Veken SHC7V108

Veken 10" Luxurious All Metal Rain Shower Head with Handheld Spray Combo

Model: SHC7V108 | Brand: Veken

INTRODUCTION

Thank you for choosing the Veken 10" Luxurious All Metal Rain Shower Head with Handheld Spray Combo. This high-quality shower system is designed to provide a superior showering experience with its durable construction, versatile spray options, and easy-to-use features. This manual provides detailed instructions for installation, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your new shower system.

Figure 1: Veken 10-inch Rain Shower Head with Handheld Spray Combo in Chrome finish, showing water flowing from both heads.

PRODUCT FEATURES

- **Durable All Metal Construction:** Crafted from premium metal materials, both the rain shower head and handheld shower head are designed to withstand the test of time without rusting or breaking, ensuring a lifetime of use.

Figure 2: All-metal construction for durability and flexible adjustment.

- **15-Inch Extension Arm & 13-Inch Slide Bar:** The Veken Dual Adjustable Showerhead features a 15-inch extension arm and a 13-inch slide bar, allowing you to find the perfect height and angle for all family members. Made from stainless steel for enhanced durability.

Figure 3: Adjustable bracket and 360-degree rotation for optimal positioning.

- **10-Inch Square Rain Shower Head:** This large 10-inch square shower head provides a luxurious rainfall effect with its wide-angle water output, offering a deeply relaxing experience.
- **Power Wash Handheld Spray:** The handheld unit includes a built-in professional power cleaning mode, ideal for removing dirt from showers, tubs, and tiles. It comes with a 60-inch long hose for extended reach.

Sleek & Elegant design

build-in power wash

Figure 4: Handheld spray with powerful built-in power wash mode.

- **Easy Control Switcher & Anti-Clog Nozzles:** An ergonomically designed switcher allows easy transition between the hand shower and the main shower head, or simultaneous use of both. The nozzles are easy to clean, preventing clogs with a gentle squeeze.

PACKAGE CONTENTS

Please ensure all components are present before beginning installation:

Everything You Need Is Included

- 1 Hand Shower x1
- 2 10" Rain Shower Head x1
- 3 15" Integrated Tri-Arm Extension x1
- 4 13" Slide Bar with Hand Shower Holder x1
- 5 60" Hose with Pause Controller x1
- 6 Spare Washers x2
1m Teflon Tape x1
Wrench x1

Not Included

- Shower Arm
- Shower Valve Kit

Figure 6: All components included in the package.

Component	Quantity
Handheld Shower head	1
10" Rain Shower Head	1
Integrated Tri-Arm Extension (15")	1
Slide Bar with Bracket (13")	1
Hose (60")	1
Spare Washers	2
Teflon Tape	1m
Wrench	1

Note: Shower arm and shower valve kit are not included.

SETUP AND INSTALLATION

Before You Begin

- Turn off the main water supply to your shower.
- Gather necessary tools: adjustable wrench (included), pliers, cloth.
- Remove your old shower head by twisting it counter-clockwise.
- Clean any existing Teflon tape threads from the water supply pipe.

Step-by-Step Installation

1. **Install the Tri-Arm Extension:** Connect the integrated tri-arm extension to the water supply pipe. Ensure the nut with the label/sticker is rotated clockwise to tighten. Remove the white cap from the extension arm before installation.
2. **Reinforce Connection:** Use the included wrench to tighten the connection of the extension arm to the water supply pipe.
3. **Install the Rain Shower Head:** Position the extension arm downwards for easier installation. Ensure the washer is inserted into the main shower head before connecting. Connect the 10" rain shower head to the end of the extension arm by rotating clockwise until tight.
4. **Install the Slide Bar:** Remove the white cap from the slide bar. Connect the slide bar to the extension arm by rotating clockwise to tighten. Reinforce the connection with the included wrench.
5. **Install the Handheld Shower Head:** Check that the washer is inserted into the hose. Identify the end of the hose with a hexagonal shape; this end connects to the slide bar. Connect the hose to the slide bar. Connect the other side of the hose to the handheld shower head.

Video 1: Official Veken 10 Inch All Metal Shower Head with Spray Combo Installation Guide. This video provides a visual walkthrough of the installation process, demonstrating how to connect each component securely and correctly.

After installation, double-check all connections to ensure they are tight. Turn on the main water supply and check for any leaks. If leaks occur, tighten the connections further or reapply Teflon tape as needed.

OPERATING INSTRUCTIONS

Switching Spray Modes

The Veken shower system offers three distinct spray modes: Rainfall, Handheld Spray, and a Dual mode combining both. Use the easy control switcher located on the tri-arm extension to select your desired mode.

- **Rainfall Mode:** Turn the switcher to activate only the 10-inch rain shower head for a wide, gentle rainfall experience.
- **Handheld Spray Mode:** Turn the switcher to activate only the handheld shower head for targeted rinsing or cleaning.

- **Dual Mode:** Position the switcher to allow water flow from both the rain shower head and the handheld spray simultaneously.

Using the Handheld Spray

The handheld shower head can be easily removed from its bracket on the slide bar. The height and angle of the handheld showerhead can be freely adjusted by pressing the button on the bracket and sliding it up or down, or rotating it to your preferred angle.

Figure 8: Extension arm and easy-flow nozzles.

Power Wash Feature

The handheld shower head features a unique power wash mode. To activate, simply slide the button on the side of the handheld unit. This provides a concentrated, high-pressure stream ideal for cleaning surfaces.

MAINTENANCE

Regular cleaning and maintenance will ensure your Veken shower system continues to perform optimally and maintain its aesthetic appeal.

- **Cleaning Nozzles:** The shower heads are equipped with easy-to-clean silicone nozzles. To remove mineral buildup or clogs, gently squeeze or rub the rubber nozzles with your fingers.
- **General Cleaning:** Clean the chrome or matte black finish regularly with a soft cloth and mild soap or a non-abrasive bathroom cleaner. Avoid using harsh chemicals, abrasive cleaners, or scouring pads, as these can damage the finish.
- **Hose Care:** Periodically check the hose for any kinks or damage. Ensure it is not excessively stretched or twisted during use.

TROUBLESHOOTING

If you encounter any issues with your Veken shower system, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Low Water Pressure	Clogged nozzles; Flow restrictor; Insufficient main water pressure.	Clean nozzles by rubbing; Check if flow restrictor is installed correctly (do not remove unless permitted by local codes); Consult a plumber for main water pressure issues.
Leaking Connections	Loose connections; Insufficient Teflon tape; Damaged washers.	Tighten all connections; Reapply Teflon tape to threaded connections; Replace damaged washers.
Handheld Shower Falling from Bracket	Incorrect hose connection to handheld; Bracket not tightened.	Ensure the correct end of the hose is connected to the handheld (the one without the hexagonal shape); Tighten the bracket on the slide bar.
Difficulty Adjusting Extension Arm/Slide Bar	Knobs not loosened sufficiently.	Ensure all adjustment knobs are loosened before attempting to reposition the arm or slide bar. Tighten firmly once adjusted.

SPECIFICATIONS

Attribute	Detail
Brand	Veken
Model Number	SHC7V108
Style	15 Inch Extension Arm
Shape	Square
Material	Stainless Steel
Finish Type	Polished (Chrome)
Setting Type	Rain, Power Wash
