XYEIUGO Gobricks 55982 Wheel 18 x 14 Building Block Instruction Manual

Model: 55982 (GDS-1158-073)

INTRODUCTION

This manual provides instructions for the XYEIUGO Gobricks 55982 Wheel 18 x 14 building blocks. These blocks are designed to be compatible with Lego building systems, offering versatility for various construction projects. Each pack contains 50 pieces of the wheel component, featuring an axle hole, fake bolts, and shallow spokes, in a Flat Silver color.

This image displays the Gobricks 55982 Wheel, measuring 18 x 14 units, featuring an axle hole for attachment, decorative fake bolts, and shallow spokes. The wheel is shown in a Flat Silver color.

SETUP

1. **Unpacking:** Carefully remove all 50 wheel pieces from the packaging. Inspect each piece for any manufacturing defects or damage.
2. **Component Check:** Verify that all 50 pieces are present and match the 'Flat Silver' color as specified.
3. **Preparation:** Ensure your building surface is clean and flat to prevent loss of small parts and facilitate stable construction.

OPERATING INSTRUCTIONS

1. **Axle Integration:** The central axle hole is designed to fit standard building block axles. Insert an axle firmly into the wheel's central hole until secure.
2. **Attachment to Chassis:** Attach the assembled wheel and axle unit to your building block vehicle chassis or other structures. Ensure the connection is stable for proper function.
3. **Creative Building:** These wheels are ideal for constructing vehicles, robots, or any custom models requiring wheel components. Their design with fake bolts and shallow spokes adds aesthetic detail to your creations.

4. **Compatibility:** These Gobricks wheels are compatible with most major building block brands, including Lego, allowing for seamless integration into existing collections.

MAINTENANCE

- **Cleaning:** To clean the building blocks, gently wipe them with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used, followed by rinsing with clean water and air drying. Avoid harsh chemicals or abrasive materials.
- **Storage:** Store the blocks in a clean, dry container away from direct sunlight and extreme temperatures to prevent material degradation and color fading.
- **Inspection:** Periodically inspect blocks for wear or damage. Replace any broken or severely worn pieces to maintain structural integrity of your models.

TROUBLESHOOTING

Issue: Wheel does not fit axle or chassis.

Solution: Ensure the axle and receiving hole are free of debris. Apply gentle, even pressure. If the issue persists, verify compatibility with your specific axle or chassis components.

Issue: Wheels are not rolling smoothly.

Solution: Check for any obstructions between the wheel and the chassis. Ensure the axle is properly seated and not bent. Clean any dust or debris from the axle and wheel interior.

Issue: Missing pieces.

Solution: If pieces are missing from a new pack, contact the seller or manufacturer for assistance. Always store blocks securely to prevent loss.

SPECIFICATIONS

Block Size	Small building block (Compatible with Lego)
Model Number	55982 (GDS-1158-073)
Wheel Dimensions	18 x 14 units
Features	Axle Hole, Fake Bolts, Shallow Spokes
Quantity	50 Pieces per pack
Material	Plastic
Color	Flat Silver
Item Weight	2.56 ounces
Brand	XYEIUGO
Manufacturer	XYEIUGO
