Troubleshooting

Common Issues and Solutions

- **Shrinking:** To minimize shrinking, always wash in cold water and tumble dry on low heat or air dry. High heat can cause cotton fibers to contract.
- **Fading:** Wash inside out with similar colors to help preserve the color vibrancy. Avoid direct prolonged exposure to strong sunlight when drying.
- **Pilling:** Pilling can occur with friction. To reduce pilling, wash garments inside out and avoid abrasive surfaces.
- **Loss of Softness:** Using fabric softener during washing can help maintain the fabric's softness. Ensure proper drying to prevent stiffness.
