## VMAI G700

# VMAI Replacement Battery for G700 Electric Mops User Manual

Comprehensive instruction manual for the VMAI New Version Replacement Battery, compatible with G700 Electric Mops (2023 and later models). Includes setup, operation, maintenance, and troubleshooting.

## IMPORTANT SAFETY INFORMATION

- **Compatibility:** This battery is only compatible with the G700 mop from 2023 and later. If you need to purchase a battery from an earlier date, please contact customer support.
- **Charging:** Please note that only the original charger should be used for charging. Charging with chargers from other brands may damage the battery.
- Do not expose the battery to extreme temperatures or direct sunlight.
- Do not disassemble, puncture, or modify the battery.
- Keep the battery away from water and moisture.

## PRODUCT OVERVIEW

The VMAI New Version Replacement Battery is designed to provide reliable power for your G700 Electric Mop (2023 and later models). This lithium-ion battery ensures consistent performance and extends the operational time of your electric mop.

## SETUP

---

### 1. Battery Installation

1. Ensure your G700 Electric Mop is powered off and unplugged from any charging source.
2. Locate the battery compartment on your G700 Electric Mop. This is typically found on the main body of the mop.
3. Open the battery compartment cover.
4. Align the VMAI Replacement Battery with the compartment, ensuring the contacts match correctly.
5. Gently push the battery into the compartment until it clicks securely into place.
6. Close the battery compartment cover.

### 2. Initial Charging

- Before first use, fully charge the battery.
- Connect the original VMAI charger to the charging port on your G700 Electric Mop.
- Plug the charger into a standard electrical outlet.
- The charging indicator light on your mop will illuminate, typically red or amber, to show that charging is in progress.
- Once fully charged, the indicator light will usually change color (e.g., to green) or turn off. Refer to your G700 Electric Mop's manual for specific charging indicator behavior.

- Disconnect the charger once charging is complete.

## OPERATION

---

Once the VMAI Replacement Battery is installed and charged, your G700 Electric Mop is ready for use. Refer to your G700 Electric Mop's main instruction manual for detailed operating procedures, including powering on/off, selecting cleaning modes, and water dispensing.

- The battery provides power for the mop's rotating pads and water spray function.
- Monitor the battery level indicator on your mop (if available) to know when recharging is needed.

## MAINTENANCE AND STORAGE

---

### Charging Guidelines

- Always use the original VMAI charger provided with your G700 Electric Mop.
- Avoid overcharging the battery. Disconnect the charger once the battery is full.
- Charge the battery in a well-ventilated area, away from flammable materials.

### Battery Care and Storage

- Store the battery in a cool, dry place when not in use.
- If storing for extended periods, charge the battery to approximately 50% capacity every 3-6 months to maintain its health.
- Keep battery contacts clean and free from debris.
- Do not store the battery near heat sources or in direct sunlight.

## TROUBLESHOOTING

---

### Battery Not Charging

- Ensure the charger is securely connected to both the mop and the power outlet.
- Verify that you are using the original VMAI charger. Third-party chargers may not be compatible or could damage the battery.
- Check the power outlet by plugging in another device.
- Inspect the battery and charger for any visible damage.

### Mop Not Powering On with New Battery

- Confirm the battery is fully charged and correctly installed in the mop.
- Ensure the battery is compatible with your G700 Electric Mop (models from 2023 and later). Older models may not be supported.
- If the issue persists, contact VMAI customer support.
