OPERATING INSTRUCTIONS

Application Steps

Follow these simple steps for the correct and effective application of Aurelix Oil Drops:

1. **Tilt your head slightly to the side.** This position helps the oil settle in the outer ear.
2. **Allow approximately one drop of body-warm Aurelix Oil to drip into each outer ear canal.** Ensure the oil is at a comfortable temperature.
3. **Avoid introducing the oil directly into the ear canal itself.** The application is intended for the outer ear only.
4. **Remove any excess oil with a cotton pad as needed.** Gently wipe away any overflow.

EINFACHE ANWENDUNG:

Legen Sie den Kopf leicht zur Seite und lassen Sie etwa einen Tropfen körperwarmes Aurelix Oil in jede äußere Ohrmuschel hineintropfen.
