BFADEHA B001

BFADEHA MFi Certified Bluetooth Tracker (Model B001) User Manual

Model: B001 | Brand: BFADEHA

1. Introduction

The BFADEHA MFi Certified Bluetooth Tracker (Model B001) is designed to help you locate your personal items quickly and efficiently using the Apple Find My network. This ultra-thin tracker is ideal for wallets, keys, bags, and other valuables, providing peace of mind through its robust tracking capabilities and long-lasting battery.
This manual provides detailed instructions for setting up, operating, and maintaining your BFADEHA Bluetooth Tracker. Please read it carefully to ensure proper use and to maximize the device's functionality.

2. Safety Information

- Keep the device away from extreme temperatures and direct sunlight.
- Do not attempt to disassemble or modify the device. This may void the warranty and cause damage.
- Dispose of the device and its battery responsibly according to local regulations.
- This device is IP67 water and dust resistant, meaning it can withstand immersion in water up to 3 feet for 30 minutes. However, it is not recommended for prolonged submersion or use in harsh aquatic environments.

3. Package Contents

- 1 x BFADEHA MFi Certified Bluetooth Tracker (Model B001)
- 1 x User Manual

4. Setup Guide

The BFADEHA Bluetooth Tracker is designed for seamless integration with Apple's Find My network. Ensure your iOS

device (iPhone, iPad, or iPod touch) is updated to the latest iOS version and has Bluetooth enabled.

4.1 Pairing with Your iPhone

1. **Activate the Tracker:** Long press the function button on the tracker for approximately 5 seconds until you hear a beep sound. This indicates the tracker is in pairing mode.
2. **Open Find My App:** On your iPhone, open the "Find My" application. Ensure Bluetooth is enabled on your device.
3. **Add New Item:** Tap the "Items" tab at the bottom of the screen, then tap the "+" icon and select "Add Other Item".
4. **Connect:** Your iPhone will detect the BFADEHA tracker. Tap "Connect" when prompted.
5. **Confirm Pairing:** Follow the on-screen instructions to name your item and link it to your Apple ID. Confirm the prompt to complete the pairing process.

Image: The tracker integrates with the Apple Find My app for item location.

5. Operating Instructions

5.1 Locating Items Nearby (Play Sound)

If your item is within Bluetooth range, you can make the tracker emit a sound to help you find it.

1. Open the "Find My" app on your iPhone.
2. Navigate to the "Items" tab.
3. Select your BFADEHA tracker from the list.
4. Tap the "Play Sound" button. The tracker will emit a loud beep (up to 100dB) to guide you to its location.

Image: Using the 'Play Sound' feature to locate the tracker.

5.2 Locating Items Far Away (Navigation)

If your item is not within Bluetooth range, the Find My network can help you locate it on a map.

1. Open the "Find My" app on your iPhone.
2. Navigate to the "Items" tab.
3. Select your BFADEHA tracker.
4. Tap "Directions" to open Apple Maps and receive navigation instructions to your item's last known or current location, as detected by the Find My network.

Image: Navigating to a lost item's location using the Find My app.

5.3 Left-Behind Reminders

Receive instant alerts if you leave your tracked item behind.

- In the Find My app, select your tracker.
- Under "Notifications," enable "Notify When Left Behind." You can customize locations where you don't want to be notified (e.g., your home).

Image: Example of a left-behind reminder notification.

5.4 Lost Mode

If your item is truly lost, you can enable Lost Mode to help others return it to you.

- In the Find My app, select your tracker.
- Under "Lost Mode," tap "Enable."
- Enter your contact information (phone number and/or email address) and a message.
- If someone finds your item, they can tap their NFC-enabled smartphone to the tracker to see your contact information and return it.

5.5 Privacy Protection

Your privacy is protected within the Find My network.

- Location data is encrypted at every step and is never stored publicly.

- Only you can see your tracker's location.
- The BFADEHA tracker does not store your location data.

6. Maintenance

6.1 Battery Life

The BFADEHA Bluetooth Tracker is equipped with an ultra-long-life battery designed to last approximately 5-10 years. This extended battery life ensures reliable tracking without the need for frequent charging or replacement. The battery is not user-replaceable.

