them to air dry completely before reassembling.
2. **Descaling (Monthly or as needed):**
    - If mineral deposits (scale) build up in the water tank or on the heating element, fill the tank with a solution of equal parts white vinegar and water.
    - Let the solution soak for 20-30 minutes.
    - Scrub gently with a soft brush to remove deposits.
    - Rinse thoroughly with clean water until the vinegar smell is gone.
3. **Storage:** When not in use for an extended period, clean the humidifier thoroughly, ensure all parts are dry, and store it in a cool, dry place.

7. Troubleshooting

Before contacting customer support, please refer to the following common issues and solutions:

Problem	Possible Cause	Solution
No mist is being produced.	Unit not plugged in. Water tank is empty. Water has not reached boiling temperature yet. Lid not properly closed.	Ensure the power cord is securely plugged in. Refill the water tank. Allow 15-30 minutes for water to heat up after turning on. Ensure the lid is securely closed and locked.
Weak mist output.	Mineral buildup on heating element. Low water level. Mist level set too low.	Clean the heating element and water tank as per maintenance instructions. Refill the water tank. Increase the mist level setting.
Unit beeps repeatedly.	Water tank is empty.	Refill the water tank. The unit will automatically resume operation once refilled. To silence beeps, activate Sleep Mode.
Unusual odor.	First use odor. Dirty water tank or stagnant water.	This is normal for the first few uses and will dissipate. Clean the water tank and base unit thoroughly. Use fresh water daily.

8. Specifications

Brand	Mifasol
Model Name	Stainless Steel Humidifier
Model Number	MF-JSQ-01-W
Operation Mode	Steam
Water Tank Capacity	3.3 Liters / 0.87 Gallons
Maximum Mist Output	800 mL/h
Coverage Area	Up to 800 sq ft
Voltage	120 Volts
Product Dimensions	11"D x 10"W x 11"H
Item Weight	11.33 pounds
Special Features	Adjustable Humidity Control, Child Lock, Dishwasher Safe Tank, Removable Tank, Timer, Automatic Shut-off

9. Warranty and Support

Mifasol products are manufactured to high-quality standards. For warranty information, technical support, or any questions regarding your humidifier, please contact Mifasol customer service. Refer to the product packaging or the official Mifasol website for contact details.
Please have your model number (MF-JSQ-01-W) and purchase date ready when contacting support.
