Adorbee Indoor Security Camera Q1

Adorbee Indoor Security Camera User Manual

Model: Indoor Security Camera Q1

1. INTRODUCTION

Thank you for choosing the Adorbee Indoor Security Camera. This manual provides detailed instructions for setting up, operating, and maintaining your camera to ensure optimal performance and security for your home, pets, or baby monitoring needs. Please read this manual thoroughly before use and keep it for future reference.

2. PACKAGE CONTENTS

Before you begin, please verify that all items are present in your package:

- 1 x Adorbee Indoor Security Camera
- 1 x USB Cable
- 1 x USB Adapter
- 1 x Mounting Bracket
- 1 x Screw Pack
- 1 x User Manual (this document)

3. SETUP GUIDE

3.1. Physical Installation

The Adorbee camera offers versatile mounting options. Choose a location that provides the best viewing angle for the area you wish to monitor.

1. **Tabletop Placement:** Place the camera on a flat, stable surface such as a table, shelf, or desk.
2. **Wall/Ceiling Mount:** Use the included mounting bracket and screw pack to securely attach the camera to a wall or ceiling. Ensure the camera is positioned to cover the desired area.

Connect the USB cable to the camera's power port and plug the USB adapter into a standard electrical outlet. The camera will power on and indicate readiness for setup.

3.2. App Installation and Account Creation

To control and view your camera, you need to download the dedicated Adorbee app on your smartphone.

1. **Download the App:** Search for "Adorbee" in your smartphone's app store (iOS App Store or Google Play Store) and download the official application.
2. **Register an Account:** Open the Adorbee app and follow the on-screen instructions to register a new account. If you already have an account, simply log in.
3. **Add Device:** In the app, tap the "+" icon or "Add Device" to begin pairing your camera.

3.3. Network Connection (Wi-Fi Pairing)

The Adorbee camera supports both 2.4GHz and 5GHz Wi-Fi networks for stable connectivity.

1. **Select Network Type:** In the Adorbee app, select your preferred Wi-Fi network (2.4GHz or 5GHz). Ensure your phone is connected to the same network.
2. **Enter Wi-Fi Password:** Input your Wi-Fi network password into the app.
3. **Scan QR Code:** Hold your smartphone screen in front of the camera lens (approximately 4-8 inches away) until you hear a confirmation sound from the camera.
4. **Connection Confirmation:** Once connected, the camera's indicator light will change, and the app will confirm successful pairing. You can now access the live feed.

Dual-Band WiFi

More Stable Signal, Smoother Live View

Figure 3.3.1: The Adorbee camera highlighting its Dual-Band WiFi capability, supporting both 2.4GHz and 5GHz frequencies for a more stable and smoother live view experience.

4. OPERATING INSTRUCTIONS

4.1. Live View and Pan/Tilt Control

Access the live video feed from your camera through the Adorbee app.

- **2K HD Resolution:** The camera provides a clear 2K resolution live stream.
- **Pan/Tilt Functionality:** Use the directional controls within the app to remotely pan the camera horizontally up to 360° and tilt vertically up to 100°, allowing you to monitor every corner of your room.
- **Digital Zoom:** The app supports 4X digital zoom for closer inspection of details.

360° All-Round Pan/Tilt

slide screen to change monitoring direction

Figure 4.1.1: The Adorbee camera demonstrating its 360° horizontal pan and 100° vertical tilt capabilities, controlled via the smartphone app, allowing comprehensive room coverage.

2K HD Indoor Camera

Capture High-quality Image

Figure 4.1.2: An image comparing 1080p and 2K HD video quality, illustrating the superior clarity and detail captured by the Adorbee 2K HD Indoor Camera.

4.2. Two-Way Audio

The camera is equipped with a built-in microphone and speaker, enabling two-way communication.

- **Speak:** Tap the microphone icon in the app to speak through the camera's speaker.
- **Listen:** The camera's microphone captures audio from its surroundings, which you can hear through your phone.

