SETUP AND PAIRING WITH APPLE FIND MY

The Hongtop Mini GPS Tracker is compatible exclusively with Apple iOS devices and utilizes the Apple Find My network for tracking. No monthly fees are required.

1. **Activate the Tracker:** Remove the white label from the battery compartment of the tracker. The device will emit a sound, indicating it is activated and ready for pairing.
2. **Open Find My App:** On your Apple iOS device, open the "Find My" application. Ensure Bluetooth is enabled on your device.
3. **Add New Item:** Tap on the "Items" tab at the bottom of the screen, then select "Add Item". Choose "Other Supported Item" from the options.
4. **Complete Pairing:** Follow the on-screen instructions within the Find My app to complete the pairing process. The app will guide you through naming your tracker and assigning it to your Apple ID.

OPERATING INSTRUCTIONS

Once paired, your Hongtop Mini GPS Tracker can be located using the Apple Find My app.

- **Locate Your Item:** Open the "Find My" app on your iOS device. Select the tracker from your list of items to view its current location on a map.
- **Play a Sound:** If the tracker is nearby, you can tap "Play Sound" in the Find My app to make the tracker emit an audible alert, helping you pinpoint its exact location.
- **Directions:** The app can provide directions to your tracker's last known location, utilizing the vast Apple Find My network.
- **Magnetic Attachment:** The included magnetic case allows for secure attachment to any metal surface, such as the underside of a vehicle.

Maintenance

The Hongtop Mini GPS Tracker requires minimal maintenance. The primary maintenance task is battery replacement.

Battery Replacement

Each tracker is powered by a single CR2032 coin cell battery, which typically lasts up to one year. When the battery level is low, you will receive a notification in the Apple Find My app.

1. Carefully open the tracker's casing.
2. Remove the old CR2032 battery.
3. Insert a new CR2032 battery, ensuring correct polarity (+ side up).
4. Close the casing securely. The tracker should emit a sound upon successful battery insertion.

Note: Dispose of used batteries responsibly according to local regulations.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Tracker not appearing in Find My app.	Not paired, low battery, Bluetooth off on iOS device.	Ensure tracker battery is active. Check iOS device Bluetooth. Re-attempt pairing process.
Inaccurate location.	Weak signal, environmental interference, limited Apple device network density in the area.	Move to an open area. Wait for updated location. The accuracy depends on the density of Apple devices nearby.
Sound not playing.	Tracker out of Bluetooth range of your iOS device, low battery.	Ensure tracker is within Bluetooth range (approx. 30-50 feet). Check and replace battery if needed.
Tracker not activating after battery label removal.	Battery not properly seated, faulty battery.	Re-seat the battery. Try a new CR2032 battery.
