De'Longhi EXAM44055B

De'Longhi Rivelia Automatic Espresso Machine User Manual

Brand: De'Longhi | Model: EXAM44055B

Introduction

The De'Longhi Rivelia Automatic Espresso Machine is designed to bring a premium coffee experience into your home. This compact, award-winning machine offers a wide range of customizable coffee and milk-based beverages with intuitive controls. Featuring an innovative Bean Switch System and Bean Adapt Technology, it allows for effortless exploration of different coffee flavors while optimizing extraction for every bean type. This manual provides essential information for the proper setup, operation, maintenance, and troubleshooting of your Rivelia machine.

Key Features

- **18+ Preset Recipes:** Enjoy a full range of coffee shop favorites including latte, cappuccino, cortado, coffee, flat white, iced coffee, espresso, and espresso over ice with just one touch.
- **Personalized Customization:** Adjust intensity, quantity, and add an extra shot to tailor your drink to your exact preference.
- **Two Removable Bean Hoppers:** Effortlessly switch between different bean types (e.g., regular and decaf) using two 8.8-oz interchangeable hoppers. The integrated 13-setting burr grinder ensures fresh grounds for every cup.
- **Automatic Milk Frother (LatteCrema Hot System):** Instantly froth milk or plant-based alternatives into velvety smooth hot foam with an auto-clean function.
- **Bean Adapt Technology:** Eliminate guesswork with step-by-step guidance to expertly set and automatically save the ideal grind, dose level, and temperature for all your favorite bean types.
- **Intuitive & Intelligent Touch Screen:** A 3.5-inch color touch display allows for saving and personalizing recipes with up to 4 custom profiles.
- **Coffee Routines:** The machine recognizes and suggests each user's go-to drinks at different times of the day, adapting to your coffee routine.

Setup

1. Unpacking and Initial Cleaning

Carefully remove all packaging materials. Wipe the exterior of the machine with a soft, damp cloth. Wash all removable parts, including the water tank, drip tray, grounds container, and milk carafe, with warm water and mild detergent. Rinse thoroughly and dry.

2. Water Tank and Filter Installation

1. Remove the water tank from the side of the machine.
2. If using the included water filter, install it according to the filter instructions.

3. Fill the water tank with fresh, cold potable water up to the MAX line.
4. Place the water tank back into the machine, ensuring it is seated correctly.

3. Bean Hopper Installation

1. Select one of the two bean hoppers.
2. Fill the hopper with your preferred whole coffee beans. Do not use ground coffee in the bean hoppers.
3. Insert the filled bean hopper into the top of the machine and rotate it clockwise until it locks into place.

4. First Use and Rinsing Cycle

After plugging in the machine, follow the on-screen prompts for the initial setup. The machine will guide you through a rinsing cycle to prepare the internal circuits for use. Ensure a container is placed under the coffee spouts during this process.

Operating Instructions

1. Powering On/Off

Press the power button on the top panel to turn the machine on or off. The machine will perform an automatic rinsing cycle upon startup and before shutdown.

2. Selecting a Drink

From the main screen, tap on your desired beverage icon. The touch screen offers a variety of options including Espresso, Coffee, Americano, Latte, Cappuccino, and more. You can scroll through the available drinks.

3. Customizing Drinks

After selecting a drink, you can adjust parameters such as coffee strength (intensity), volume, and temperature using the on-screen sliders. The machine allows you to save these customized settings to your user profile for future use.

4. Using the Milk Frother (LatteCrema Hot System)

1. Fill the milk carafe with fresh milk or plant-based alternative.
2. Attach the milk carafe to the machine's milk spout.
3. Select a milk-based drink (e.g., Latte, Cappuccino) from the display.
4. The machine will automatically froth and dispense the milk, followed by the coffee.

5. Bean Switch System

To change bean types, simply remove the currently installed bean hopper and replace it with another filled hopper. The machine will guide you through any necessary steps to clear residual beans from the grinder if desired.

Maintenance

1. Daily Cleaning

- **Drip Tray and Grounds Container:** Empty and rinse daily. The machine will prompt you when the grounds container

needs emptying.

- **Milk Carafe:** After each use, perform the automatic clean cycle for the milk carafe. Detach and rinse all components of the carafe thoroughly with water.
- **Coffee Spouts:** Wipe the coffee spouts with a damp cloth.

2. Descaling

The machine will indicate when descaling is required. Use only De'Longhi descaling solution and follow the on-screen instructions precisely. Regular descaling is crucial for machine longevity and optimal coffee quality.

3. Brew Unit Cleaning

The brew unit should be removed and rinsed under running water at least once a month. Refer to the on-screen instructions or the full manual for detailed steps on removing and reinserting the brew unit.

4. Water Filter Replacement

Replace the water filter approximately every two months, or as indicated by the machine, to ensure optimal water quality and reduce the frequency of descaling.

Troubleshooting

Problem	Possible Cause	Solution
Machine does not turn on.	Not plugged in; power outlet issue.	Ensure the power cord is securely plugged into the machine and a working electrical outlet.
"Empty grounds container" message persists after emptying.	Grounds container not fully reinserted; sensor issue.	Ensure the grounds container and drip tray are fully and correctly inserted. If the issue persists, contact customer support.
Coffee is not hot enough.	Cup not pre-heated; temperature setting too low.	Pre-heat your cup with hot water. Adjust the coffee temperature setting in the machine's menu.
Milk does not froth properly.	Milk carafe dirty; milk type/temperature.	Clean the milk carafe thoroughly. Use cold, fresh milk (dairy or plant-based suitable for frothing).
Machine requires descaling frequently.	Water hardness setting incorrect; no water filter.	Check and adjust the water hardness setting in the machine's menu. Ensure the water filter is installed and replaced regularly.

Specifications

Feature	Detail
Brand	De'Longhi

Feature	Detail
Model Name	Rivelia Automatic Espresso Machine
Item Model Number	EXAM44055B
Color	Arctic White
Product Dimensions	17"D x 9.75"W x 14.75"H
