Asingleer Portable Washing Machine

Folding Washing Machine User Manual

Model: Portable Washing Machine

Introduction

This manual provides comprehensive instructions for the safe and efficient operation, maintenance, and troubleshooting of your Asingleer Folding Washing Machine. Please read this manual thoroughly before using the appliance and retain it for future reference.
The Asingleer Folding Washing Machine is designed for washing small loads of laundry, such as baby clothes, underwear, and socks. Its portable and foldable design makes it suitable for use in apartments, dormitories, hotels, and during travel or camping.

Safety Information

To ensure safe operation, please observe the following precautions:

- Always disconnect the power adapter before cleaning, performing maintenance, or when the machine is not in use.
- Do not immerse the main unit in water or other liquids.
- Keep out of reach of children. This appliance is not intended for use by persons with reduced physical, sensory, or mental capabilities unless supervised.
- Use only the provided power adapter.
- Do not overload the washing machine. Refer to the capacity guidelines in the operating instructions.
- Ensure the drainage pipe is properly positioned for drainage to prevent water overflow.
- Wash underwear, socks, and baby clothes separately for hygiene purposes.
- The dehydration function is designed for short cycles (e.g., 3 minutes). Longer cycles may affect the stability of the basket. Note that the dehydration function does not completely dry clothes.
- Avoid placing the machine on unstable or uneven surfaces.

Setup

1. **Unpack:** Carefully remove all components from the packaging.
2. **Unfold:** Place the washing machine on a flat, stable surface. Gently press down on the top edge to expand the foldable body until it locks into its full height.
3. **Connect Power:** Insert the power adapter into the designated port on the washing machine and then plug it into a suitable power outlet.
4. **Position Drainage Pipe:** For washing, ensure the drainage pipe is hung up to prevent water from draining prematurely. For draining, place the pipe into a sink or bucket.

Operating Instructions

Washing Procedure:

1. **Add Water:** Fill the washing machine with an appropriate amount of water. Do not exceed the maximum fill line.
2. **Add Detergent:** Add a small amount of liquid detergent suitable for delicate items.
3. **Load Laundry:** Place the items to be washed into the machine. Ensure the load does not exceed the 11L capacity (e.g., 4-5 pieces of intimate clothing). Do not overload.
4. **Select Mode:** Press the power button to turn on the machine. Then, select your desired cleaning mode by pressing the mode selection button:
    - **Standard Cleaning:** 5 minutes cycle.
    - **Deep Cleaning:** 10 minutes cycle.
    - **Quick Cleaning/Drainage:** 3 minutes cycle.
5. **Start Washing:** Long press the start/stop button for 2 seconds to begin the selected cycle.
6. **Draining:** Once the washing cycle is complete, place the drainage pipe down to allow water to automatically drain.
7. **Dehydration (Optional):** For partial dehydration, insert the bottom basket and expansion basket. Select the 3-minute quick cleaning/drainage mode. Note that this function does not fully dry clothes.

Maintenance

Cleaning the Machine:

- After each use, drain all water from the machine.
- Wipe the interior and exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Ensure the machine is completely dry before folding and storing.

Storage:

- To fold, gently push down on the top rim of the machine until it collapses.
- Store in a cool, dry place away from direct sunlight and extreme temperatures.

Troubleshooting

Problem	Possible Cause	Solution
Machine does not turn on.	Power adapter not connected properly; Power outlet issue.	Ensure power adapter is securely plugged in. Try a different power outlet.
Washing cycle does not start or stops unexpectedly.	Start/stop button not pressed correctly (long press required); Overload.	Ensure you long press the start/stop button for 2 seconds. Reduce the laundry load.
Water does not drain.	Drainage pipe not positioned correctly; Drainage hole blocked.	Ensure the drainage pipe is placed down into a sink or bucket. Check for any obstructions in the drainage hole.
Machine is noisy or vibrates excessively.	Uneven surface; Overload; Unbalanced load.	Place the machine on a flat, stable surface. Reduce laundry load. Redistribute clothes evenly inside the machine.
Dehydration basket falls off or doesn't spin effectively.	Overload; Incorrect cycle selected for dehydration.	Do not overload the dehydration basket. Use only the 3-minute quick cleaning/drainage mode for dehydration. Ensure the basket is properly seated.
