## SAFETY INFORMATION

**WARNING: CHOKING HAZARD - Small Parts.** This kit contains small components that may pose a choking hazard. Not suitable for children under 3 years. Adult supervision is recommended during assembly, especially for users under 14 years of age.

## PACKAGE CONTENTS

Your Rolife DIY Miniature House Kit (Baking Kitchen) includes approximately 359 pieces. Please verify that all components are present before starting assembly. The kit typically contains:

- Pre-cut wooden sheets for structural components and furniture.
- Various miniature accessories (e.g., kitchen utensils, food items, decor).
- LED light components and wiring.
- Detailed instruction manual with illustrations.

- Adhesive (if required for specific parts, though many parts are snap-fit).

## SETUP AND ASSEMBLY

This kit is designed for easy assembly, primarily utilizing a snap-fit and glue-free construction method for many parts. The estimated assembly time is approximately 6 hours.

### 1. Preparation

- Clear a well-lit, spacious work area.
- Organize all components by type or number as indicated in the instruction manual.
- Ensure you have any necessary tools, such as small scissors, tweezers, or a craft knife (not included).
- Prepare 2 AAA batteries for the LED lighting (batteries not included).

## OPERATING INSTRUCTIONS

### LED Lighting

The miniature house kit includes LED lighting to enhance its display. To operate the lights:

1. Ensure 2 AAA batteries are correctly installed in the designated battery pack (refer to the assembly manual for location).
2. Locate the power switch, typically found on the battery pack or a discreet location within the model.
3. Toggle the switch to turn the LED lights on or off.

## MAINTENANCE

- **Cleaning:** Use a soft, dry cloth or a small brush to gently remove dust from the miniature components. Avoid using liquids or harsh cleaning agents.
- **Storage:** Store the assembled kit in a dry environment, away from direct sunlight and extreme temperatures, to prevent material degradation.
- **Battery Replacement:** If the LED lights dim or stop working, replace the AAA batteries. Ensure correct polarity during installation.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Pieces do not fit together.	Incorrect orientation or misalignment.	Review the instruction manual carefully for the correct orientation and ensure proper alignment before applying pressure. Do not force pieces.
LED lights do not turn on.	Batteries are dead, incorrectly installed, or switch is off.	Check battery polarity, replace with fresh AAA batteries, and ensure the power switch is in the 'ON' position. Verify all wiring connections are secure.
Missing or damaged parts.	Manufacturing defect or oversight.	Contact Rolife customer support with your purchase details and a description of the missing/damaged part for assistance.
