- Avoid exposing the watch to extreme temperatures or harsh chemicals.
- Charge the watch using the provided charger cable.

TROUBLESHOOTING

If you encounter any issues with your KOSPET Tank T3 Ultra 2, please refer to the following common solutions:

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger and wait a few minutes before attempting to power it on again.

- **Connection issues:** Verify that Bluetooth is enabled on your phone and the KOSPET FIT app is running. Try restarting both the watch and your phone. Ensure the app is not in a power-saving mode or restricted by your phone's settings.
- **Inaccurate readings:** Ensure the watch is worn snugly on your wrist. Clean the sensors on the back of the watch. For heart rate monitoring, check the automatic monitoring frequency settings in the app.
- **Notifications not appearing:** Double-check the notification settings in the KOSPET FIT app and your phone's system settings. Ensure "Do Not Disturb" or "Low Power Mode" are not active on your phone.
- **Battery draining quickly:** Review your usage patterns. Features like Always-On Display, frequent GPS use, and continuous heart rate monitoring can consume more power. Adjust settings in the app to optimize battery life.
- **Screen unresponsive:** Try restarting the watch by long-pressing the SEL button. If the issue persists, ensure the screen is clean and dry.
