SAFETY INFORMATION

To ensure safe operation and prevent damage to the device or injury, please observe the following precautions:

- Do not expose the power bank to extreme temperatures (above 45°C or below 0°C).
- Do not disassemble, modify, or attempt to repair the device. This will void the warranty.

- Keep the power bank away from water, high humidity, and corrosive substances.
- Avoid dropping the device or subjecting it to strong impacts.
- Dispose of the product responsibly according to local regulations for electronic waste.
- Keep out of reach of children.

SETUP

Initial Charge

Before using your Kuulaa Mini Power Bank for the first time, it is recommended to fully charge it.

1. Connect the provided USB-A to USB-C cable to the power bank's USB-C port.
2. Connect the other end of the cable to a compatible USB wall charger (not included).
3. The LED indicators on the power bank will light up to show the charging progress. All four LEDs will be solid when the power bank is fully charged.

OPERATING INSTRUCTIONS

Charging Your Devices

The power bank supports fast charging for compatible devices via both its USB-C and USB-A ports.

1. Connect your device's charging cable to either the USB-C (input/output) or USB-A (output) port on the power bank.

2. Connect the other end of the cable to your mobile phone, tablet, or other compatible device.
3. Charging will begin automatically. The LED indicators on the power bank will show the remaining battery level.

Checking Battery Level

Press the power button once to check the remaining battery level indicated by the four LED lights:

- **4 LEDs Solid:** 75% - 100% charge remaining
- **3 LEDs Solid:** 50% - 75% charge remaining
- **2 LEDs Solid:** 25% - 50% charge remaining
- **1 LED Solid:** 0% - 25% charge remaining (recharge soon)

MAINTENANCE

Proper maintenance ensures the longevity and performance of your power bank:

- Clean the power bank with a soft, dry cloth. Do not use harsh chemicals, abrasive materials, or solvents.
- Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- If the power bank is not used for extended periods, charge it at least once every three months to maintain battery health and prevent deep discharge.

TROUBLESHOOTING

Power Bank Not Charging

- Ensure the charging cable is securely connected to both the power bank and the wall charger.
- Try using a different USB wall charger or a different USB port if charging from a computer.
- Check if the charging cable itself is damaged. Try a different cable.

Device Not Charging from Power Bank

- Ensure the power bank has sufficient charge (check LED indicators).
- Try a different charging cable for your device.
- Ensure your device is compatible with the power bank's output specifications.
- Restart your device and try connecting again.

Slow Charging

- Ensure you are using a fast-charging compatible cable and that your device supports fast charging.
- If multiple devices are connected, the power output may be distributed, leading to slower charging for each.
- Environmental temperature can affect charging speed; extreme cold or heat can slow down charging.
