

iRobot 105 Combo

iRobot Roomba 105 Combo Robot Vacuum Instruction Manual

Model: 105 Combo | Brand: iRobot

INTRODUCTION

This manual provides essential information for the setup, operation, and maintenance of your iRobot Roomba 105 Combo robot vacuum. Please read it thoroughly to ensure proper use and to maximize the performance of your device.

The iRobot Roomba 105 Combo is a versatile robot vacuum cleaner designed for both vacuuming and mopping. It features advanced LiDAR navigation for efficient mapping, powerful suction, and intelligent cleaning modes to keep your floors spotless.

PACKAGE CONTENTS

Verify that all items are present in the package:

- iRobot Roomba 105 Combo Robot
- Home Base Charging Station
- Power Cord
- Microfiber Mop Pad
- User Manual (this document)

SETUP

1. Charging the Robot

Place the Home Base charging station against a wall in an open, uncluttered area. Ensure there is at least 0.5 meters (1.5 feet) of clear space on either side of the Home Base and 1.2 meters (4 feet) in front of it. Connect the power cord to the Home Base and plug it into a wall outlet.

Image: The Roomba 105 Combo robot vacuum shown with its charging station and the companion app on a smartphone. The robot is black with a textured top surface.

Place your Roomba robot onto the Home Base. The robot will emit a tone to confirm it is properly docked and charging. Allow the robot to fully charge before its first use (approximately 3 hours).

2. Connecting to the iRobot Home App

For full functionality and advanced features, download the iRobot Home app on your smartphone or tablet. The app allows you to schedule cleanings, customize cleaning preferences, view cleaning maps, and receive maintenance alerts.

- Download the iRobot Home app from your device's app store.
- Follow the in-app instructions to connect your Roomba 105 Combo to your home Wi-Fi network.
- The app will guide you through the initial setup and mapping process.

OPERATING THE ROBOT

Starting a Cleaning Cycle

You can start a cleaning cycle in three ways:

1. **Using the Clean Button on the Robot:** Press the large CLEAN button on top of the robot once to start a cleaning cycle. Press it again to pause, and a third time to send the robot back to its Home Base.

本体のボタンひとつで動作

本商品（ロボット及び充電ステーション）で清掃を開始するには、Roomba® Home アプリのご使用は必須ではありません。

本商品の全機能をご利用いただくためには、アプリのご使用と Wi-Fi 接続による本商品のバージョンアップが必要です。

Cleaning Modes and Features

- **Vacuuming Only:** The robot will only vacuum your floors.
- **Mopping Only:** Attach the microfiber mop pad and fill the water tank. The robot will mop your floors.

- **Vacuuming and Mopping Simultaneously:** The robot can perform both functions at once. Ensure the mop pad is attached and the water tank is filled.
- **SmartScrub:** For tougher stains, select SmartScrub mode in the app for enhanced mopping performance. This mode provides up to 2 times the scrubbing power compared to standard mopping.

ClearView™ LiDAR

お部屋のマップをすばやく作成。

- **Carpet Detection:** The robot automatically detects carpets and avoids them during mopping cycles to prevent wetting.
- **LiDAR Navigation:** The ClearView LiDAR system quickly creates a map of your home, allowing the robot to navigate efficiently and avoid obstacles, even in low light conditions.

MAINTENANCE

Regular maintenance ensures optimal performance of your Roomba 105 Combo. Always turn off the robot and disconnect it from the charging station before performing any maintenance.

Emptying the Dust Bin

The dust bin should be emptied after each cleaning cycle or when indicated by the app. Press the bin release button and pull out the bin. Open the bin door and shake out debris. The filter can also be removed and tapped clean.

Cleaning the Mop Pad

The microfiber mop pad should be removed and washed after each mopping cycle. It is washable and reusable.

Cleaning Brushes and Wheels

Periodically check and clean the multi-surface brushes and the edge-sweeping brush for tangled hair or debris. Use the cleaning tool provided to remove hair. Also, wipe the charging contacts and caster wheel.

TROUBLESHOOTING

If your Roomba 105 Combo encounters an issue, the iRobot Home app will often provide specific error messages and troubleshooting steps. Common issues and general solutions include:

- **Robot not charging:** Ensure the Home Base is plugged in and the robot is properly docked. Clean the charging contacts on both the robot and the Home Base.
- **Robot getting stuck:** Clear obstacles from the cleaning area. Use the iRobot Home app to set Keep Out Zones for problematic areas.
- **Poor cleaning performance:** Empty the dust bin, clean the brushes, and replace the filter if necessary. Ensure the mop pad is clean and wet for mopping.
- **App connectivity issues:** Ensure your robot is within Wi-Fi range and your router is functioning correctly. Restart both your robot and your Wi-Fi router.

For more detailed troubleshooting or persistent issues, refer to the iRobot Home app's help section or contact iRobot

customer support.
