

HSANHE YC534

HSANHE City Fire Rescue Building Set Instruction Manual

Model: YC534

INTRODUCTION

This instruction manual provides detailed guidance for assembling and enjoying your HSANHE City Fire Rescue Building Set. Designed for ages 6 and up, this 1823-piece set offers an immersive building experience, culminating in a detailed 3-story fire station with a convertible ladder truck. Please read all instructions carefully before beginning assembly.

SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small Parts. Not for children under 3 years.

Always supervise young children during assembly and play. Keep small parts away from infants and toddlers to prevent accidental ingestion.

WHAT'S IN THE BOX

Your HSANHE City Fire Rescue Building Set includes:

- 1823 Building Pieces (sorted into numbered bags)
- 1 Instruction Manual (this document)

Please verify all components are present before starting. If any parts are missing or damaged, please contact customer support.

SETUP AND ASSEMBLY

The assembly process is divided into grouped stages for clarity and ease of construction. It is recommended to work on a clean, flat surface with good lighting.

1. **Unpack and Organize:** Carefully open the box and sort the building pieces. The pieces are typically grouped into numbered bags corresponding to different assembly stages. Do not open all bags at once to avoid mixing parts.
2. **Review Instructions:** Familiarize yourself with the instruction manual. Each step is visually guided to ensure a

smooth building experience.

3. **Follow Step-by-Step:** Begin with Bag 1 and follow the instructions sequentially. The manual will guide you through building the base, then the subsequent floors, and finally the details and the fire truck.

Image: Visual guide illustrating the four main assembly steps of the fire station, from the ground floor to the completed three-story structure with the roof.

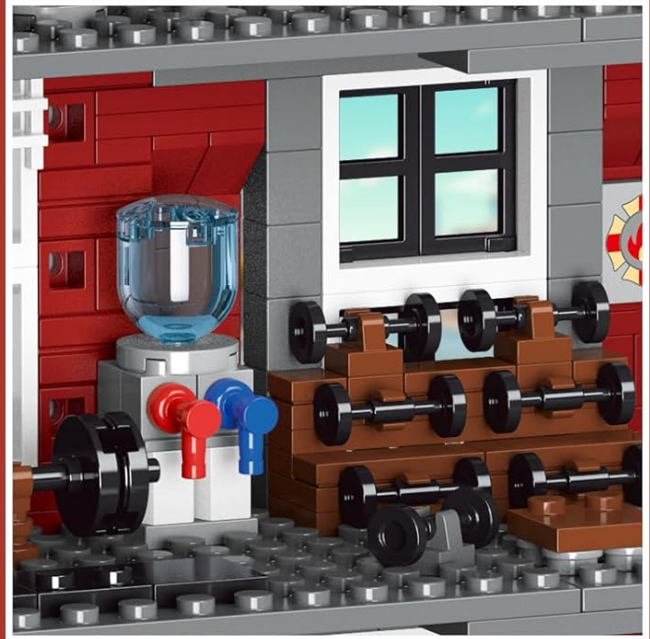

Image: Close-up views of various interior details within the fire station, including a water dispenser, a weight rack, a computer workstation, and a reception area, highlighting the intricate design.

OPERATING AND PLAY FEATURES

Once assembled, the City Fire Rescue Building Set offers numerous interactive features for imaginative play:

- **Convertible Ladder Truck:** The included fire truck features a movable ladder, allowing for dynamic rescue scenarios.
- **360° Descent Pole:** Firefighters can quickly descend from upper floors using the integrated pole.
- **Multi-Position Garage Doors:** The garage bays feature doors that can be opened and closed, allowing the fire truck to enter and exit.
- **Detailed Interior:** Explore the command hub, crew zones, and other detailed areas within the 3-story structure.
- **Functional Pulley Systems and Rotating Gears:** Discover basic physics concepts through interactive elements.

Image: A young boy and an adult (likely a parent) happily engaging with the assembled fire station building set, demonstrating the product's scale and its appeal for collaborative play.

MAINTENANCE AND CARE

To ensure the longevity of your building set, follow these simple care instructions:

- **Cleaning:** Wipe the building blocks with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, but ensure all parts are thoroughly dried afterward. Do not submerge in water.
- **Storage:** Store the assembled set or individual pieces in a cool, dry place away from direct sunlight to prevent discoloration or warping.
- **Handling:** Handle the assembled model with care, especially when moving it, to prevent pieces from detaching.

TROUBLESHOOTING

If you encounter any issues during assembly or play, refer to the following common solutions:

Problem	Possible Cause	Solution
Missing Piece(s)	Pieces may be stuck together, overlooked, or genuinely missing from the package.	Double-check all packaging and sorting trays. If still missing, contact customer support with the part number (if available) and bag number.
Pieces Don't Fit Together	Incorrect piece used, or piece is oriented incorrectly.	Refer to the instruction manual's visual guides carefully. Ensure you are using the correct piece for the step. Apply gentle, even pressure.
Structure is Unstable	One or more connections are not fully secured, or a step was missed.	Review the previous steps in the manual to ensure all connections are firm and all pieces are correctly placed.

PRODUCT SPECIFICATIONS

- **Model Number:** YC534
- **Brand:** HSANHE
- **Number of Pieces:** 1823
- **Recommended Age:** 6 years and up
- **Product Dimensions:** Approximately 1 x 1 x 1 inches (assembled)
- **Item Weight:** Approximately 3.5 pounds
- **Material:** High-quality ABS Plastic

WARRANTY AND SUPPORT

HSANHE stands behind the quality of its products. While specific warranty details are not provided in this manual, most products come with a standard manufacturer's warranty against defects in materials and workmanship. For missing parts, assembly assistance, or any other inquiries, please contact HSANHE customer support. Refer to the product packaging or the official HSANHE website for the most current contact information.

Online Support: Visit the [HSANHE Store on Amazon](#) for product information and support resources.
