3.2 Pairing with Find My App

Follow these steps to pair your tracker with your Apple device:

1. **Activate the Tracker:** Press the power button on the tracker once. You will hear a "beep" alarm, indicating it has entered pairing mode.
2. **Enable Find My and Bluetooth:** On your Apple device, ensure that the "Find My" app is enabled and Bluetooth is turned on.
3. **Add New Item:** Open the "Find My" app. Navigate to the "Items" tab. Tap on "Add New Item," then select "Other Supported Item."
4. **Connect and Name:** Your device will detect the "Wireless tag." Tap "Connect" and follow the on-screen prompts to name your tracker (e.g., "Fido's Tracker," "Travel Bag").

3.3 Attaching the Tracker to a Collar/Item

The tracker comes with a durable silicone holder designed to fit various collars and straps.

1. **Insert Tracker:** Gently push the Ztobny Smart Pet Tracker into the protective silicone case.

2. **Install Waterproof Lid:** Securely install the waterproof lid onto the tracker within the case.
3. **Slide onto Collar:** Slide the assembled tracker and holder onto your pet's collar, backpack strap, or other desired item. The holder is designed to fit collars or items up to 1.2 inches in width.

4.2 Playing a Sound

If your tracker is nearby, you can play a sound to help locate it:

- In the "Find My" app, select your tracker from the "Items" tab.
- Tap the "Play Sound" option. The tracker will emit a sound, guiding you to its exact location.

5. MAINTENANCE AND CARE

5.1 Cleaning

The silicone holder is easy to clean. Wipe it with a damp cloth and mild soap if necessary. Ensure the tracker itself is dry before reinserting it into the holder.

5.2 Waterproofing

The Ztobny Smart Pet Tracker, when properly enclosed in its holder, boasts an IP68 waterproof rating. This means it is protected against dust and can withstand immersion in water up to 1.5 meters for up to 30 minutes. It is suitable for use in rain or during pet activities near water.

Important Note: While the holder provides IP68 protection, avoid intentionally immersing the tracker in water for extended periods or at depths beyond its rating. Ensure the waterproof lid is securely installed at all times.

6. TROUBLESHOOTING

If you encounter issues with your Ztobny Smart Pet Tracker, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Tracker not pairing.	Bluetooth is off; Find My is not enabled; Tracker not in pairing mode; Device iOS version is too old.	Ensure Bluetooth is on and Find My is enabled. Press the tracker button to enter pairing mode (listen for "beep"). Update your iOS device to version 14.5 or higher.
Inaccurate or delayed location updates.	Limited Find My network coverage; Tracker is out of range of Apple devices; Obstructions.	The Find My network relies on nearby Apple devices. Location updates may be less frequent in remote areas. Ensure the tracker is not heavily obstructed.
Tracker not responding.	Low battery; Tracker is off.	Check battery status (if applicable, or assume long life). Press the button to activate. If issues persist, contact customer support.
Sound not playing.	Tracker is out of Bluetooth range of your device.	Move closer to the tracker. The "Play Sound" feature works when the tracker is within Bluetooth range of your Apple device.
