4. Setup

4.1 Battery Installation

1. Ensure the device is powered off.
2. Locate the battery compartment cover on the back of the walkie talkie.
3. Slide or unlatch the cover to open it.
4. Insert the 6000mAh Lithium Battery, aligning the contacts correctly.
5. Close the battery compartment cover securely.

4.2 SIM Card Installation

The OMIZN M5 comes with a built-in IoT SIM card for lifetime free data. No physical SIM card installation is typically required for

initial use. If you need to use a different SIM card or encounter issues, please contact support.

4.3 Antenna Attachment

1. Locate the antenna port on the top of the walkie talkie.
2. Screw the provided antenna clockwise into the port until it is finger-tight. Do not overtighten.

4.4 Charging the Battery

Before first use, fully charge the battery.

1. Connect the Type-C charging cable to the charging port on the device.
2. Plug the other end of the cable into the charger plug, then into a standard electrical outlet.
3. The charging indicator will show the charging status. A full charge typically takes approximately 4 hours.
4. Disconnect the charger once charging is complete.

6. MAINTENANCE

6.1 Cleaning

Wipe the device with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners. Ensure all ports are dry before charging.

6.2 Battery Care

- Avoid fully discharging the battery frequently.
- Store the device in a cool, dry place when not in use for extended periods.
- Charge the battery at least once every three months to maintain its health.

6.3 Storage

Store the walkie talkie in a dry, dust-free environment, away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on	Low or depleted battery; improperly installed battery.	Charge the battery; ensure battery is correctly installed.
No network signal	Out of 4G LTE coverage area; SIM card issue.	Move to an area with better signal; contact OMIZN support for SIM card replacement if necessary.
Cannot transmit or receive	Incorrect group/contact selected; PTT button not pressed correctly; network issue.	Verify selected group/contact; ensure PTT button is held during transmission; check network status.
Poor audio quality	High background noise; microphone/speaker obstruction.	Ensure noise reduction is active; clear any obstructions from microphone/speaker.
