6. MAINTENANCE

6.1 Screen Care

The device's screen cover is made of a soft plastic material. To prevent scratches, it is highly recommended to apply a screen protector immediately after purchase. Avoid placing the device in direct contact with sharp objects or abrasive materials.

6.2 General Cleaning

Use a soft, dry, lint-free cloth to clean the device. Do not use liquid cleaners or aerosols, as they may damage the device.

6.3 Battery Care

To prolong battery life, avoid fully discharging the device frequently. Charge the device regularly, even if not in use for extended periods. Store the device in a cool, dry place.

7. TROUBLESHOOTING

7.1 Device Not Powering On

Ensure the device is fully charged. Connect it to a power source and allow it to charge for at least 30 minutes before attempting to power it on again.

7.2 Files Not Appearing on Device

Verify that files have been transferred to the correct folders (Music, Videos, Audiobook). Ensure the file formats are supported by the device. If issues persist, try re-transferring the files or restarting the device.

7.3 Bluetooth Pairing Issues

Ensure the Bluetooth feature is enabled on both the MP3 player and the target device. Place devices within close proximity during pairing. If pairing fails, try restarting both devices and attempting to pair again.

7.4 Screen Damage or Detachment

Due to the soft plastic screen cover, physical impact or prolonged stress may cause scratches or potential detachment of the screen. Handle the device with care and consider using a protective case.
