## 2. PRODUCT FEATURES

- **2-in-1 Functionality:** Combines a high-speed card reader with a protective storage case, enabling simultaneous read/write for SD and Micro SD cards.
- **Pro-Grade UHS-I Speeds:** Achieves up to 160 MB/s read speeds (UHS-I protocol), allowing for quick data transfers. Actual speeds may vary based on device and card.
- **Dual-Slot Efficiency:** Read and transfer data from SD and Micro SD cards simultaneously.
- **Ample Storage:** Securely stores up to 4 SD cards and 8 Micro SD cards within its robust design.
- **IP54 Rugged Protection:** Features a silicone case with water-resistant, dustproof, and shock-absorbent properties, providing triple-layer defense for your memory cards.
- **LED Status Indicator:** A blue light indicates connection to a device, switching to green during active data transfer for instant activity feedback.
- **Plug & Play:** No drivers or software setup required. Works instantly across iOS, iPadOS, macOS, Windows, Linux, and Android.
- **Built-in Eject Pin:** Includes a convenient eject pin for easy card removal.

- **Integrated USB-C Cable:** Features a short, braided USB-C cable for direct connection, with an included USB-C to USB-A adapter for broader compatibility.
- **GL Security Chip:** Incorporates a GL Security Chip for comprehensive data protection during transfer.
- **Spring-Back Design:** Micro SD card slots feature a spring-back design to prevent card damage.

### 3. PACKAGE CONTENTS

Verify that all items are present in your package:

- 1x Ilano F13 High-Speed Card Reader
- 1x Water-resistant Silicone Case
- 1x Carabiner
- 1x USB-C to USB-A Adapter
- 1x User Manual

Image: All components included in the Ilano F13 package.

### 4. SETUP & OPERATION

## 4.1 Inserting Memory Cards

1. Slide open the protective silicone case to reveal the card slots.
2. For SD cards, insert the card into the designated SD card slot until it clicks into place.
3. For Micro SD (TF) cards, insert the card into the designated Micro SD card slot until it clicks into place. The spring-back design ensures secure fit and easy removal.
4. To remove a card, gently press it inward until it springs out, then pull it out. Use the built-in eject pin for stubborn cards if necessary.

## 4.2 Connecting to a Device

1. Ensure memory cards are properly inserted into the Ilano F13 before connecting to your device.
2. Pull out the integrated USB-C cable from the side of the device.
3. Connect the USB-C cable directly to a compatible USB-C port on your computer, phone, or tablet.
4. If your device only has a standard USB-A port, attach the provided USB-C to USB-A adapter to the USB-C cable, then plug it into your device's USB-A port.
5. The LED indicator will light up blue when connected, and turn green during active data transfer.

## 4.3 Data Transfer

Once connected, your device should automatically recognize the Ilano F13 as an external storage device. You can then drag and drop files between your device and the memory cards. The Ilano F13 supports simultaneous reading and writing from both SD and Micro SD card slots.

## 5. MAINTENANCE & CARE

- **Cleaning:** Use a soft, dry cloth to clean the device. Avoid using harsh chemicals or abrasive materials.
- **Storage:** When not in use, ensure the silicone case is properly closed to protect the cards and ports from dust and moisture.
- **Durability:** The IP54 rating provides protection against water splashes and dust. While rugged, avoid submerging the device in water or exposing it to extreme impacts.
- **Longevity:** The device is tested for 10,000 insertions, ensuring long-term reliability.

## 6. TROUBLESHOOTING

- **Device Not Recognized:**
  - Ensure the USB-C cable is fully inserted into both the Ilano F13 and your host device.
  - Try connecting to a different USB port on your device.
  - Ensure your device's operating system is up-to-date.

- **Slow Data Transfer:**

- Verify that your memory cards are high-speed (UHS-I or higher recommended).
- Ensure your host device's USB port supports USB 3.0/3.1/3.2 Gen1 speeds. Older USB 2.0 ports will result in slower transfers.
- Close any unnecessary applications on your computer that might be consuming system resources.

- **LED Indicator Not Lighting Up:**

- Check the connection to your host device.
- Ensure the host device is powered on.
