

## STRICH SKT-02S

# STRICH Piano Keyboard Stand and Piano Bench User Manual

Model: SKT-02S

## 1. INTRODUCTION

---

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your STRICH Piano Keyboard Stand (Model SKT-02S) and accompanying Piano Bench. Please read this manual thoroughly before use to ensure proper setup and safe operation. Keep this manual for future reference.

Image 1.1: The STRICH Piano Keyboard Stand and Piano Bench set.

This image displays the complete STRICH Piano Keyboard Stand and Piano Bench package, showcasing both components in their assembled form.

## 2. SAFETY INFORMATION

---

- Ensure all components are securely fastened before placing any instrument on the stand or sitting on the bench.
- Do not exceed the maximum weight capacity of 250 lbs (113 kg) for the keyboard stand.
- Keep hands and fingers clear of moving parts during adjustment to prevent pinching.
- Place the stand and bench on a stable, level surface to prevent tipping.
- Regularly inspect the stand and bench for any signs of wear, damage, or loose components.

## 3. PACKAGE CONTENTS

---

Please verify that all the following items are included in your package:

- STRICH SKT-02S Piano Keyboard Stand frame
- STRICH Piano Bench components (seat, backrest, legs)
- 4 x Adjustable Keyboard Clamps
- 2 x Safety Straps
- Set of Adjustable Leveling Feet
- Set of Lockable Caster Wheels
- Assembly Hardware (screws, washers, tools if applicable)
- User Manual (this document)

## 4. SETUP INSTRUCTIONS

---

### 4.1. Keyboard Stand Assembly (SKT-02S)

1. Unpack all components of the keyboard stand.
2. Extend the main frame of the stand to its desired width. Use the pull-type knobs to secure the width adjustment.
3. Attach either the adjustable leveling feet or the lockable caster wheels to the base of the stand, depending on your preference for mobility or stationary use. Ensure they are tightened securely.
4. Adjust the height of the stand using the pull-type knobs on the vertical supports. Ensure both sides are set to the same height for stability.
5. Install the 4 adjustable keyboard clamps onto the top support bars of the stand. These clamps will help secure your keyboard.
6. Attach the 2 safety straps to the stand and prepare them for securing your keyboard.

# WIDELY APPLICABLE

Suitable for piano or keyboards of different sizes

Image 4.1: Keyboard stand demonstrating adjustable width and height.

This image shows the STRICH SKT-02S keyboard stand with adjustable width (22.1-35 inches) and height (23.2-33.4 inches), illustrating its adaptability for various keyboard sizes.

# TWO KINDS OF FOOT PADS

Suitable for different surfaces and usage scenarios

**LOCK**

**ADJUSTABLE**

Image 4.2: Keyboard stand foot pad options.

A close-up image illustrating the two types of foot pads for the keyboard stand: lockable caster wheels for mobility and adjustable leveling feet for stability on uneven surfaces.

## 4.2. Piano Bench Assembly

1. Unpack all piano bench components.
2. Attach the bench legs to the seat frame using the provided hardware. Ensure all screws are tightened firmly.
3. Insert the backrest support into the designated slot on the bench seat. Secure it with the knob adjustment.
4. Adjust the height of the bench and the position of the backrest to your preferred settings.

# PRODUCT DIMENSION

Image 4.3: Piano bench dimensions.

This diagram shows the dimensions of the STRICH Piano Bench, including seat width (14.6 inches), seat depth (11.8 inches), and overall height range (18.1-21.3 inches).

## 5. OPERATING INSTRUCTIONS

### 5.1. Adjusting the Keyboard Stand

- **Height Adjustment:** To adjust the stand's height, loosen the pull-type knobs on the vertical supports. Raise or lower the top section to the desired height, then firmly tighten the knobs to lock it in place.
- **Width Adjustment:** To adjust the stand's width, loosen the pull-type knobs on the horizontal support bar. Slide the two halves of the stand closer or further apart to match your keyboard's width, then firmly

tighten the knobs.

- **Securing the Keyboard:** Place your keyboard on the stand. Adjust the 4 keyboard clamps to firmly grip the sides of your instrument. Use the 2 safety straps to further secure the keyboard to the stand, ensuring it cannot accidentally slide off.
- **Using Caster Wheels:** If you have installed the caster wheels, unlock them to move the stand. Lock the wheels when the stand is in its desired position to prevent unintended movement.

Image 5.1: Pull-type knob for stand adjustment.

This detailed image demonstrates the pull-type knob mechanism used to quickly adjust the height and length of the keyboard stand.

## 5.2. Adjusting the Piano Bench

- **Bench Height Adjustment:** The piano bench offers four precise height levels, ranging from 18 to 21 inches. To adjust, lift the seat and reposition it to the desired height, ensuring it clicks securely into place.
- **Backrest Adjustment:** The backrest can be adjusted for both height and distance from the seat. Loosen the side knobs, position the backrest for optimal support, and then tighten the knobs firmly.

Image 5.2: Piano bench adjustable height feature.

This image illustrates the adjustable height feature of the STRICH Piano Bench, showing the minimum (18.1 inches) and maximum (21.2 inches) height settings.

# HEIGHT ADJUSTABLE

Easy assembly in three steps

**37CM-44.5CM/  
14.5-17.5 INCH**

**4.5CM-10.5CM/  
1.7-4.1 INCH**

Image 5.3: Piano bench backrest adjustment.

This image demonstrates the height adjustment of the piano bench's backrest, showing the range of vertical adjustment (1.7-4.1 inches) and horizontal adjustment (14.5-17.5 inches).

## 6. MAINTENANCE

- **Cleaning:** Wipe down the stand and bench with a soft, damp cloth. Avoid abrasive cleaners or solvents that could damage the finish.
- **Inspection:** Periodically check all bolts, screws, and adjustment knobs to ensure they are tight. Retighten if necessary.
- **Storage:** When not in use for extended periods, store the stand and bench in a dry, cool place away

from direct sunlight and extreme temperatures.

## 7. TROUBLESHOOTING

---

- **Stand Instability:** Ensure all adjustment knobs are fully tightened. Verify that the stand is placed on a flat, level surface. If using leveling feet, adjust them to compensate for uneven floors.
- **Difficulty Adjusting Height/Width:** Loosen the pull-type knobs completely before attempting to adjust. Ensure no debris is obstructing the sliding mechanisms.
- **Keyboard Sliding:** Confirm that the 4 adjustable keyboard clamps are properly positioned and tightened against your instrument. Ensure the 2 safety straps are securely fastened.
- **Bench Wobbling:** Check that all leg attachment screws are tight. Ensure the bench is on a level surface.

## 8. SPECIFICATIONS

---

### 8.1. STRICH SKT-02S Keyboard Stand

- **Material:** Precision-engineered iron metal with thickened coating
- **Tube Diameter:** 1.4 inches
- **Maximum Weight Capacity:** 250 lbs (113 kg)
- **Adjustable Width Range:** 21.7 - 35 inches (55 - 89 cm)
- **Adjustable Height Range:** 23.6 - 36.6 inches (60 - 93 cm) (including wheels/foot pads)
