

YIXZSWD nt-55

YIXZSWD 55-inch Digital Signage Display NT-55 User Manual

Model: NT-55

1. INTRODUCTION

This manual provides essential instructions for the safe and efficient operation of your YIXZSWD 55-inch Digital Signage Display, model NT-55. Please read this manual thoroughly before using the product and retain it for future reference. This digital signage display is designed for various commercial applications, offering high-quality visual experiences and versatile content management.

2. SAFETY INFORMATION

- Ensure the power supply matches the voltage requirements specified on the product label.
- Do not expose the device to rain, moisture, or extreme temperatures.
- Avoid blocking ventilation openings to prevent overheating.
- Do not attempt to disassemble or repair the unit yourself. Refer all servicing to qualified personnel.
- Keep the device away from strong magnetic fields.
- Clean the screen with a soft, dry cloth. Do not use liquid cleaners or aerosols directly on the screen.

3. PACKAGE CONTENTS

Carefully unpack the box and ensure all the following items are present and in good condition:

Indoor LCD Digital Signage

Image: Overview of included components.

1. Display Body (1)
2. Base (1)
3. Power Cord (1)
4. Key (1)
5. Wheels (4)
6. Cross Screw Driver (1)
7. Instructions Manual (1)
8. Remote Controller (1)
9. Allen Wrench (1)
10. 16GB USB Drive (1)
11. Screwdriver (1)
12. Long Screw (1)

4. SETUP

4.1 Assembly

1. **Attach the Base:** Carefully align the display body with the base. Secure it using the provided screws and screwdriver/Allen wrench.
2. **Install Wheels (Optional):** If mobility is desired, attach the four wheels to the bottom of the base.

4.2 Initial Power-On

1. Connect the power cord to the display and then to a suitable power outlet.
2. Press the power button, usually located on the side or back of the unit.
3. The display will boot up, showing the Android operating system interface.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off Settings

The display supports scheduled power on/off times, allowing for automated operation based on your business hours.

