3. Maintenance

3.1 Care and Cleaning

The powder-coated steel construction offers rust resistance, and the Textilene fabric on the chairs allows rainwater to pass through, promoting quick drying. Regular cleaning will help preserve the finish and fabric.

4. Troubleshooting

4.1 General Issues

- **Wobbly Table/Chairs:** Ensure all bolts and screws are tightened securely. For the table, adjust the leveling screws on each leg to stabilize it on uneven surfaces.
- **Difficulty Assembling:** Review the assembly instructions carefully. Ensure all parts are correctly oriented before tightening fasteners. Do not force components together.
- **Rust Spots:** While the set is designed with rust-resistant powder-coated steel, prolonged exposure to harsh weather or standing water can lead to rust. Clean any rust spots immediately with a mild abrasive and apply a rust-inhibiting paint if necessary. Store indoors or cover during extreme weather.
