## Canon EOS R3

# Canon EOS R3 Digital Camera User Manual

Model: EOS R3 | Brand: Canon

## 1. INTRODUCTION

This user manual provides detailed instructions for the safe and effective operation of your Canon EOS R3 digital camera. Please read this manual thoroughly before using the camera to ensure proper handling and to maximize its capabilities. Keep this manual in a safe place for future reference.

## 2. SAFETY INFORMATION

Observe the following safety precautions to prevent injury to yourself or others and to avoid damage to your camera.

- Do not disassemble or modify the camera.
- Keep the camera away from water and moisture.
- Avoid exposing the camera to extreme temperatures or direct sunlight for extended periods.
- Use only Canon-approved accessories and power sources.
- Keep out of reach of children.

## 3. SETUP

### 3.1 Battery Installation

To install the battery:

1. Open the battery compartment cover located at the bottom of the camera.
2. Insert the battery pack with the electrical contacts facing inward, ensuring it clicks into place.
3. Close the battery compartment cover securely.

### 3.2 Memory Card Insertion

The EOS R3 supports CFexpress Type B cards. To insert a memory card:

1. Open the memory card slot cover on the side of the camera.

2. Insert the CFexpress card with the label facing the front of the camera until it clicks.
3. Close the memory card slot cover.

### 3.3 Initial Settings

Upon first power-on, you will be prompted to set the date, time, and language. Follow the on-screen instructions using the multi-controller and SET button.

## 4. OPERATING THE CAMERA

---

### 4.1 Basic Controls

Familiarize yourself with the main controls:

- **Shutter Button:** Press halfway to focus, fully to take a picture.
- **Mode Dial:** Select shooting modes (e.g., Program AE, Shutter-priority AE, Aperture-priority AE, Manual).
- **Main Dial / Quick Control Dial:** Adjust settings based on the selected mode.

### 4.2 Eye Control AF

The EOS R3 features Eye Control AF, allowing you to select an AF point by looking at it through the viewfinder. To calibrate and use:

1. Go to the camera menu and navigate to the Eye Control AF settings.
2. Perform calibration for your eye. It is recommended to calibrate in various lighting conditions.
3. Once calibrated, look through the viewfinder, and the AF point will shift to where your eye is directed. Press the shutter button halfway to confirm focus.

### 4.3 Autofocus Modes

The EOS R3 offers advanced autofocus capabilities. Key modes include:

- **One-Shot AF:** For stationary subjects. Focus locks once achieved.
- **Servo AF:** For moving subjects. Focus continuously tracks the subject.
- **Automatic AF:** Camera automatically selects One-Shot or Servo AF.
- **Subject Tracking:** Advanced AI-based tracking for humans, animals, and vehicles.

### 4.4 Video Recording (6K RAW)

The EOS R3 supports high-resolution video recording, including 6K RAW. To record video:

1. Set the mode dial to the video recording mode.
2. Access the video recording settings in the menu to select resolution (e.g., 6K RAW), frame rate, and compression options.
3. Press the dedicated video recording button to start and stop recording.

### 4.5 Low Light Photography

The EOS R3 excels in low light conditions. Consider these settings:

- Increase ISO sensitivity (within acceptable noise levels).
- Use a lens with a wide aperture (low f-number).
- Utilize the camera's in-body image stabilization (IBIS) for sharper handheld shots.
- Consider using a tripod for very long exposures.

## 4.6 Menu Navigation and Customization

The camera's menu system allows extensive customization. Use the multi-controller, main dial, and quick control dial to navigate. You can customize buttons, create custom shooting modes, and personalize the My Menu tab for quick access to frequently used settings.

## 5. MAINTENANCE

---

### 5.1 Cleaning the Camera

Regular cleaning helps maintain camera performance and longevity.

- Use a blower brush to remove dust from the lens and camera body.
- For stubborn smudges, use a soft, lint-free cloth specifically designed for optical surfaces.
- Never use organic solvents or strong cleaning agents.
- For sensor cleaning, it is recommended to use the camera's built-in sensor cleaning function or consult a professional service center.

### 5.2 Battery Care

To prolong battery life:

- Charge the battery fully before use.
- Avoid storing batteries in extremely hot or cold environments.
- If not using the camera for an extended period, remove the battery.

### 5.3 Storage

When storing the camera for long periods, ensure it is clean, dry, and stored in a cool, well-ventilated area, preferably with a desiccant to prevent mold and mildew.

## 6. TROUBLESHOOTING

---

This section addresses common issues you might encounter.

Problem	Possible Cause / Solution
Camera does not power on.	Ensure battery is charged and correctly inserted. Check battery contacts for dirt.
Cannot take pictures.	Check if memory card is inserted and has free space. Ensure lens is attached correctly. Verify shooting mode.
Images are blurry.	Check focus mode and AF point selection. Ensure shutter speed is appropriate for subject movement. Use a tripod if necessary.
Video recording stops unexpectedly.	Memory card may be too slow for selected video quality (e.g., 6K RAW). Use a faster CFexpress card.

## 7. SPECIFICATIONS

---

*Note: The following are general specifications for the Canon EOS R3. For a complete list, please refer to the official Canon website or product documentation.*

- **Sensor:** Full-Frame Stacked BSI CMOS
- **Image Processor:** DIGIC X
- **Autofocus:** Dual Pixel CMOS AF II with Eye Control AF
- **Video Recording:** Up to 6K 60p RAW, 4K 120p
- **Image Stabilization:** In-Body Image Stabilizer (IBIS)
- **Viewfinder:** 5.76m-dot OLED EVF
- **Display:** 3.2-inch Vari-Angle Touchscreen LCD
