De'Longhi EXAM44055W

De'Longhi Rivelia Automatic Espresso Machine User Manual

Model: EXAM44055W
Brand: De'Longhi

1. Setup and First Use

Before first use, ensure all packaging materials are removed. The De'Longhi Rivelia comes with essential components for immediate setup.

Figure 1: Included Components. The machine comes with a filter, removable water spout, cleaning brush, milk carafe (hot), measuring scoop, and a total hardness test kit.

1.1 Water Tank Setup

The machine features a removable water tank located on the side for easy refilling. It is recommended to use filtered water to prolong the life of your machine and improve coffee taste. The machine includes a filter for this purpose.

Figure 2: Water Filter Installation. The water filter should be installed in the removable water tank as shown.

1.2 Bean Hopper Setup

The Rivelia features an innovative Bean Switch System with two removable bean hoppers. This allows you to effortlessly switch between different bean types.

Figure 3: Bean Switch System. Two removable 8.8-oz bean hoppers allow for easy switching between coffee bean varieties.

1.3 Initial Rinse Cycle

Upon first power-on or after a period of inactivity, the machine will perform an automatic rinse cycle to clean the internal circuits. Ensure a cup is placed under the spout to collect the water.

2. Operating Instructions

2.1 Making Coffee (Whole Bean)

The Rivelia is a fully automatic espresso machine designed for whole bean coffee. Its intuitive touchscreen allows for easy selection and customization of your drinks.

Figure 4: Intuitive Touchscreen. Simply tap to grind, dose, brew, and froth 18+ drinks.

The Bean Adapt Technology guides you through setting and saving the ideal grind, dose, and temperature for your specific bean type, ensuring perfect extraction every time.

Figure 5: Optimized Precision with Bean Adapt Technology. Expertly set and auto-save the ideal settings for each bean type.

You can personalize your drink by adjusting intensity, quantity, and even adding an extra shot for a stronger brew.

Figure 6: Craft Coffee Shop Favorites. With one touch, grind, dose, brew, and froth your favorite coffee drinks.

2.2 Making Coffee (Ground Coffee)

The Rivelia also supports pre-ground coffee, ideal for decaffeinated options or if you run out of whole beans. To use pre-ground coffee:

1. Select your desired recipe on the touchscreen.
2. Tap the customization bar under the drink and select the option for pre-ground coffee (usually indicated by a spoon icon).
3. Open the lid in front of the bean container to access the pre-ground coffee funnel.
4. Add one level scoop of pre-ground coffee using the provided measuring scoop.
5. Press 'OK' on the screen to start brewing.

Important Note:

- Always add pre-ground coffee only when prompted by the machine. Adding it while the machine is off or not ready can cause it to fall improperly and lead to issues.

- Do not add more than one level scoop of pre-ground coffee. Overfilling can cause blockages. If coffee gets stuck, gently push it down with the handle of the scoop.
- Never pour whole coffee beans or water into the pre-ground coffee funnel. This funnel is exclusively for ground coffee.

Video: How to use ground coffee? | Ideal for decaffeinated coffee. This video demonstrates the process of using pre-ground coffee with your De'Longhi Rivelia machine, including troubleshooting common issues.

2.3 Milk Frothing

The integrated LatteCrema Hot System automatically froths milk or plant-based alternatives directly into your cup. It also features an auto-clean function for convenience.

Figure 7: Automatic Milk Frother. Instantly froth milk or alternatives with adjustable froth settings.

For cold foam experiences, the LatteCrema Cool accessory is available separately.

Figure 8: Upgrade to a Cold Foam Experience. Unlock 6 cold recipes like iced lattes & iced cappuccinos with the LatteCrema Cool Upgrade Set (sold separately).

3. Maintenance and Cleaning

Regular cleaning and maintenance are crucial for the longevity and optimal performance of your De'Longhi Rivelia machine.

3.1 Daily Cleaning

- **Milk Carafe:** After each use, turn the dial on the LatteCrema Hot System to the 'Clean' position to perform an automatic rinse. For a deep clean, disassemble the carafe and wash its components by hand or in the dishwasher.
- **Drip Tray and Grounds Container:** Empty and rinse the drip tray and the used coffee grounds container regularly (approximately every 10 coffees or when indicated by the machine).

3.2 Descaling

The machine will prompt you when descaling is needed. Follow the on-screen instructions and use a De'Longhi descaling solution for best results. Regular descaling prevents mineral buildup and ensures proper machine function.

Figure 9: EcoDecalk Descaling Solution. Use official De'Longhi descaling solution for effective maintenance.

3.3 Water Filter Replacement

Replace the water filter as indicated by the machine or every two months, whichever comes first. Using a fresh filter helps maintain water quality and machine performance.

4. Troubleshooting

Here are some common issues and their solutions:

- **Coffee not brewing:** Ensure the water tank is filled and correctly inserted. Check if the bean hopper is properly locked in place.
- **Ground coffee getting stuck:** Use only one level scoop of pre-ground coffee. If stuck, gently push it down with the scoop handle. Ensure the pre-ground coffee funnel is clean and free of blockages.
- **Machine not turning on:** Check if the power cord is securely plugged into a working outlet.
- **Poor coffee taste:** Ensure you are using fresh, high-quality coffee beans. Adjust grind settings and intensity to suit your preference. Perform a descaling cycle if prompted.

5. Specifications

Feature	Detail
Brand	De'Longhi
Model Name	Rivelia Automatic Espresso Machine

Item Model Number	EXAM44055W
Color	White
Product Dimensions	17"D x 9.75"W x 14.75"H
