SETUP

Initial Setup

1. **Power On:** Press and hold the power button located on the side of the tablet until the DOOGEE logo appears.
2. **Language Selection:** Follow the on-screen prompts to select your preferred language.
3. **Wi-Fi Connection:** Select your Wi-Fi network from the list and enter the password to connect to the internet.
4. **Google Account:** Sign in with your Google account or create a new one to access Google services and the Play Store.

Connecting Accessories

The DOOGEE U10 comes with a Bluetooth keyboard, mouse, and stylus for enhanced usability.

- **Bluetooth Keyboard/Mouse:** Turn on the keyboard/mouse and enable Bluetooth on your tablet via Settings > Connected devices > Bluetooth. Select the accessory from the available devices list to pair.
- **Stylus Pen:** The stylus pen is generally passive and does not require pairing. Simply use it directly on the screen.
- **Protective Case:** Insert the tablet into the protective case for added protection and to use it as a stand.

MAINTENANCE

Cleaning Your Tablet

To maintain the tablet's appearance and functionality, regularly clean it with a soft, lint-free cloth. For stubborn smudges, slightly dampen the cloth with water. Avoid using harsh chemicals, abrasive materials, or aerosol sprays directly on the tablet.

Software Updates

Periodically check for system updates to ensure your tablet has the latest features, security patches, and performance improvements. You can usually find this option in Settings > System > System update.

TROUBLESHOOTING

This section addresses common issues you might encounter with your DOOGEE U10 tablet.

Problem	Possible Cause	Solution
Tablet does not power on	Low battery; System crash	Charge the tablet for at least 30 minutes. Press and hold the power button for 10-15 seconds to force restart.
Wi-Fi connection issues	Incorrect password; Router issue; Signal interference	Verify Wi-Fi password. Restart your router. Move closer to the Wi-Fi router.
Slow performance	Too many apps running; Low storage space	Close unnecessary apps. Clear cache. Uninstall unused apps. Consider adding a microSD card.
Touchscreen unresponsive	Temporary software glitch; Screen protector issue	Restart the tablet. Ensure screen protector is properly applied or remove it to test.
