Lava Lava Bold 5G

Lava Bold 5G Smartphone User Manual

Model: Lava Bold 5G

INTRODUCTION

This manual provides essential information for the safe and efficient use of your Lava Bold 5G smartphone. Please read this guide thoroughly before operating your device to ensure optimal performance and longevity. The Lava Bold 5G features a 3D Curved FHD+ AMOLED Display, a Mediatek Dimensity 6300 Processor, IP64 water resistance, and a 64MP rear camera.

SETUP

Unboxing and Initial Inspection

Carefully unbox your Lava Bold 5G and check for all included accessories:

- Lava Bold 5G Smartphone
- Power Adapter
- USB Cable
- SIM Tray Ejector Pin
- Phone Case
- USB-C to 3.5mm Connector

Segment's Only

Inserting the SIM Card

1. Locate the SIM card tray on the side of the device.
2. Insert the SIM ejector pin into the small hole next to the tray and press gently until the tray pops out.
3. Place your Nano-SIM card(s) into the tray with the gold contacts facing down.
4. Carefully reinsert the tray into the phone.

Charging the Device

Connect the USB cable to the power adapter and then to the USB-C port on your phone. Plug the power adapter into a wall outlet. The device supports 33W fast charging. It is recommended to fully charge the device before first use.

Powering On and Initial Configuration

Press and hold the Power button until the Lava logo appears. Follow the on-screen instructions to select your language, connect to a Wi-Fi network, and set up your Google account. This process will guide you through essential settings to

personalize your device.

OPERATING YOUR LAVA BOLD 5G

Display and Navigation

The Lava Bold 5G features a 6.67-inch FHD+ 120Hz 3D Curved AMOLED Display. Navigate the interface using touch gestures: tap to select, swipe to scroll, pinch to zoom. The 120Hz refresh rate provides a smooth visual experience.

Security Features

Unlock your phone securely using the In-Display Fingerprint sensor or Face Unlock. To set up these features, navigate to *Settings > Security & privacy > Device unlock* and follow the instructions.

Connectivity

The Lava Bold 5G supports 5G networks, Wi-Fi, and Bluetooth for seamless connectivity. Access these settings via the Quick Settings panel (swipe down from the top of the screen) or through *Settings > Network & internet* and *Settings > Connected devices*.

MAINTENANCE

Dust and Water Resistance (IP64)

The Lava Bold 5G is rated IP64 for dust and water resistance. This means it is protected against dust ingress and splashing water from any direction. It is not designed for submersion in water. Avoid exposing the device to high-pressure water, saltwater, or other liquids. If the device gets wet, dry it thoroughly before charging or using the ports.

Software Updates

Your device runs on a clean Android 14 OS and is assured an upgrade to Android 15, along with 2 years of security updates. Regularly check for and install software updates to ensure your device has the latest features, security patches, and performance improvements. Go to *Settings > System > Software update* to check for available updates.

Battery Care

The device is powered by a 5000 mAh Lithium Polymer battery. To maximize battery life, avoid extreme temperatures, use the provided charger, and avoid fully discharging the battery frequently. For optimal charging, use the 33W fast charger included with your device.

Cleaning Your Device

Use a soft, lint-free cloth to clean the screen and body of your phone. Avoid using harsh chemicals or abrasive materials, which can damage the display or finish.

TROUBLESHOOTING

If you encounter issues with your Lava Bold 5G, try the following solutions:

- **Device Not Responding:** Press and hold the Power button for about 10-15 seconds to force a restart.
- **Battery Draining Quickly:** Check background app usage in *Settings > Battery*. Reduce screen brightness and disable unnecessary features like GPS or Bluetooth when not in use.
- **Performance Issues (Lagging/Heating):** Close unused applications. Clear cache for apps that are frequently used (*Settings > Apps > [App Name] > Storage & cache > Clear cache*). If heating persists during normal use, contact support.
- **Network Connectivity Problems:** Toggle Airplane Mode on and off. Restart your device. Check your SIM card insertion.
- **Camera Issues:** Ensure the camera lens is clean. Restart the camera app or the device.

If problems persist, consider performing a factory data reset (*Settings > System > Reset options > Erase all data (factory reset)*). **Warning:** This will erase all data on your phone. Back up important information before proceeding.
