Frgnie TX2/EF12 1.75" Smartwatch Screen Protector

Frgnie Screen Protector Installation and Care Guide

For LIGE TX2 / EF12 1.75" Smartwatches

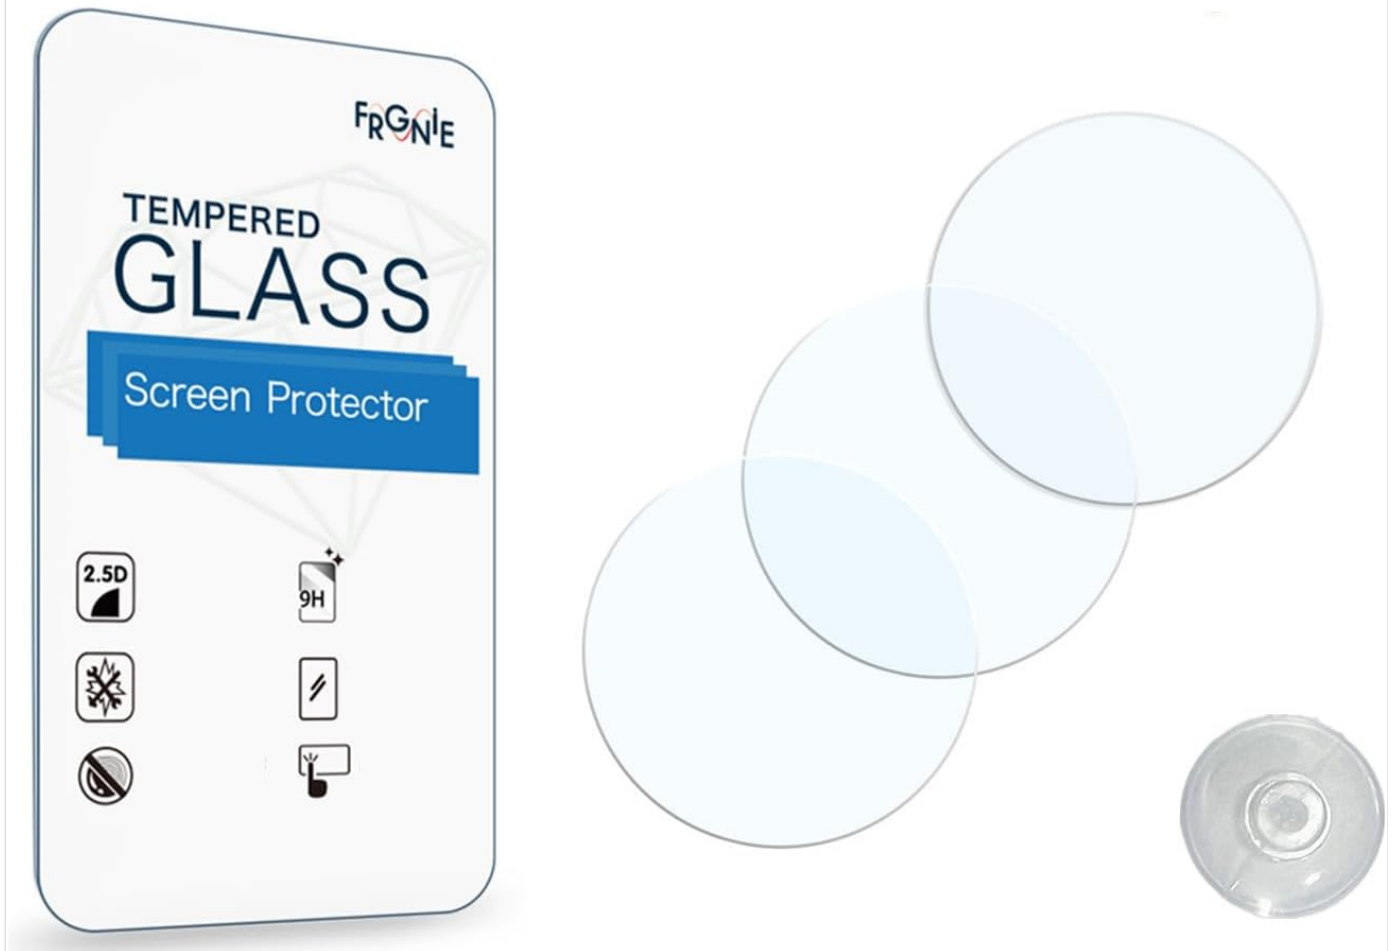

INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your Frgnie HD tempered glass screen protectors. Designed specifically for the LIGE TX2 and EF12 1.75-inch smartwatches, these protectors offer robust defense against scratches, impacts, and daily wear, ensuring the longevity and clarity of your device's display.

