Torin System 9-Pcs Workshop Set Instruction Manual

Model: ATRPKGZ30231112B

Brand: [Torin](#)

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Torin System 9-Pcs Workshop Set. This comprehensive storage solution is designed for garages, workshops, mudrooms, and other areas requiring organized storage. The set features a fully welded steel structure, lockable cabinets, adjustable shelving, and a durable wood worktop.

The 9-piece set includes:

- 2 x Tall Cabinets
- 1 x 2-Door Base Cabinet
- 1 x 1-Drawer 2-Door Base Cabinet
- 1 x 4-Drawer Cabinet with Casters
- 3 x Wall Cabinets
- 1 x Pressed Wooden Board (Worktop)

Figure 1.1: Complete Torin System 9-Pcs Workshop Set. This image displays the entire workshop set assembled, showcasing the two tall cabinets, various base cabinets, wall cabinets, and the central wooden worktop.

2. SAFETY INFORMATION

WARNING: Failure to follow these safety instructions may result in injury or damage to the product.

- Avoid tipping by securing the cabinets to the wall using the provided back slots.
- Keep all surfaces dry to prevent damage and maintain structural integrity.
- Do not expose the product to excessive moisture or corrosive chemicals.
- Ensure all components are properly assembled and tightened before use.
- Do not exceed the weight capacity for shelves (150 lbs) and drawers (75 lbs).

3. PACKAGE CONTENTS

Verify that all components listed below are present and undamaged before beginning assembly. Refer to the diagram for visual identification of each part.

- Tall Cabinet ×2
- 2-Door Base Cabinet ×1

- 1-Drawer 2-Door Base Cabinet ×1
- 4-Drawers with Casters ×1
- Wall Cabinet ×3
- Pressed Wooden Board ×1

Figure 3.1: Component Breakdown. This diagram illustrates the individual components of the 9-piece workshop set, including two tall cabinets, three wall cabinets, a wood worktop, a 4-drawer cabinet with wheels, a bottom cabinet, and a 1-drawer bottom cabinet.

4. SETUP AND ASSEMBLY

Assembly of the Torin System 9-Pcs Workshop Set requires careful attention to detail. It is recommended to have at least two people for assembly, especially for larger components like the tall cabinets and the worktop.

4.1. Unpacking and Inspection

1. Carefully unpack all boxes and lay out the components on a clean, flat surface.
2. Compare the contents with the 'Package Contents' section to ensure all parts are present.
3. Inspect all parts for any signs of damage. Contact customer support immediately if any parts are missing or damaged.

4.2. Base Cabinet Assembly

- Assemble the frames of the base cabinets (2-door and 1-drawer 2-door) according to the included hardware instructions.
- Attach the adjustable legs to the bottom of each base cabinet. These legs allow for leveling on uneven surfaces.
- For the 4-drawer cabinet, attach the casters to the bottom. Ensure the two front casters with braking function are correctly positioned.

4.3. Tall Cabinet Assembly

- Assemble the tall cabinet frames.
- Install the adjustable shelves inside the tall cabinets. The shelves can be adjusted in 3-inch increments to suit your storage needs.

1. Lockable Cabinets

2. 360-degree swivel casters

3. Pressed Wood Top

4. Magnetic Latches

Figure 4.1: Adjustable Shelves. This image shows the interior of a tall cabinet with multiple shelves, highlighting the mechanism for adjusting shelf height in 3-inch increments.

4.4. Wall Cabinet Assembly

- Assemble the wall cabinet frames.

- Mount the wall cabinets securely to a sturdy wall structure.

4.5. Connecting Units and Worktop Installation

- Position all cabinets in their desired layout. Use the side holes to connect adjacent cabinets together for increased stability.
- Place the pressed wooden board worktop over the base cabinets. The countertop support plate should be installed on the side of the tall cabinet to support one end of the worktop.
- Utilize the back slots on the cabinets to secure them to the wall, preventing tipping and enhancing overall stability.

Figure 4.2: Key Structural Features. This image displays various features including adjustable horizontal legs for leveling, the slot for wall connection to prevent tipping, and 360-degree swivel casters for mobility on the rolling cabinet.

5. OPERATING INSTRUCTIONS

The Torin System 9-Pcs Workshop Set is designed for ease of use and secure storage.

5.1. Locking Mechanism

- All cabinets are fully lockable to secure your tools and belongings. Insert the key into the lock and turn to secure or unlock the doors/drawers.

5.2. Drawer Operation

- The 4-drawer rolling cabinet features smooth-gliding bearing slides. Pull the handles to open and push to close. Ensure drawers are fully closed to prevent accidental opening.
- The 1-drawer 2-door base cabinet also operates with smooth slides.

5.3. Magnetic Latches

- Cabinet doors are equipped with magnetic latches to keep them securely closed when not locked.

5.4. Mobility (4-Drawer Cabinet)

- The 4-drawer cabinet is equipped with 360-degree swivel casters for easy movement.
- To secure the cabinet in place, engage the brakes on the two front casters.

PRODUCT DIMENSIONS

Figure 5.1: Operational Features. This composite image highlights key operational aspects: lockable cabinets for security, 360-degree swivel casters for mobility, the durable pressed wood top, and magnetic latches for secure door closure.

6. MAINTENANCE

Proper maintenance will ensure the longevity and optimal performance of your workshop set.

- **Cleaning:** Wipe surfaces with a damp cloth. Avoid abrasive cleaners or solvents that could damage the powder-coated finish.
- **Inspection:** Periodically check all bolts and fasteners to ensure they remain tight. Re-tighten as necessary.
- **Lubrication:** For smooth drawer operation, occasionally apply a silicone-based lubricant to the drawer slides.
- **Worktop Care:** The pressed wooden board worktop should be kept dry. Clean spills immediately to prevent staining or warping.

Figure 6.1: Powder Coated Finish. This close-up shows the scratch and stain resistant powder-coated steel finish, which requires simple damp cloth cleaning.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your workshop set.

7.1. Cabinet Instability

- **Issue:** Cabinets feel wobbly or unstable.
- **Solution:** Ensure all adjustable legs are properly leveled. Verify that cabinets are connected to each other using the side holes and securely anchored to the wall via the back slots. Check all assembly fasteners for tightness.

7.2. Sticking Drawers

- **Issue:** Drawers do not slide smoothly.
- **Solution:** Inspect drawer slides for obstructions or debris. Clean the slides and apply a silicone-based lubricant if necessary. Ensure the cabinet itself is level.

7.3. Doors Not Closing Properly

- **Issue:** Cabinet doors do not close flush or magnetic latches do not engage.
- **Solution:** Check for any obstructions preventing the door from closing. Ensure the cabinet is level and square. Verify that the magnetic latches are aligned and free of debris.

8. SPECIFICATIONS

Detailed technical specifications for the Torin System 9-Pcs Workshop Set.

Feature	Detail
---------	--------

Feature	Detail
