TG BLOCKS 30004

TG BLOCKS 4 Pack Monster Truck Micro Brick Building Blocks Set

Model: 30004

Brand: TG BLOCKS

Introduction

This instruction manual provides detailed guidance for assembling, operating, and maintaining your TG BLOCKS 4 Pack Monster Truck Micro Brick Building Blocks Set. This set includes components to construct four unique monster trucks with pull-back action. Please read all instructions carefully before beginning assembly.

Safety Information

WARNING: CHOKING HAZARD - Small Parts. Not for children under 3 years. Recommended for ages 8 years and up.

Always supervise children during assembly and play. Ensure all small parts are kept away from young children to prevent accidental ingestion.

Setup and Assembly

The TG BLOCKS Monster Truck set is designed for DIY building. Each box contains multiple bags of building blocks and a single instruction booklet. To ensure a smooth assembly process, follow these steps:

1. **Unpack Components:** Carefully open the product box. You will find several smaller bags containing the building blocks and one instruction manual.

2. **Identify Parts for Each Truck:** The pieces for each individual monster truck are typically grouped into bags with corresponding numbers or by predominant color. It is crucial to **NOT** open all bags and mix the pieces together. Identify the bags belonging to one truck before starting its assembly. For example, if two bags are numbered '1', these contain pieces for the same truck.
3. **Follow Instructions:** Refer to the included instruction booklet for step-by-step visual guides for each monster truck. The instructions will detail the placement of each micro brick.
4. **Secure Connections:** The micro bricks are designed to fit tightly. Apply firm, even pressure to ensure each piece is securely connected. This helps maintain the structural integrity of the assembled truck during play.

Operating Instructions

Once assembled, your TG BLOCKS Monster Trucks feature a pull-back action mechanism for dynamic play.

1. **Place on a Flat Surface:** Position the assembled monster truck on a smooth, flat surface.
2. **Pull Back:** Gently pull the monster truck backward along the surface. You will feel resistance as the internal mechanism winds up.
3. **Release:** Release the truck to watch it propel forward. The further you pull it back, the faster and further it will travel.

Maintenance

Proper care will ensure the longevity of your TG BLOCKS Monster Truck set.

- **Cleaning:** To clean the blocks, wipe them gently with a dry or slightly damp cloth. Avoid using harsh chemicals or abrasive cleaners. Do not submerge the trucks in water, especially the pull-back mechanism.
- **Storage:** Store the building blocks and assembled trucks in a cool, dry place away from direct sunlight and extreme temperatures. Keeping them in their original packaging or a dedicated storage container can help prevent loss of small parts.
- **Handling:** While durable, avoid excessive force or dropping the assembled trucks to prevent pieces from detaching or breaking.

Troubleshooting

If you encounter any issues during assembly or play, consider the following:

- **Missing Pieces:** Double-check all packaging and the play area. Sometimes small pieces can be overlooked. If a piece is genuinely missing, refer to the manufacturer's support information. Note that some sets may include a few extra small pieces.
- **Difficulty Connecting Pieces:** Ensure the pieces are correctly oriented according to the instructions. Apply firm, steady pressure. The micro bricks are designed for a snug fit.
- **Truck Not Moving with Pull-Back Action:** Verify that the pull-back mechanism is correctly installed and not obstructed by other blocks. Ensure the wheels can rotate freely.
- **Assembled Truck Falls Apart:** This usually indicates that some pieces are not fully pressed together. Re-examine the connections, especially at critical joints, and ensure all bricks are securely interlocked.

Specifications

Feature	Detail
Product Dimensions (each truck, approximate)	2.75 x 1.85 x 2 inches
Item Weight (total package)	10.2 ounces
Model Number	30004
Manufacturer Recommended Age	8 years and up
Number of Trucks	4
Special Features	Pull-back action mechanism
