6.2. Smart Control (Wi-Fi & App)

To use the smart control features, ensure your towel warmer is connected to your home Wi-Fi network.

1. **Download App:** Download the EMKE smart home app from your smartphone's app store.

2. **Pair Device:** Follow the in-app instructions to pair your towel warmer with your smartphone. This typically involves putting the device into pairing mode and connecting it to your Wi-Fi network.

3. **Voice Control:** Once paired with the app, you can link it to Google Home or Amazon Alexa for voice-activated control. Refer to the respective voice assistant's setup guide for integration.

4. **Remote Control:** Use the app to remotely adjust temperature, set timers, and monitor the status of your towel warmer from anywhere.

7. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your towel warmer.

- **Cleaning:** Disconnect the power before cleaning. Wipe the surface with a soft, damp cloth. The smooth surface design helps reduce dust and limescale buildup. Do not use harsh chemicals, abrasive cleaners, or scouring pads.

- **Inspection:** Periodically check the power cord and plug for any signs of damage. Ensure mounting screws are tight.

- **Storage:** If storing the device for an extended period, ensure it is clean, dry, and stored in a safe place.

8. TROUBLESHOOTING

If you encounter issues with your EMKE Electric Towel Warmer, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Device does not turn on.	No power supply. Power button not pressed.	Check if the power cord is securely plugged in. Ensure the wall outlet has power. Press the power button firmly.
Towel warmer is not heating.	Temperature set too low. Timer expired. Device malfunction.	Increase the set temperature. Check if the timer is active or has expired. Reset if necessary. If the issue persists, contact customer support.
