SETUP AND ASSEMBLY

Assembly of the Brayton Bedroom Collection is designed to be straightforward. Please ensure all components are present before beginning. It is recommended to assemble the furniture in the room where it will be used.

Bedframe Assembly

- Unpack all bedframe components and lay them out on a clean, soft surface to prevent scratches.
- Follow the detailed assembly instructions provided in the separate assembly guide included with your purchase.
- Ensure all bolts and fasteners are securely tightened. Do not overtighten.
- **Box Spring Requirement:** This bedframe requires a standard box spring for optimal mattress support and height. A mattress alone is not sufficient.

Nightstand Placement

- The two 3-drawer nightstands are typically pre-assembled or require minimal assembly. Refer to their specific instructions if provided.
- Place the nightstands on either side of the assembled bedframe, ensuring they are stable and level.

OPERATION AND USAGE

Bedframe Usage

Once assembled and a box spring and mattress are placed, the bedframe is ready for use. Ensure the mattress is centered and stable on the box spring.

Nightstand Drawer Functionality

The nightstands feature three smooth-gliding drawers for storage. The top drawer is felt-lined to protect delicate items.

- To open a drawer, gently pull the handle. To close, push firmly until it is fully seated.
- Avoid placing excessively heavy items in the drawers to ensure smooth operation and prevent damage to the glides.
- Utilize the felt-lined top drawer for jewelry, eyewear, or other fragile personal items.

- Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the weathered oak finish.
- Spills should be wiped immediately to prevent staining.