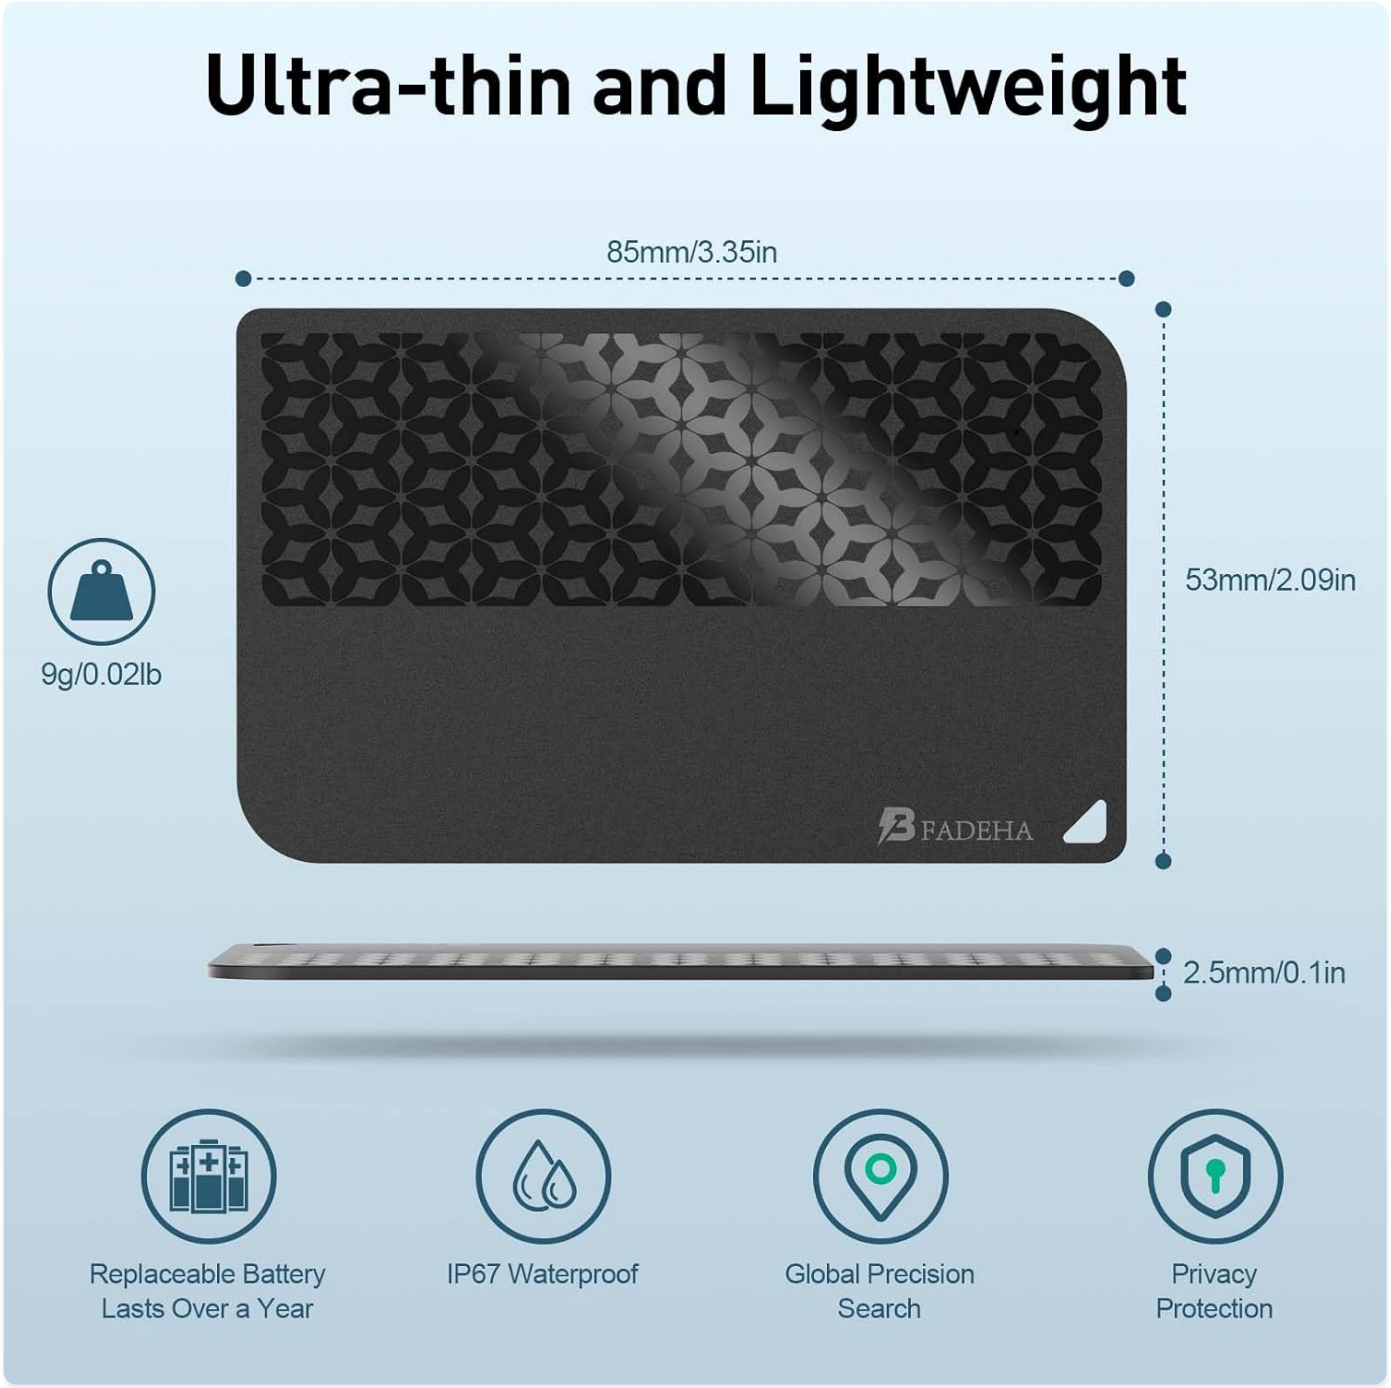

Image: Physical specifications and key features of the tracker. Note: The text 'Replaceable Battery Lasts Over a Year' in this image contradicts the product description of '5-10 Years Battery' and is likely a generic graphic element. The product is designed for a 5-10 year non-replaceable battery life.

6.2 Cleaning and Care

- Wipe the tracker with a soft, dry cloth to remove dust or smudges.
- Avoid using harsh chemicals or abrasive cleaners.

7. Troubleshooting

7.1 Tracker Not Pairing

- Ensure your iPhone's Bluetooth is enabled.
- Make sure the tracker is in pairing mode (long press the function button until it beeps).
- Bring the tracker closer to your iPhone.
- Restart your iPhone and try the pairing process again.

7.2 Sound Alarm is Faint

- The tracker's alarm can reach up to 100dB, but its perceived loudness can be affected by its surroundings (e.g., inside a thick wallet, under cushions).
- Ensure there are no obstructions directly covering the tracker's speaker.
- If the item is in a noisy environment, the sound may be harder to hear. Try to reduce ambient noise if possible.

7.3 Inaccurate Location

- The Find My network relies on nearby Apple devices to anonymously relay location information. In areas with fewer Apple devices, location updates may be less frequent or precise.
- Ensure your iPhone has a stable internet connection for the Find My app to display the most current location data.

8. Specifications

Feature	Detail
Model Number	B001
Dimensions	4.21 x 3.66 x 0.24 inches (approx. 85mm x 53mm x 2.5mm)

Answered questions about this manual

I used my BFADEHA B001 tracker card while travelling and am now home; how do I turn the tracker card off to preserve battery life?

Based on the BFADEHA B001 user manual, there is no specific instruction for turning the device "off" once it has been activated. These types of Bluetooth trackers are generally designed to remain in a...
