OLEVS Men's Quartz Watch Instruction Manual

MODEL: YPF-TY--5623-BL

Introduction

This manual provides detailed instructions for the setup, operation, and maintenance of your OLEVS Men's Quartz Watch. Please read thoroughly to ensure proper use and longevity of your timepiece.

Product Overview

Front view of the OLEVS Men's Quartz Watch, featuring a striking blue dial and a comfortable silver mesh strap.

The OLEVS watch worn on a wrist, demonstrating its elegant fit and appearance.

Setup

Setting Time and Date

Illustration of the crown positions for setting the time and date.

1. **Setting the Time:** Pull the crown out to the second click position. Rotate the crown to set the hour and minute hands to the desired time. Push the crown back in to the normal position.
2. **Setting the Date:** Pull the crown out to the first click position. Rotate the crown clockwise or counter-clockwise (depending on model) to set the date. Push the crown back in to the normal position.

Adjusting the Mesh Strap

The watch is equipped with a tool for adjusting the strap. Use the tool to carefully open the clasp and slide it along the mesh band to achieve a comfortable fit. Ensure the clasp is securely re-fastened after adjustment.

Operating Instructions

Luminous Function

HD Luminous

High configuration of preferred materials, high-definition luminescent coating, short absorption, strong luminescence day and night easily grasp the time

The watch dial displaying its luminous properties in a dark environment.

The watch features a luminous function allowing visibility in low-light conditions. Exposure to bright light charges the luminous material on the hands and hour markers, providing temporary illumination.

Maintenance

Water Resistance

30m waterproof

With sealed waterproof ring, easy to deal with the challenge
of water splash, enhanced anti-fog function
(all watches can not be protected from warm water, hot water)

The watch demonstrating its 30m water resistance.

This watch is water-resistant to 30 meters (100 feet). It is suitable for daily splashing and brief immersion in water. It is **not recommended** for swimming, diving, or hot water exposure (e.g., showers, saunas) as steam can penetrate the seals and cause damage.

Cleaning

Wipe the watch case and strap with a soft, dry cloth. For the mesh strap, a slightly damp cloth can be used, ensuring it is dried thoroughly afterward to prevent moisture buildup.

Troubleshooting

If the watch stops working or experiences irregular timekeeping, first ensure the crown is fully pushed in. If issues persist, contact customer support for assistance.
