DAREU LM109G

DAREU LM109G Ergonomic Vertical Wireless Mouse User Manual

1. PRODUCT OVERVIEW

The DAREU LM109G is an ergonomic vertical wireless mouse designed to reduce wrist strain and provide a comfortable user experience. It features a 60-degree vertical angle, 2.4GHz wireless connectivity, three adjustable DPI levels, and six programmable buttons.

Image: The DAREU LM109G mouse, highlighting its ergonomic vertical design.

The unique 60-degree vertical angle positions your hand in a natural handshake posture, which helps to alleviate pressure on the wrist and forearm, reducing the risk of repetitive strain injuries.

2. PRODUCT DIAGRAM

Familiarize yourself with the buttons and components of your DAREU LM109G mouse.

Image: Labeled diagram of the DAREU LM109G mouse.

- **Left Button:** Standard left-click function.
- **Right Button:** Standard right-click function.
- **Scroll Wheel:** For scrolling and middle-click.
- **Forward Button:** Navigates forward in web browsers or folders.

- **Backward Button:** Navigates backward in web browsers or folders.
- **DPI Button:** Adjusts the mouse sensitivity (DPI).
- **Power Switch:** Turns the mouse On or Off.
- **USB Dongle Slot:** Storage for the 2.4GHz USB-A receiver.
- **1*AA Battery Slot:** Compartment for one AA battery.

3. SETUP

3.1 Battery Installation

1. Open the battery compartment cover located on the underside of the mouse.
2. Insert one AA battery (not included) into the battery slot, ensuring correct polarity.
3. Close the battery compartment cover securely.

Image: Installing the AA battery into the mouse.

3.2 Wireless Connection

1. Locate the USB-A receiver stored in the slot on the underside of the mouse.
2. Plug the USB-A receiver into an available USB port on your computer (laptop or desktop PC).
3. Turn on the mouse using the Power Switch located on the underside. The mouse is plug-and-play and requires no driver installation.

60° Ergonomics Unique Vertical Angle

Vertical mouse help reduce wrist pain

4. OPERATING INSTRUCTIONS

4.1 DPI Adjustment

Press the **DPI button** (located near the scroll wheel) to cycle through the three adjustable DPI levels. This allows you to customize the mouse sensitivity to your preference for different tasks.

Image: Adjusting DPI settings on the mouse.

4.2 Navigation Buttons

Use the **Forward** and **Backward** buttons (located on the side of the mouse) for quick navigation in web browsers, file explorers, and other applications.

Image: Highlighting the forward and backward navigation buttons.

4.3 Power Saving Mode

The mouse automatically enters a power-saving mode after approximately 8 minutes of inactivity to conserve battery life. To reactivate the mouse, simply move it or click any button.

4.4 Hand Size Measurement

For optimal ergonomic comfort, ensure the mouse size is suitable for your hand. Refer to the following guide:

Image: Guide for measuring hand length and palm width.

Image: Recommended mouse sizes based on hand measurements.

5. MAINTENANCE

- **Battery Replacement:** When the battery is low, the LED light on the mouse will blink. Replace the AA battery with a new one, ensuring correct polarity. We recommend using branded batteries for optimal performance and longevity.

- **Cleaning:** Use a soft, dry cloth to clean the surface of the mouse. Avoid using harsh chemicals or abrasive materials.

6. TROUBLESHOOTING

- **Mouse not responding:**
 - Ensure the mouse is turned ON using the power switch.
 - Check if the AA battery is correctly installed and has sufficient charge. Replace if necessary.
 - Verify that the USB-A receiver is securely plugged into a working USB port on your computer.
 - Try plugging the USB-A receiver into a different USB port.
- **Cursor movement is erratic or slow:**
 - Adjust the DPI settings using the DPI button to find a suitable sensitivity.
 - Ensure the mouse is used on a clean, non-reflective surface.
- **Wireless connection issues:**
 - Ensure the mouse is within the operating range (up to 32 feet / 10 meters) of the USB-A receiver.
 - Avoid using the mouse near strong electromagnetic interference sources.

7. SPECIFICATIONS

Feature	Detail
Brand	DAREU
Model Name	LM109G
Connectivity Technology	2.4GHz Wireless (USB-A Receiver)
Movement Detection Technology	Optical
DPI Levels	3 Adjustable Levels
Number of Buttons	6 (Left, Right, Scroll Wheel, Forward, Backward, DPI)
Hand Orientation	Right
Compatible Devices	Personal Computer
Operating System	macOS, Windows, Linux, Chrome OS
Wireless Range	Up to 32 feet (10 meters)
Power Source	Battery Powered (1 AA battery required, not included)
Material	Plastic

The DAREU LM109G is universally compatible with various operating systems.