TIME POWER ON/OFF SETTINGS

Daytime

🕒 06:00-18:00

Nightly

🕒 18:00-24:00

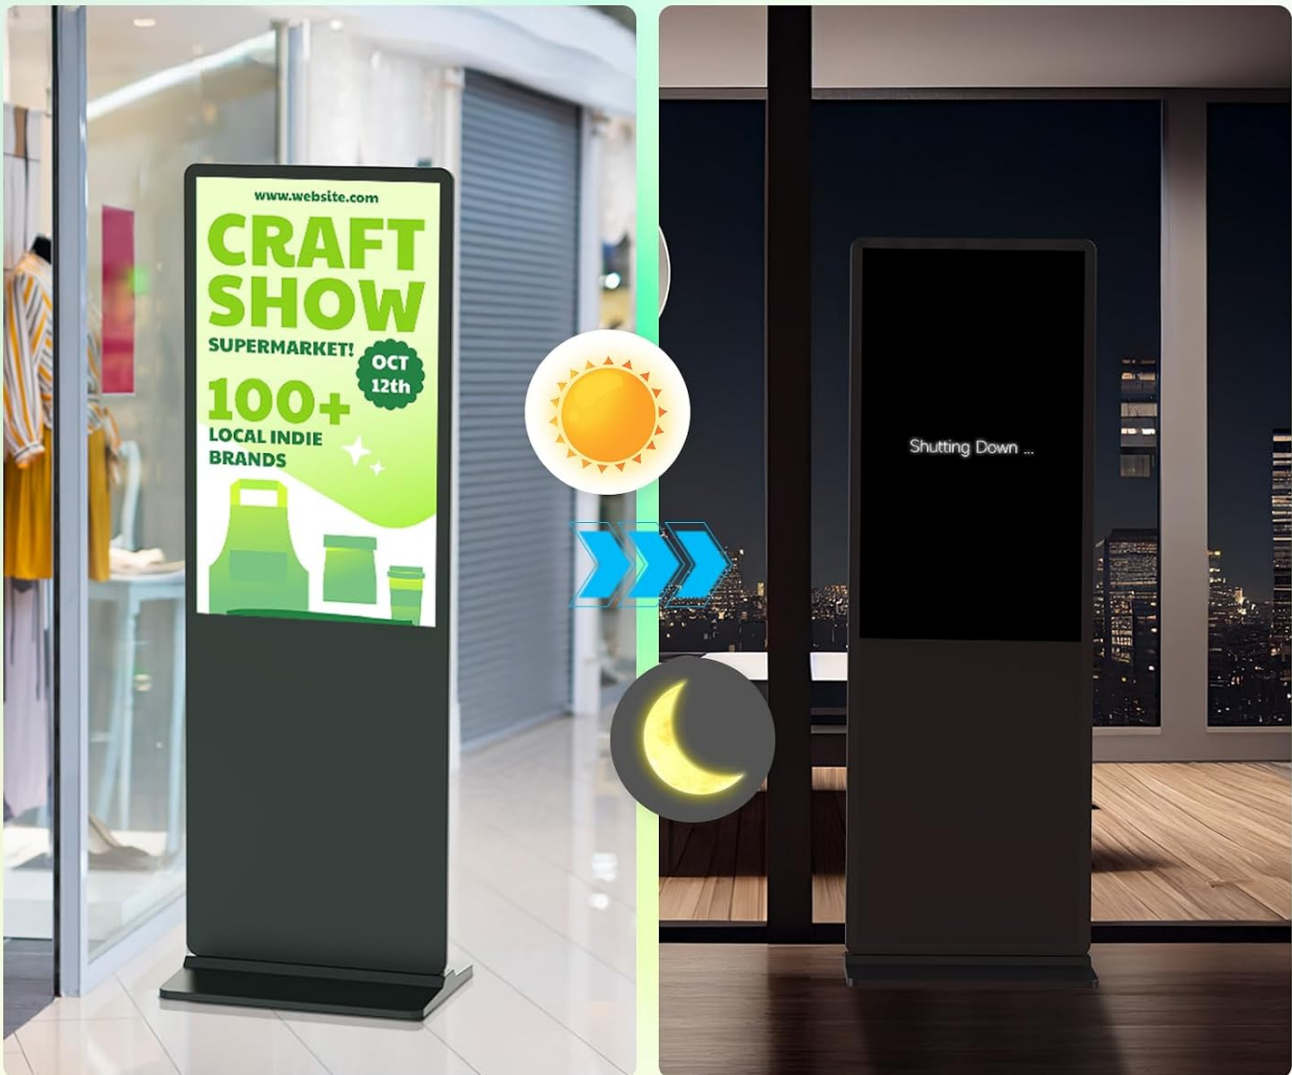

Image: Time Power On/Off Settings.

- Access the system settings via the remote control or on-screen interface.
- Navigate to the 'Timer' or 'Schedule' section.
- Set desired power-on and power-off times for daily or weekly operation.

5.2 Media Playback (Plug and Play)

The display supports direct media playback from USB drives and SD cards.

PLUG AND PLAY

AUTO LOOP PLAYBACK

Native 1080P HD, 178° Wide Viwing Angle

Image: Native 1080P HD and 178° Wide Viewing Angle.

- **IPS Full HD:** Provides vibrant colors and sharp images with a wide 178° viewing angle.
- **4K UHD Resolution:** Supports up to 3840 x 2160 resolution for detailed content display.
- **Built-in Speakers:** Two 8Ω 5W speakers provide audio output for multimedia content.

6. MAINTENANCE

- **Cleaning:** Gently wipe the screen with a soft, lint-free cloth. For stubborn marks, slightly dampen the cloth with water. Do not spray liquids directly onto the screen. Clean the exterior casing with a dry cloth.
- **Software Updates:** Periodically check for system software updates through the Android settings to ensure optimal performance and security.
- **Storage:** When not in use for extended periods, store the display in a cool, dry place, protected from dust and direct sunlight.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
No power	Power cord not connected; Power outlet faulty; Power button not pressed.	Ensure power cord is securely connected; Test power outlet with another device; Press the power button firmly.
No image on screen	Incorrect input source selected; HDMI cable loose/faulty; Media file corrupted.	Check input source settings; Reconnect or replace HDMI cable; Try a different media file or source.
No sound	Volume too low/muted; External speakers not connected; Audio settings incorrect.	Increase volume or unmute; Ensure external speakers are properly connected if used; Check audio output settings in Android OS.
Remote control not working	Batteries depleted; Obstruction between remote and sensor; Remote sensor blocked.	Replace batteries; Remove any obstructions; Ensure remote sensor on display is clear.
Wi-Fi connection issues	Incorrect password; Router too far; Network issues.	Verify Wi-Fi password; Move display closer to router or use Ethernet; Restart router.
