ANGENIL MiniC

ANGENIL Ultra Mini Hair Straightener Flat Iron (Model MiniC) Instruction Manual

Model: MiniC | Brand: ANGENIL

INTRODUCTION

Thank you for choosing the ANGENIL Ultra Mini Hair Straightener Flat Iron. This compact and versatile styling tool is designed for precise styling of short hair, bangs, edges, and men's facial hair. Featuring advanced heating technology and a dual voltage design, it is ideal for both daily use and travel.

IMPORTANT SAFETY INFORMATION

Please read all safety instructions before using this appliance. Failure to follow these instructions may result in electric shock, fire, or injury.

- **Burn Hazard:** Surfaces become extremely hot during use. Avoid direct contact with skin.
- **Electric Shock Risk:** Keep away from water. Do not use near bathtubs, sinks, or other water sources.
- **Fire Risk:** Unplug the appliance when not in use. Do not leave unattended when plugged in.
- Keep out of reach of children.

PRODUCT OVERVIEW

The ANGENIL Ultra Mini Hair Straightener Flat Iron is a compact and efficient 2-in-1 styling tool. Its ultra-thin 0.7-inch floating titanium plates are designed for precise styling, while the ceramic heating elements ensure even heat distribution and reduced frizz.

Ultra Mini Size

Small hair straightener

6.42 inch / 163.0 mm

7.5 inch / 190.0 mm

Image: The ANGENIL Ultra Mini Hair Straightener held in a hand, illustrating its compact size and portability. A smartphone is shown next to it for scale, highlighting the straightener's small form factor.

SETUP

1. **Unpack:** Carefully remove the hair straightener and all accessories from the packaging.
2. **Inspect:** Check the appliance for any visible damage. Do not use if damaged.
3. **Power Connection:** Plug the appliance into a suitable electrical outlet. The dual voltage feature (110V-240V) allows for worldwide use.
4. **Safety Lock:** Ensure the safety lock is disengaged before use. The safety lock keeps the plates closed for compact storage.

Safety Lock Design

Saves space and is easy to carry

OPERATING INSTRUCTIONS

- Power On:** Press and hold the power button located on the inside of the straightener until the indicator light illuminates.
- Select Temperature:** Cycle through the three temperature settings (280°F, 320°F, 380°F) by pressing the power button. Choose the appropriate temperature for your hair type. The appliance heats up within 20 seconds.
- Straightening:**
 - Ensure hair is dry and detangled.
 - Take a small section of hair and place it between the heating plates, close to the roots.
 - Gently clamp the plates and glide the straightener slowly down the hair section to the ends.
 - Repeat until desired straightness is achieved.
- Curling:**
 - Take a small section of hair.

- Clamp the hair section between the plates near the roots.
 - Rotate the straightener 180 degrees and slowly pull it down through the hair section, maintaining the rotation.
 - Release the hair to reveal a curl.
5. **Power Off:** Press and hold the power button until the indicator light turns off. The appliance features an automatic 60-minute power-off function for safety.

Multiple Temp Settings

Provides precise temperature control for all hair types

Precise temperature control

The image shows a close-up of the ANGENIL Ultra Mini Hair Straightener's internal controls. The device is black with a red accent. A rotary dial is visible, with temperature settings of 280°F, 320°F, and 380°F. Below the dial is an ON/OFF button. A yellow circular sticker with 'QC PASSED' is also visible. The background is a light pink color with vertical lines.

MAINTENANCE

- **Cleaning:** Ensure the appliance is unplugged and completely cool before cleaning. Wipe the plates and exterior with a soft, damp cloth. Do not use abrasive cleaners or immerse in water.
- **Storage:** Engage the safety lock to keep the plates closed. Store the appliance in its provided travel heat bag in a cool, dry place, away from moisture.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Appliance does not turn on.	Not properly plugged in or power outlet issue.	Ensure the power cord is securely plugged into a working outlet. Check the outlet with another appliance.
Appliance not heating up.	Incorrect temperature setting or internal malfunction.	Verify the temperature setting is selected. If the issue persists, contact customer support.
Hair is not straightening/curling effectively.	Hair section too large, incorrect temperature, or plates not clean.	Use smaller hair sections. Increase temperature if hair type requires it. Clean plates if residue is present.