Smooth 2-Way Audio

Talk to your child anytime, anywhere

Figure 4.2.1: An illustration of the camera's smooth 2-way audio feature, showing a child and a dog, and speech bubbles indicating communication between the user and those near the camera.

4.3. Motion Detection and Alerts

The camera features an intelligent motion sensor to keep you informed of activity.

- **Instant Alerts:** When motion is detected, the camera will send instant push notifications to your smartphone.
- **24/7 Recording:** The camera supports continuous recording, ensuring no important moments are missed.
- **Customization:** Adjust motion detection sensitivity and alert schedules within the app settings.

Motion Detection

Will sent your notification when it detects motion.

Figure 4.3.1: The Adorbee camera actively detecting motion from a dog, with a smartphone displaying an instant notification indicating "Motion Detected," demonstrating its security alert feature.

4.4. Night Vision

The camera is equipped with advanced infrared night vision for clear monitoring in low-light or complete darkness.

- **Infrared LEDs:** Automatically activate in low light conditions.
- **Range:** Provides clear visibility up to 33 feet (10 meters) in darkness.

Infrared Night Vision

Keep your baby safe

Figure 4.4.1: The Adorbee camera's infrared night vision in action, displaying a clear black-and-white image of a sleeping child on a smartphone screen, ensuring monitoring even in complete darkness.

4.5. Storage Options

Your Adorbee camera offers flexible storage solutions for recorded video footage.

- **Cloud Storage:** A 7-day trial of cloud storage is provided. Cloud storage offers secure, encrypted backup of your recordings accessible from anywhere.
- **SD Card Storage:** The camera supports local storage via a microSD card (not included) up to 256GB. Insert the SD card into the designated slot on the camera.

Versatile Use

Figure 4.5.1: An overview of the Adorbee camera's storage capabilities, illustrating both Cloud Storage (with a 7-day trial) and Micro SD Card storage (up to 256GB, not included), providing flexible options for video recording and access.

4.6. Multiple User Sharing

Share access to your camera's live feed and recordings with family and friends.

- **Family Accounts:** Create multiple family accounts within the app.
- **Simultaneous Viewing:** Multiple authorized users can view the camera feed simultaneously.

Share to More Family Members

Figure 4.6.1: An image depicting the Adorbee camera's multi-user sharing feature, showing a central camera icon surrounded by various family members using their smartphones to view the camera feed, emphasizing shared access.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the camera lens and body. Avoid abrasive cleaners or solvents.
- **Software Updates:** Regularly check the Adorbee app for firmware updates. Keeping your camera's software up-to-date ensures optimal performance and security.
- **Storage Management:** If using an SD card, periodically review and manage stored footage to prevent the card from becoming full. For cloud storage, monitor your subscription status.

6. TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|--------------------------------------|---|--|
| Camera fails to connect to Wi-Fi. | Incorrect Wi-Fi password, camera too far from router, incorrect Wi-Fi band selected (2.4GHz vs 5GHz). | <ul style="list-style-type: none"> • Verify Wi-Fi password. • Ensure camera is within Wi-Fi range. • Confirm you are connecting to the correct 2.4GHz or 5GHz network. • Restart your router and camera. |
| App freezes or is inaccessible. | App bug, unstable internet connection, outdated app version. | <ul style="list-style-type: none"> • Close and reopen the app. • Check your internet connection. • Update the Adorbee app to the latest version. • Reinstall the app if the issue persists. |
| Poor video quality or blurry images. | Dirty lens, insufficient lighting, network bandwidth issues. | <ul style="list-style-type: none"> • Clean the camera lens with a soft cloth. • Ensure adequate lighting in the monitored area (for daytime). • Check your internet speed and network stability. |
| Night vision is not clear. | Infrared interference, camera too far from subject. | <ul style="list-style-type: none"> • Ensure there are no reflective surfaces close to the camera that might interfere with infrared light. • Verify the subject is within the 33-foot night vision range. |