Each package contains 3 high-quality tempered glass screen protectors, engineered for easy, bubble-free application and a high-definition viewing experience.

Produktinhalt : Schutzfolien X 3 Stück

Product Contents: This image displays the Frgnie Tempered Glass Screen Protector packaging alongside three individual round screen protectors and a small suction cup, indicating a multi-pack for convenience.

SETUP AND INSTALLATION

Proper installation is crucial for optimal performance and adhesion. Please follow these steps carefully:

- 1. Prepare Your Smartwatch:** Ensure your smartwatch screen is clean and free of dust, fingerprints, and smudges. Use a microfiber cloth and, if necessary, a screen cleaning solution.
- 2. Align the Protector:** Carefully align the screen protector with your smartwatch screen. Pay attention to the edges and any cutouts for sensors or buttons.
- 3. Apply the Protector:** Gently place the protector onto the screen. The adhesive will begin to spread automatically. If a suction cup is provided, use it to assist with precise placement and to minimize direct finger contact with the adhesive side.
- 4. Remove Bubbles:** If any bubbles appear, gently push them towards the edges of the screen using a soft cloth or a squeegee card. Small bubbles typically disappear within 24-48 hours.

EASY INSTALLATION

Installed quickly a suction cup

Easy Installation: This image demonstrates the simple application process, showing a hand using a small suction cup to precisely position the screen protector onto the smartwatch display, ensuring a smooth, bubble-free fit.

The Frgnie screen protectors are designed for easy, bubble-free installation with a strong, residue-free adhesive. They feature 2.5D round edges for a smooth feel and enhanced anti-shock properties.

2.5D ROUND EDGES

Feeling smooth
Anti-shock

2.5D Round Edges: This visual highlights the smooth, rounded edges of the screen protector, which contribute to a comfortable touch experience and improved resistance against chipping.

COMPATIBILITY

These screen protectors are specifically designed for the following smartwatch models:

- LIGE TX2 Smartwatch 1.75"
- LIGE EF12 Smartwatch 1.75"

Please ensure your smartwatch model matches the specified dimensions (1.75 inches) to guarantee proper fit and adhesion. Incorrect sizing may lead to poor adhesion or coverage.

Kompatibel mit :

TX2 Smartwatch 1,75"

Compatibility Check: This image confirms the screen protector's compatibility with the TX2 Smartwatch 1.75", showing the protector perfectly aligned with the watch face.

OPERATION AND VISUAL EXPERIENCE

Once installed, the Frgnie screen protector maintains the original touch sensitivity and visual clarity of your smartwatch. Its HD transparent design ensures a high-resolution retina viewing experience, preserving the bright and colorful image quality of your display.

The surface features a special nano-coating, making it waterproof and oleophobic. This effectively isolates oil and water stains, allowing for easy cleaning and maintaining a clear view.

WATERPROOF & OLEOPHOBIC

The surface has a special nano-coating that effectively isolates oil and water stains

Waterproof & Oleophobic: This image visually represents the screen protector's ability to repel water and oil, showing droplets beading on the surface of the smartwatch screen, indicating easy cleaning and stain resistance.

MAINTENANCE AND CARE

To ensure the longevity and effectiveness of your screen protector, follow these care guidelines:

- **Cleaning:** Wipe the screen protector regularly with a soft, lint-free cloth. For stubborn smudges, lightly dampen the cloth with water or a mild, non-abrasive screen cleaner.
- **Avoid Harsh Chemicals:** Do not use alcohol, ammonia, or abrasive cleaners, as these can damage the oleophobic coating.
- **Protection:** While the 9H hardness tempered glass offers significant protection against scratches from keys, blades, and accidental impacts, it is not indestructible. Avoid extreme pressure or sharp objects.
- **Replacement:** If the screen protector becomes cracked or severely scratched, replace it promptly to maintain optimal screen protection and visual clarity.

TROUBLESHOOTING

Common Issues and Solutions:

- **Bubbles After Installation:**

Small bubbles are common immediately after installation and often disappear within 24-48 hours as the adhesive fully settles. For larger bubbles, gently lift the nearest edge of the protector and reapply, pushing the bubble out with a soft cloth.

- **Protector Does Not Adhere Properly:**

Ensure the screen was thoroughly cleaned and free of dust before application. Dust particles are the most common cause of poor adhesion. If the issue persists, the protector may be damaged or incompatible.

- **Incorrect Size / Poor Fit:**

This screen protector is designed for LIGE TX2 and EF12 1.75-inch smartwatches. If the protector is too large or too small, please double-check your smartwatch model and screen size. Compatibility issues can arise if the watch model is different from the specified ones, or if the screen size is not precisely 1.75 inches. Refer to your smartwatch's specifications to confirm its exact screen dimensions.

SPECIFICATIONS

Brand	Frgnie
