K&F CONCEPT KF13.196

K&F CONCEPT Camera Neck Strap KF13.196 User Manual

Model: KF13.196

Brand: K&F CONCEPT

1. Introduction

Thank you for choosing the K&F CONCEPT Camera Neck Strap. This manual provides essential information for the proper setup, operation, and maintenance of your new camera strap. Designed for comfort and security, this 100cm nylon rope strap with O-rings is compatible with most DSLR and mirrorless cameras, offering a reliable solution for carrying your equipment.

2. Product Features

- **Safety and Durability:** Constructed from high-quality, wear-resistant nylon, ensuring long-lasting performance and secure camera support.
- **Universal Compatibility:** Features double-ended metal connecting O-rings, making it compatible with the shoulder strap loops of most DSLR and mirrorless cameras.
- **Easy Storage:** The flexible rope design allows the strap to be easily rolled up for compact storage, fitting conveniently into any camera bag. Ideal for outdoor use.
- **Reduced Fatigue:** Effectively distributes camera weight across your neck or shoulder, minimizing hand fatigue during extended use and allowing for quick, comfortable access to your camera.

- **Lightweight Design:** Weighs only 60 grams (2.1 ounces), providing a stress-free carrying experience.

3. Setup (Installation)

Follow these steps to securely attach the camera strap to your device:

1. Locate the strap eyelets on your camera body. These are typically small metal loops on the sides of the camera.
2. Thread the small leather tab of the strap through one of the camera's eyelets.
3. Pass the metal O-ring through the loop created by the leather tab. Ensure the leather protector is positioned between the O-ring and the camera body to prevent scratches.
4. Repeat the process for the other side of the strap and the remaining camera eyelet.
5. Gently pull on both ends of the strap to ensure it is securely fastened to the camera.

Compatibility Notes:

The O-ring design is highly versatile. For cameras with triangular strap rings, these can often be removed to allow direct attachment of the K&F CONCEPT strap's O-ring for a cleaner fit. Always ensure the attachment is secure before use.

4. Operating Instructions (Usage)

The K&F CONCEPT Camera Neck Strap offers multiple comfortable carrying options:

- **Neck Carry:** Wear the strap around your neck for quick access and even weight distribution.
- **Shoulder Carry:** Drape the strap over one shoulder for a relaxed carrying style.
- **Cross-Body Carry:** Wear the strap diagonally across your body for maximum security and stability, keeping your camera close and ready for action.

5. Maintenance

To ensure the longevity and optimal performance of your K&F CONCEPT Camera Neck Strap, please follow these maintenance guidelines:

- **Cleaning:** Wipe the nylon rope with a damp cloth and mild soap if necessary. Avoid harsh chemicals or abrasive cleaners. For the leather components, use a specialized leather cleaner and conditioner.
- **Drying:** Allow the strap to air dry completely after cleaning. Do not expose it to direct sunlight or high heat, which can damage the materials.
- **Storage:** Store the strap in a cool, dry place away from direct sunlight when not in use. Rolling it up neatly can prevent tangling and maintain its shape.
- **Inspection:** Regularly inspect the nylon rope, leather tabs, and metal O-rings for any signs of wear, fraying, or damage. If any damage is observed, discontinue use and consider replacement to prevent potential camera damage.

6. Troubleshooting

If you encounter any issues with your camera strap, refer to the following common solutions:

- **Strap does not fit camera eyelets:** Ensure that any existing triangular rings on your camera are removed if they obstruct the O-ring attachment. The strap's O-rings are designed for direct attachment to most standard camera eyelets.
- **Strap feels uncomfortable:** Adjust the camera's position on your body (neck, shoulder, cross-body) to find the most comfortable fit. The strap is designed to distribute weight, but personal preference for carrying style varies.
- **Concerns about strap security:** Double-check that both O-rings are fully threaded through the leather tabs and securely attached to the camera eyelets. Always perform a gentle tug test before entrusting your camera to the strap.
- **Strap appears worn or damaged:** Discontinue use immediately. Continued use of a damaged strap can lead to camera damage. Contact customer support for replacement options.

7. Specifications

Feature	Detail
Brand	K&F CONCEPT
Model Number	KF13.196
Material Type	Nylon, Cowhide, Stainless Steel
Color	Black
Item Length	100 cm (39.3 inches)
Item Weight	0.06 Kilograms (2.1 ounces)
Item Dimensions	5.91 x 3.54 x 0.59 inches (packaged)
Fastener Type	O-ring
Style Name	Classic

8. Warranty and Support

K&F CONCEPT products are manufactured to high-quality standards. For specific warranty information, please refer to the product packaging or the official K&F CONCEPT website. If you require technical assistance, have questions about product usage, or need to report a defect, please contact K&F CONCEPT customer support through their official channels. Please have your product model number (KF13.196) and purchase details ready when contacting support.
