## FDW 16 Gallon / 60 L Garbage Can

# FDW 16 Gallon / 60 L Stainless Steel Step Trash Bin

## USER MANUAL

Model: 16 Gallon / 60 L Garbage Can | Brand: FDW

## Introduction

---

Thank you for choosing the FDW 16 Gallon / 60L Stainless Steel Trash Can. This manual provides essential information for the proper setup, operation, maintenance, and troubleshooting of your new trash bin. Please read this manual thoroughly before use to ensure optimal performance and longevity of the product.

## Product Overview and Features

---

The FDW 16 Gallon / 60L Stainless Steel Trash Can is designed for convenience and durability, suitable for various environments such as kitchens, offices, bedrooms, and bathrooms. Key features include:

- **Fingerprint-Proof Stainless Steel:** Constructed from high-quality brushed stainless steel with a special finish to resist smudges and maintain a clean appearance.
- **Soft-Close Lid:** Equipped with a mechanism that allows the lid to close quietly and smoothly, preventing loud slamming and extending product life.
- **Durable Step Pedal:** Features a robust metal foot pedal for hands-free operation, ensuring hygienic use and long-term reliability.
- **16-Gallon (60L) Large Capacity:** Offers ample space for waste, reducing the frequency of emptying, ideal for busy households or commercial settings.
- **Waterproof Surface Coating:** Easy to clean and maintain.

- **Anti-Rust Material:** Made of stainless steel with anti-corrosion properties for enhanced durability.

## Components

---

Your FDW 16 Gallon / 60L Stainless Steel Trash Can package includes:

- 1 x FDW 16 Gallon / 60L Stainless Steel Step Trash Bin
- (Note: Inner liners/buckets may be pre-installed or separate depending on model variation.)

## Setup

---

Setting up your FDW trash can is straightforward:

1. **Unpacking:** Carefully remove the trash can from its packaging. Retain packaging materials for future transport or storage if needed.

2. **Placement:** Place the trash can on a flat, stable surface in your desired location (kitchen, office, bathroom, etc.). Ensure there is enough clearance for the lid to open fully without obstruction.
3. **Insert Liner:** If your model includes removable inner buckets, place them inside the main body of the trash can. Insert a standard 16-gallon (60L) trash bag into the inner bucket, folding the edges over the rim to secure it.

## Operating Instructions

---

Using your FDW trash can is simple and hygienic:

- **Opening the Lid (Foot Pedal):** Gently press down on the metal foot pedal located at the base of the trash can. The lid will open smoothly. Release the pedal to allow the soft-close mechanism to lower the lid quietly.
- **Opening the Lid (Manual):** The lid can also be lifted manually if preferred.
- **Securing the Lid (Latch):** Some models may feature a latch mechanism to keep the lid open or closed. If present, slide the latch to the "Lock" position to secure the lid, or "Unlock" to release it.
- **Disposing Waste:** Place waste into the inner bucket. For models with dual compartments (e.g., 30L + 30L for dry/wet

waste), ensure waste is sorted into the appropriate compartment.

- **Moving the Trash Can:** Use the side armrests (if available) to conveniently lift and move the trash can. The non-slip mat on the base ensures stability and prevents scratching floors.

## Maintenance

---

To keep your FDW trash can in excellent condition:

- **Cleaning the Exterior:** Wipe the stainless steel exterior with a soft, damp cloth and a mild detergent. For best results and to maintain the fingerprint-proof finish, dry immediately with a clean, soft cloth. Avoid abrasive cleaners or scouring pads.
- **Cleaning the Interior:** Periodically remove the inner bucket(s) and wash them with soap and water. Rinse thoroughly and allow to dry completely before placing them back into the trash can.
- **Odor Control:** To prevent odors, change trash bags regularly and clean the inner bucket(s) as needed. Baking soda can be placed at the bottom of the inner bucket to absorb odors.
- **Lid Mechanism:** Do not force the lid open or closed. The soft-close mechanism is designed for smooth operation. Keep the area around the pedal and hinge clean of debris.

## Troubleshooting

---

Problem	Possible Cause	Solution
Lid not closing softly/smoothly.	Debris in hinge mechanism; damaged soft-close damper.	Clean any debris from the hinge area. If the damper is damaged, contact customer support.
Lid not opening fully with pedal.	Obstruction behind the trash can; pedal mechanism jammed.	Ensure sufficient clearance behind the trash can. Check pedal for obstructions and clear them.
Unpleasant odors.	Infrequent bag changes; dirty inner bucket.	Change trash bags more frequently. Clean the inner bucket thoroughly. Consider using odor absorbers.
Fingerprints/smudges visible.	Excessive handling; residue from cleaning agents.	Wipe with a soft, dry microfiber cloth. Avoid oily hands or harsh chemicals.

## Specifications

---

Attribute	Detail
Product Dimensions	22 x 12 x 23 inches (L x W x H)
Item Weight	8 Pounds
Model Number	16 Gallon / 60 L Garbage Can
Brand	FDW
Capacity	60 Liters (16 Gallons)
Color	Stainless Steel
Opening Mechanism	Step-On (Pedal-Operated)
Material	Stainless Steel
Recommended Uses	Kitchen, Office, Bathroom, Bedroom
Special Feature	Soft-Close Lid, Fingerprint Proof, Anti-Rust, Waterproof
Shape	Square
