SETUP AND INSTALLATION

Professional installation is recommended for this car stereo. Ensure the vehicle's power is disconnected before beginning installation.

Dimensions and Fit

The unit is a standard 7-inch double din size. Installation dimensions are approximately 180mm (L) x 103mm (H) / 7.0 inches (L) x 4.0 inches (H). Please verify your vehicle's dashboard opening before installation.

Wiring Connections

Connect the power cable, horn cable, and other necessary audio/video cables (RCA, 3.5mm Jack, ISO) to the corresponding ports on the back of the unit and your vehicle's wiring harness. Refer to the wiring diagram provided in the separate wiring guide (if applicable) or consult a professional installer.

Mounting

Use the provided disassembly tools and mounting brackets to secure the unit into your vehicle's double din slot.

OPERATING INSTRUCTIONS

Basic Operation

- **Power On/Off:** Press the power button (usually a rotary knob or dedicated button) to turn the unit on or off.
- **Volume Control:** Rotate the volume knob or use the volume buttons to adjust the audio level.
- **Menu Navigation:** Use the touchscreen or physical buttons to navigate through menus and select functions.

Bluetooth Hands-Free Calls and Music Streaming

Pair your smartphone with the car stereo via Bluetooth for hands-free calling and wireless music streaming.

1. Enable Bluetooth on your smartphone.
2. On the car stereo, navigate to the Bluetooth menu.
3. Search for available devices on your phone and select "SIXTOP Car Stereo" (or similar name).
4. Confirm pairing on both devices.
5. Once paired, you can make/receive calls and stream audio from your phone.

MAINTENANCE

To ensure the longevity and optimal performance of your car stereo, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. For stubborn marks, slightly dampen the cloth with water. Avoid harsh chemicals or abrasive cleaners.
- **Temperature:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or high humidity.
- **Connections:** Periodically check all wiring connections to ensure they are secure.

TROUBLESHOOTING

If you encounter issues with your car stereo, refer to the following common problems and solutions:

- **No Power:**
Check power cable connections. Ensure the vehicle's ignition is on. Check vehicle fuses.

- **No Sound:**
Verify speaker connections. Check volume level and mute settings. Ensure the correct audio source is selected.
- **Bluetooth Not Connecting:**
Ensure Bluetooth is enabled on both devices. Delete previous pairings and try pairing again. Restart both the stereo and your phone.
- **Mirror Link Not Working:**
Ensure you are using an original USB data cable. Check for any required app installations on your phone. Verify phone settings allow USB debugging or file transfer.
- **Poor Radio Reception:**
Check antenna connection. Ensure the antenna is fully extended (if applicable). Try scanning for stations again.

If the problem persists after trying these solutions, please contact customer support.
